Star Wars** Scholastic

The first major
biography (since 1983)
of the great movie
mogul George Lucas,
whose marketing
techniques have

transformed the film business. His fourth Star Wars film, *The Phantom Menace*, released in 1999, was perhaps the most eagerly awaited cinematic event of all time.

The Cinema of George Lucas Teneo Press

The step-by-step companion to the work of George Lucas.

George Lucas has directed only five full-length pictures in thirty years, and yet he is one of the most influential of all contemporary filmmakers: not simply a director, he's also a writer, a producer and

an unparalleled technical pioneer, responsible for advances in digital projection, CGI and quality cinema sound. Yet he remains defiantly outside the Hollywood system, financing his - and other people's - pictures out of his own funds, creatively answerable to no one but himself. Starting with his time as a film student, this is a critical journey through the films Lucas has directed and actively produced. It encompasses his abstract early works such as *Look at Life* and *6.18.67*, the mainstream successes of *American Graffiti*, *Star Wars* and *Indiana Jones* and the record selling *Star Wars* prequel trilogy. There is also an extensive

section detailing other projects in which he has had a hand, such as Paul Schraeder's *Mishima*, Haskell Wexler's controversial *Latino* and Francis Ford Coppola's *Tucker: The Man and His Dream*.

This is an indispensable reference to the work of George Lucas- the mogul, the mythmaker, the one man brand and the most successful independent filmmaker who has ever lived.

George Lucas
Turtleback

George Lucas is one of the most innovative bigtime players on the movie scene. His three Star Wars films and the trio featuring the action hero Indiana Jones (all six of which Lucas conceived, produced and co-

wrote) are some of the most popular films ever made. To finance them, he masterminded a revolutionary redrawing of the financial agreements under which films were produced in Hollywood, snatching away control of funding, intellectual content and the distribution of profits from studios, and placing them in the hands of the filmmakers themselves.
