The long-awaited Revised

Standard Edition of the Complete Psychological Works of Sigmund Freud (RSE) is founded on the canonical Standard Edition (SE) translation from the German by James Strachey, while adding a new layer of revisions and translations. Conceptual and lexicographic ambiguities are clarified in extensive new annotations. Drawing on established conventions and intellectual traditions, the Revised Standard Edition supplements Freud's writing with substantial editorial commentaries addressing controversial technical terms and translation issues through the lens of modern scholarship—a living text in dialogue with itself and the reader. The RSE also includes 56 essays and letters which were not included in the SE. In the RSE text and footnotes a subtle underlining distinguishes, in an easy and accessible way, Mark Solms's revisions and additions, from the historical translation and commentaries of James

Strachey's Standard Edition. Readers can examine what Strachey contributed before the revisions in tandem with Solms's updates, new translations, annotations, and commentaries, collectively bringing Freud's text and Strachey's translation into dialogue with five decades of research, including the most recent developments in the field. Commissioned by the British Psychoanalytical Society and co-published by Rowman & Littlefield, the Revised Standard Edition brings together decades of scholarly deliberation concerning the translation of Freudian technical terms while retaining the best of Strachey's original English translation. This landmark work will captivate a wide audience, from interested lay readers to practicing clinicians to scientists and scholars in fields related to psychoanalysis.

Between August 2001 and February 2002, the Austrian conceptual artist Rainer Ganahl, who lives and works in New York, created a series of drawings entitled *Die letzten Tage der Sigmund Freud Banknote* (The Last Days of the Sigmund Freud Banknote). This series is in reference to the introduction of the Euro as the new Austrian currency and the discontinuance of the Austrian 50 Schilling banknote, which bears a portrait of Sigmund Freud. In consideration of Freud's importance for dream analysis, Ganahl recorded his dreams each morning until February 28, 2002, when the Schilling ceased to be a legal tender in Austria. Each drawing contains one 50 Schilling note, the dream and its associations, as well as the daily recorded value of the 50 Schilling banknote in different currencies and the number of books on sale at major online booksellers, Amazon.com and Bücher.de. With an introduction by the artist and texts by Paul Mattick, professor of philosophy at Adelphi University, and Sylvère Lotringer, General Editor of Semiotext(e), and a professor at the Center for Comparative

Literature and Society at Columbia University.

Spring Publications *Entre le séjour de Freud à Paris où il rencontre Charcot et 1897, année du renoncement à la théorie de la séduction comme explication générale de l'hystérie, se situe le parcours qui va faire d'un jeune neurologue et neurophysiologiste, engagé dans une carrière scientifique, le créateur de la psychanalyse. La leçon de Charcot, les échanges avec Josef Breuer à propos d'Anna O, l'amitié avec Fliess et son extrême capacité à s'identifier aux patients névrosés vont amener Freud à délaisser ses*

premiers objets de recherche, comme les aphasies, pour l'étude de l'hystérie. Abandonnat l'hypnose il en arrivera au protocole qui constitue toujours le cadre de la technique analytique et à ses découvertes princeps : le rôle de l'inconscient et de la sexualité infantile dans l'organisation du psychisme. Les temps essentiels de cette élaboration, en particulier la correspondance de Freud avec Fliess, l'expérience de l'autoanalyse et la constatation de l'universalité des sentiments oedipiens, constituent autant de moments exemplaires d'une véritable conquête.
