The Shade of the Moon Simon and Schuster

An impossible diplomatic mission. Dangerously growing magic. A distrustful crew. Can Nile beat back the rising tide of war before it's too late? Six months have passed since Princess Nile Greysik changed the course of the Tirik war and earned her place in the Felielle navy . . . or thought she did. Felielle sailors balk at serving under a girl, and it will take more than orders to overturn centuries of tradition. Joined by a mysterious empath named Kyra, Nile may have a chance to prove herself on a desperate diplomatic mission to secure an alliance with the isolationist Diante Empire. But with a distrustful crew waiting for her to fail and even Domenic questioning Nile's authority, one wrong step and Nile's naval career is sunk. When a terrifying new evil strikes their ship, Nile begins to understand the awful truth about the enemy they're facing—and this time, not even her wind calling may be enough to save them. SEA AND SAND is the explosive third novel in the Amazon-bestselling Tides series, a seafaring adventure of duty, love, magic, and a princess's quest to protect her kingdom on her own terms. Recommended for fans of Sarah J. Maas and Tamora Pierce

When a routine hanging goes wrong and a murderer somehow survives the noose, the man announces he is an immortal. And not just any immortal, but Cayal, the Immortal Prince, hero of legend, thought to be only a fictional character. To most he is a figure out of the Tide Lord Tarot, the only record left on Amyrantha of the mythical beings whom fable tells created the race of half-human, half-animal Crasii, a race of slaves. Arkady Desean is an expert on the legends of the Tide Lords so at the request of the King's Spymaster, she is sent to interrogate this would-be immortal, hoping to prove he is a spy, or at the very least, a madman. Though she is set the task of proving Cayal a liar, Arkady finds herself believing him, against her own good sense. And as she begins to truly believe in the Tide Lords, her

own web of lies begins to unravel... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Promised freedom upon the death of their owner, she and her sister, Ruth, in a cruel twist of fate become the property of a malicious New York City couple, the Locktons, who have no sympathy for the American Revolution and even less for Ruth and Isabel. I guess I always felt even if the world came to an end, McDonald's still would be open. High school sophomore Miranda's disbelief turns to fear in a split second when an asteroid knocks the moon closer to Earth, like "one marble hits another." The result is catastrophic. How can her family prepare for the future when worldwide tsunamis are wiping out the coasts, earthquakes are rocking the continents, and volcanic ash is blocking out the sun? As August turns dark and wintery in northeastern Pennsylvania, Miranda, her two brothers, and their mother retreat to the unexpected safe haven of their sunroom, where they subsist on stockpiled food and limited water in the warmth of a wood-burning stove. Told in a year's worth of journal entries, this heart-pounding story chronicles Miranda's struggle to hold on to the most important resource of all--hope--in an increasingly desperate and unfamiliar world. Toll the Hounds HarperCollins

A thrilling, harrowing novel of war, intrigue and dark, uncontrollable magic, *Toll the Hounds* is the new chapter in Erikson's monumental series - epic fantasy at its most imaginative and storytelling at its most exciting. In Darujhistan, the city of blue fire, it is said that love and death shall arrive dancing. It is summer and the heat is oppressive, but for the small round man in the faded red waistcoat, discomfiture is not just because of the sun. All is not well. Dire portents plague his nights and haunt the city streets like fiends of shadow. Assassins skulk in alleyways, but the quarry has turned and the hunters become the hunted. Hidden hands pluck the strings of tyranny like a fell chorus. While the bards sing their tragic tales, somewhere in the distance can be heard the baying of Hounds...And in the distant city of Black Coral, where rules Anomander Rake, Son of Darkness, ancient crimes awaken, intent on revenge. It seems Love and Death are indeed about to arrive...hand in hand, dancing. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

All the Tides of Fate Houghton Mifflin Harcourt

One night in October when he was ten years old, Tyler Dupree stood in his back yard and watched the stars go out. They all flared into brilliance at once, then disappeared, replaced by a flat, empty black barrier. He and his best friends, Jason and Diane Lawton, had seen what became known as the Big Blackout. It would shape their lives. The effect is worldwide. The sun is now a featureless disk - a heat source, rather than an astronomical object. The moon is gone, but tides remain. Not only have the world's artificial satellites fallen out of orbit, their recovered remains are pitted and aged, as though they'd been in space far longer than their known lifespans. As Tyler, Jason, and Diane grow up, space probe reveals a bizarre truth: The barrier is artificial, generated by huge alien artifacts. Time is passing faster outside the barrier than inside - more than a hundred million years per day on Earth. At this rate, the death throes of the sun are only about forty years in our future. Jason, now a promising young scientist, devotes his life to working against this slow-moving apocalypse. Diane throws herself into hedonism, marrying a sinister cult leader who's forged a new religion out of the fears of the masses. Earth sends terraforming machines to Mars to let the

onrush of time do its work, turning the planet green. Next they send humans...and immediately get back an emissary with thousands of years of stories to tell about the settling of Mars. Then Earth's probes reveal that an identical barrier has appeared around Mars. Jason, desperate, seeds near space with self-replicating machines that will scatter copies of themselves outward from the sun - and report back on what they find. Life on Earth is about to get much, much stranger.

Foxmask is the second book of a fantasy duet from Juliet Marillier, weaving history and folklore into a saga of adventure, romance, and magic. The Norseman Eyvind, a fierce and loyal Wolfskin, came to a new land on top of the world to find his destiny. With

his priestess bride Nessa he saved the land and weathered the treachery that was caused by Eyvind's blood-sworn friend Somerled. After much pain and sorrow the two lovers have managed to create a society where the Norse warriors and the gentle folks of the Orkney Isles live and thrive in contentment at last. A decade and more has passed since the devastating events of the creation of the settlement and Eyvind and Nessa have watched their children grow and thrive in peace. But not all on the islands are content or at peace. Thorvald, the young son of Margaret, widow of the slain king and Eyvind's war leader, has always felt apart and at odds with all he knows. He learns upon his coming to manhood that he is not his father's son but that of the love that Margaret bore for the hated Somerled and that Somerled was not killed for his treachery but sent on a boat, adrift with little more than a knife and skein of water, doomed to the god's will. Thorvald is determined to find a boat and cast off to the West in a desperate bid to find a father he never knew...and to find out if he is made of the same stuff as the heinous traitor. The tragedy of this scheme would be horrific enough...if it were not for the fact that Creidhe, the winsome daughter of Eyvind and Nessa has loved Thorvald since birth and unbeknownst to him conspires to go along on this most perilous of quests. What happens to them on their journey of discovery will ultimately change the lives of all they know and love...and will doom (or redeem) an entire people. The book presents a group of six friends whose reflections describe the intensity of childhood, the optimism and physical awareness of youth, the detachment of middle age. Sensations, emotions, perceptions come and go in the procession of the narrative like the passing of the seasons or the motion of waves. The recitatives of the characters creates an atmosphere more akin to a prose poem than a plot-centred novel.
