"I think that one of the great strengths of this book is its 'real-life' cases for the students to examine from multiple perspectives." -Sherry Dingman, Marist College  
 "This book approaches ethics from a unique perspective that appeals to students. In addition to providing stimulating cases, it provides the framework and legal background important to psychologists-in-training. Amazing work!...The vignette approach makes the book much more interesting than its competitors." -Misty Ginicola, Southern Connecticut State University  
 Full coverage of the American Psychological Association's (APA) Ethical Principles of Psychologists and Code of Conduct and engaging vignettes to draw students into Ethics for Psychologists, a unique textbook that explores the standards of conduct in the field of psychology from key perspectives, including the multicultural, moral, and legal perspectives. Focusing on complex ethical dilemmas students

may encounter in real life, this book offers a variety of frameworks through which to examine such dilemmas, as well as commentaries about the dictates of our personal codes of ethics. Students are challenged to take control of their learning experience by moving beyond the basics of looking up each situation to find "the right thing to do," into a more active and engaged approach with the goal of becoming ethical thinkers and informed decision-makers.

Anthony Augustus Angelo's earliest childhood memories revolve around his Italian American family who did everything the Catholic Church and his grandfather dictated, and continues through his unlikely metamorphosis into a public school English teacher. He speaks frankly about his own pitiful education, and the education of his students in the forty years he wielded the chalk. For Triple A, Ant'ny, or, as the kids called him, Tony, the broken English that filled his adolescent years came as an inspiration from his mother and condemnation from his totalitarian and often drunk grandfather. Loosely based on the life of author Tony Rotondo, *Scratch Where It Itches: Confessions of a Public School Teacher*, shares his memories of life in the 1940s and 1950s in a small industrial town in southeastern Pennsylvania. Mr. Angelo reminisces about his education in Catholic and public schools where his cheeks-facial and gluteal-bear the brunt of mean-spirited nuns during the good ol'days filled with poverty, pasta, and penance. Today, Mr. Angelo, a husband and father of three, is as

hapless in the home as he is outstanding in the classroom. But his real itch is the state of education, both public and parochial. He thinks it stinks, and he wants you to know why.

Ballantine Books

A sociological approach to understanding new

media's impact on society

We use cell phones, computers, and tablets to access the Internet, read the news, watch

television, chat with our friends, make our

appointments, and post on social networking sites.

New media provide the backdrop for most of our

encounters. We swim in a technological world yet

we rarely think about how new media potentially

change the ways in which we interact with one

another or shape how we live our lives. In *New*

*Media and Society*, Deana Rohlinger provides a

sociological approach to understanding how new

media shape our interactions, our

experiences, and our institutions. Using case

studies and in-class exercises, Rohlinger

explores how new media alter everything from our

relationships with friends and family to our

experiences in the workplace. Each chapter

takes up a different topic – our sense of self and our relationships, education,

religion, law, work, and politics – and assesses

how new media alter our worlds as well as our

expectations and experiences in

institutional settings.

Instead of arguing that

these changes are “good”

or “bad” for American

society, the book uses

sociological theory to

challenge readers to think

about the consequences

of these changes, which

typically have both

positive and negative

aspects. *New Media and*

*Society* begins with a brief

explanation of new media

and social institutions,

highlighting how

sociologists understand

complex, changing

relationships. After

outlining the influence of

new media on our

identities and

relationships, it discusses

the effects new media

have on how we think

about education, practice

our religions, understand

police surveillance,

conceptualize work, and

participate in politics.

Each chapter includes key

sociological concepts,

engaging activities that

illustrate the ideas

covered in the chapter, as

well as links, films, and

references to additional

online material.

Joshua Harris's first book, written when he was only 21, turned the Christian singles scene upside down...and people are still talking. More than 800,000 copies later, *I Kissed Dating Goodbye*, with its inspiring call to sincere love, real purity, and purposeful singleness, remains the benchmark for books on Christian dating. Now, for the first time since its release, the national #1 bestseller has been expanded with new content and updated for new readers. Honest and practical, it challenges cultural assumptions about relationships and provides solid, biblical alternatives to society's norm. Clear, stylish typeset, with user-friendly links to referenced Scripture.

People's Literature! From the New York Times and USA Today bestselling author of the *Shatter Me* series comes a powerful, heartrending contemporary novel about fear, first love, and the devastating impact of prejudice. It's 2002, a year after 9/11. It's an extremely turbulent time politically, but especially so for someone like Shirin, a sixteen-year-old Muslim girl who's tired of being stereotyped. Shirin is never surprised by how horrible people can be. She's tired of the rude stares, the degrading comments—even the physical violence—she endures as a result of her race, her religion, and the hijab she wears every day. So she's built up protective walls and refuses to let anyone close enough to hurt her. Instead, she drowns her frustrations in music and spends her afternoons break-dancing with her brother. But then she meets Ocean James. He's the first person in forever who really seems to want to get to know Shirin. It terrifies her—they seem to come from two irreconcilable worlds—and Shirin has had her guard up for so long that she's not sure she'll ever be able to let it down.

 "Basing her story on the published accounts of her true-life heroine, Mary Ellen Todd, Van Leeuwen describes a family's tumultuous journey along the Oregon Trail in 1852." --Publishers Weekly With only a guide book to show them the way, the Todd family sets out from their Arkansas home on a two thousand mile trek to claim unchartered Oregon Territory. Crossing rough terrain and encountering hostile people, the Todds show their true pioneering spirit. But as winter draws near, will the Todds have the strength to complete their journey? And if they make it, will Oregon fulfill their dreams? "This is a convincing picture of a pioneer journey that does a good job of showing the tremendous sacrifices people made to follow their dream of a better life." -School Library Journal

How did the movie *The Shawshank Redemption* fail at the box office but go on to gross more than \$100 million as a cult classic? How did *The 48 Laws of Power* miss the bestseller lists for more than a decade and still sell more than a million copies? How is *Iron Maiden* still filling

stadiums worldwide without radio or TV exposure forty years after the band was founded? Bestselling author and marketer Ryan Holiday calls such works and artists perennial sellers. How do they endure and thrive while most books, movies, songs, video games, and pieces of art disappear quickly after initial success? How can we create and market creative works that achieve longevity? Holiday explores this mystery by drawing on his extensive experience working with businesses and creators such as Google, American Apparel, and the author John Grisham, as well as his interviews with the minds behind some of the greatest perennial sellers of our time. His fascinating examples include: • Rick Rubin, producer for Adele, Jay-Z, and the Red Hot Chili Peppers, who teaches his artists to push past short-term thinking and root their work in long-term inspiration. • Tim Ferriss, whose books have sold millions of copies, in part because he rigorously tests every element of his work to see what generates the strongest response. • *Seinfeld*, which managed to

capture both the essence of the nineties and timeless themes to become a modern classic.

- Harper Lee, who transformed a muddled manuscript into *To Kill a Mockingbird* with the help of the right editor and feedback.
- Winston Churchill, Stefan Zweig, and Lady Gaga, who each learned the essential tenets of building a platform of loyal, dedicated supporters.

Holiday reveals that the key to success for many perennial sellers is that their creators don't distinguish between the making and the marketing. The product's purpose and audience are in the creator's mind from day one. By thinking holistically about the relationship between their audience and their work, creators of all kinds improve the chances that

their offerings will stand the test of time.
