ELLE PHELPS*The Soul of the Marionette* Artisan

From the provocative author of *Straw Dogs* comes an incisive, surprising intervention in the political and scientific debate over religion and atheism. When you explore older atheisms, you will find that some of your firmest convictions—secular or religious—are highly questionable. If this prospect disturbs you, what you are looking for may be freedom from thought. For a generation now, public debate has been corroded by a shrill, narrow derision of religion in the name of an often vaguely understood “science.” John Gray’s stimulating and enjoyable new book, *Seven Types of Atheism*, describes the complex, dynamic world of older atheisms, a tradition that is, he writes, in many ways intertwined with and as rich as religion itself. Along a spectrum that ranges from the convictions of “God-haters” like the Marquis de Sade to the mysticism of Arthur Schopenhauer, from Bertrand Russell’s search for truth in mathematics to secular political religions like Jacobinism and Nazism, Gray explores the various ways great minds have attempted to understand the questions of salvation, purpose, progress, and evil. The result is a book that sheds an extraordinary light on what it is to be human.

The author of the most well-known and trusted relationship book of all time returns with an updated guide for today’s generation. Two decades ago, *Men Are from Mars, Women Are from Venus* revolutionized the way we thought about love and partnership. John Gray’s work has helped countless readers improve and even save their relationships. But as society evolves, relationships do, too. It’s time to move beyond Mars and Venus, toward a new relationship model for modern couples. Today, men and women are no longer trapped by rigid societal roles. Now more than ever, we have the freedom to be our authentic selves. Women can access their masculine side, and men can embrace their feminine side. This new freedom is a good thing, but it also brings new challenges. Men and women still need the right tools and skills to help build stronger relationships. While previous generations sought “role mate”

relationships, based on the more rigid gender roles of the time, today's couples need a new kind of relationship: a "soul mate" relationship. These more emotionally satisfying relationships require a deeper understanding of our partners' individual needs. In *Beyond Mars and Venus*, Gray teaches you how to strengthen your bond and grow in love together, so you and your loved one can meet each other's needs in the best way possible, bringing you lasting happiness and a fulfilling partnership.

Edgar the Owl and Freddy the Fox show readers of all ages how saying goodbye to a beloved animal does not mean saying goodbye forever. A portion of proceeds will be donated to animal

shelters around the country. -----

When John's puppy Samuel died unexpectedly at just six months old it brought a profound sadness to their home and a sense that this was just not fair. For the first time John understood how a child must feel when they lose a pet of any age, asking themselves, "Why?" Hoping to turn his pain into something positive, John put pen to paper and wrote a story to help any child who has lost a pet. In *God Needed a Puppy* John guides children through the grieving process by using friendly animals from the forest to explain the reasons why a beloved pet sometimes has to leave us. He reassures them that this "goodbye" is not forever and offers hope that other furry friends will someday come into their lives.

Hayek, John Rawls and Robert Nozick, and explores their mutual connections and differences.

Old John Gray Macmillan

From respected academics like Carol Gilligan to pop-psych gurus like John Gray, and even the controversial Harvard President Lawrence Summers, the message has long been the same: Men and women are fundamentally different, and trying to bridge the gender gap can only lead to grief. But as the *New York Times* Book Review raved, Barnett and Rivers "debunk these

theories in a no-nonsense way, offering a refreshingly direct (i.e. unashamedly judgmental) critique of traditional parental roles, tutting at the couples they interviewed who cling to stereotyped ideas of the family."

"Blending case histories, new research and thoughtful analysis, the writers describe the divide between the sexes as a crevice, not a chasm. The good news: We're all a lot more flexible than the gender clichés let on."-Psychology Today

Straw Dogs is a radical work of philosophy that sets out to challenge our most cherished assumptions about what it means to be human. From Plato to Christianity, from the Enlightenment to Nietzsche and Marx, the Western tradition has been based on arrogant and erroneous beliefs about human beings and their place in the world. Philosophies such as liberalism and Marxism enthrone humankind as a species whose destiny is to transcend natural limits and conquer the Earth. Even in the present day, despite Darwin's discoveries, nearly all schools of thought take as their starting point the belief that humans are radically different from other animals. In Straw Dogs, John Gray argues that this humanist belief in human difference is an illusion and explores how the world and human life look once humanism has been finally abandoned.

The author of Straw Dogs, famous for his provocative critiques of scientific hubris and the delusions of progress and humanism, turns his attention to cats—and what they reveal about humans' torturous relationship to the

world and to themselves. The history of philosophy has been a predictably tragic or comical succession of palliatives for human disquiet. Thinkers from Spinoza to Berdyaev have pursued the perennial questions of how to be happy, how to be good, how to be loved, and how to live in a world of change and loss. But perhaps we can learn more from cats--the animal that has most captured our imagination--than from the great thinkers of the world. In Feline Philosophy, the philosopher John Gray discovers in cats a way of living that is unburdened by anxiety and self-consciousness, showing how they embody answers to the big questions of love and attachment, mortality, morality, and the Self: Montaigne's house cat, whose unexamined life may have been the one worth living; Meo, the Vietnam War survivor with an unshakable capacity for "fearless joy"; and Colette's Saha, the feline heroine of her subversive short story "The Cat", a parable about the pitfalls of human jealousy. Exploring the nature of cats, and what we can learn from it, Gray offers a profound, thought-provoking meditation on the follies of human exceptionalism and our fundamentally vulnerable and lonely condition. He charts a path toward a life without illusions and delusions, revealing how we can endure both crisis and transformation, and adapt to a changed scene, as cats have always done.

A leading expert in childhood

development makes the case for why self-directed learning -- "unschooling" -- is the best way to get kids to learn. In *Free to Learn*, developmental psychologist Peter Gray argues that in order to foster children who will thrive in today's constantly changing world, we must entrust them to steer their own learning and development. Drawing on evidence from anthropology, psychology, and history, he demonstrates that free play is the primary means by which children learn to control their lives, solve problems, get along with peers, and become emotionally resilient. A brave, counterintuitive proposal for freeing our children from the shackles of the curiosity-killing institution we call school, *Free to Learn* suggests that it's time to stop asking what's wrong with our children, and start asking what's wrong with the system. It shows how we can act—both as parents and as members of society—to improve children's lives and to promote their happiness and learning.

Without focus, communication breaks down in all relationships and frustration increases. In the midst of our accelerated progress, our modern society has lost our way. We have a greater consciousness of new possibilities but we feel less connected in our relationships due to our loss of focus. Gray offers practical strategies for increasing focus, clarity, memory, motivation and sustaining positive moods. He explains what causes ADHD, and perhaps even dementia, Alzheimer's disease and Parkinson's disease.

This is a fairy tale set, not in some far away mystical land but, in any town USA. The hero is a little girl named Polly who loves going to the park with her mother.

One day she notices homeless people sleeping on the benches. When Polly asks her mother why they are there, her mother tells her that they are good people who have simply lost their way. Polly offers to share her lunch with a homeless woman she has seen before. In exchange for her sweet gesture, the woman gives Polly a magic orchid that grants wishes. But there are two catches: you can't wish for anything for yourself, and with each wish the flower loses a petal. When Polly realizes the orchid has only four wishes left, she sets out to help as many people as she can. *Sweet Polly Petals* will teach children the virtue of helping those who are less fortunate, and has a surprise ending kids will love.

Mega-Pastor and media personality John Gray uses powerful Biblical principles to help you become your best self -- the

person God created you to be. In *Win From Within*, John Gray helps readers identify how best to handle the most difficult, challenging and yet necessary battle that we all face-our inner struggle to overcome the worst versions of ourselves. He offers biblical lessons to aid in combatting bad habits and limiting patterns so that the best version of ourselves emerges. *Win From Within* gives practical application to the story recorded in Genesis of Jacob wrestling with the man at the River Jabbok, and through it readers will learn how to become the persons they were created to be. The persons God intended each of us to be develops as we face our inner battles. With examples from his own life as well as his ministerial counseling,

Gray provides a pathway to awakening. He includes strategies for confronting the past, how we have been labeled, who people have said we are, even who we think we are, so that we can win the battle and be who God intends us to be. Jacob spent much of his life running and hiding from himself. At a certain point we, like Jacob, cannot run from our true selves anymore. We must stop and face ourselves if we are to become great. *Win From Within* helps us conquer our inner darkness and overcome such hindrances as fear, shame and guilt. This powerfully biblical self-help guide will push us toward victory over our inner struggles. Winning will make us the persons we have always wanted to be, the persons we have dreamed about becoming, the persons God created us to be.
