Physical Therapy and Massage for the Dog

J. A. Allen, Limited
 Caring for the Painful Thumb - More Than a Splint by Jan Albrecht, an Occupational Therapist and Certified Hand Therapist. It is a teaching tool for patients and therapists. With over 200 color illustrations, it is two books in one: half the book for the right hand and half for left to help patients visualize mobilization and stabilization techniques. Terminology a patient can understand. Textile taping for the painful thumb CMC joint described in detail. 52 sturdy pages, spiral bound. This durable book can be used at the treatment table, or independently by the patient at

the completion of therapy. Pages can be copied for handouts.

Essential Oils for Horses F.A. Davis
 The renowned animal trainer shares her unique behavior management techniques to get your dog happier, healthier, less stressed, and more obedient. Animal trainer Sarah Fisher is known for transforming the behavior of dogs who are beyond ordinary rehabilitation techniques. She also helps dog owners go beyond passive dog ownership to become observant, understanding, and pro-active dog guardians. In *Unlock Your Dog's Potential*, Fisher offers step-by-step instructions to using her methods at home. With simple exercises and invaluable training advice, you can safely and effectively reduce unwanted behaviors such as leash pulling, barking, and chewing. You will also learn to recognize

symptoms of stress or concern in your dog, and how you can alleviate these tensions to improve your dog's well-being and strengthen your bond. *Unlock Your Dog's Potential* covers a wide range of unique dog management techniques, including handling and bodywork exercises to improve movement and trainability. Case studies of dogs Fisher has worked with appear throughout the book to show how her techniques relate to real-life situations.

Unlock Your Dog's Potential Springer Nature

Now you can help your horse with simple acupressure techniques! Learn to identify your horse's individual "body constitution type," which determines your choice of acupressure treatment; understand the 12 main channels of energy in your horse's body, and gain the ability to choose the

correct points to treat specific issues. Relieve mild sources of pain and discomfort in your horse's body, influence his mental health and stability, and select appropriate treatment from a comprehensive list of common problems and their solutions, with step-by-step instructions and full-color photographs to help you help your horse.

Equine Massage Trafalgar Square Books
This book provides in-depth information on the applications of cannabis products as a legitimate medicine in treating a variety of diseases and disorders in domestic animals. Pharmacology and toxicology of cannabinoids and their effects on the endocannabinoid system, which is involved in the regulation of diverse physiological and cognitive processes, are discussed in detail. Furthermore, the book reviews development and testing of cannabis based medical products and introduces the nutritional components of cannabis plants. Cannabis as a therapeutic in veterinary medicine is gaining interest among owners and practitioners. Numerous studies have been completed or are currently underway that analyze the potential of clinical application of cannabinoid and terpenoid molecules. In this book the authors take a comprehensive look at previous studies in animal and human models and discuss translational applications based on these scientific data. This seminal text serves as a go-to resource for veterinary practitioners on cannabinoid therapy. It will also serve as a foundation for clinicians and researchers interested in this emerging field of veterinary medicine.

The Horse's Muscles in Motion Beneficence, Incorporated

[Kinesio Taping for Lymphoedema and Chronic Swelling](#) Turner Publishing

Company

A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the

awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.
