Chip Carving is the art of removing small sections of wood from a single piece of timber, usually to form geometric patterns. Finished pieces can be very intricate and complex but amazing

results can be achieved surprisingly easily with the right guidance. Unlike many types of woodworking, chip carving requires very few tools, usually just two knives, and is a wonderful way to decorate all manner of existing objects including boxes, plates and furniture. The author guides the reader through the process of creating 15 distinctive projects. The necessary stages are explained with the use of detailed step-by-step photographs and accompanying text. The author also explains how to go about planning and designing each project in preparation for the actual carving process.

HarperCollins

The second book in Lois Lowry's *Giver Quartet*, which began with the bestselling and Newbery Medal-winning *The Giver*. Left orphaned and physically flawed in a

civilization that shuns and discards the weak, Kira faces a frighteningly uncertain future. Her neighbors are hostile, and no one but a small boy offers to help. When she is summoned to judgment by The Council of Guardians, Kira prepares to fight for her life. But the Council, to her surprise, has plans for her. Blessed with an almost magical talent that keeps her alive, the young girl faces new responsibilities and a set of mysteries deep within the only world she has ever known. On her quest for truth, Kira discovers things that will change her life and world forever. A compelling examination of a future society, *Gathering Blue* challenges readers to think about community, creativity, and the values that they have learned to accept. Once again Lois Lowry brings readers on a provocative journey that inspires contemplation long after the last page is turned. "This extraordinary novel is remarkable for its fully realized characters, gripping plot, and Lowry's singular vision of a future." —VOYA *The Giver*
