KIMBERLY HIGGINS

A Criminal History of

Mankind Simon and Schuster
Verteran investigative journalist Stevie Cameron first began following the story of missing women in 1998, when the odd newspaper piece appeared chronicling the disappearances of

drug-addicted sex trade workers from Vancouver's notorious Downtown Eastside. It was not until February 2002 that pig farmer Robert William Pickton would be arrested, and 2008 before he was found guilty, on six counts of second-degree murder. These counts were appealed and in 2010, the Supreme Court of Canada rendered its conclusion. The guilty

verdict was upheld, and finally this unprecedented tale of true crime could be told. Covering the case of one of North America's most prolific serial killers gave Stevie Cameron access not only to the story as it unfolded over many years in two British Columbia courthouses, but also to information unknown to the police - and not in the transcripts of their interviews with Pickton - such as from Pickton's long-time best friend, Lisa Yelds, and from several women who survived terrifying encounters with him. Cameron uncovers what was behind law enforcement's refusal to believe that a serial killer was at work. Serial Killer Quote of the Day Visible Ink

The shocking account of how a unit of average middle-aged Germans became the cold-blooded murderers of tens of thousands of Jews.

Tom White Harper Collins

Ian Brady and Myra Hindley's spree of torture, sexual abuse, and murder of children in the 1960s was one of the most appalling series of crimes ever committed in England, and remains almost daily fixated upon by the tabloid press. In *The Gates of Janus*, Ian Brady himself allows us a glimpse into the mind of a murderer as he analyzes a dozen other serial crimes and killers. Criminal profiling by a criminal was not invented by the dramatists of *Dexter*. Novelist and

true-crime writer Colin Wilson, author of the famous and influential book *The Outsider*, remarks in his introduction to Brady's book that one must first explore the depraved reaches of human consciousness to truly understand human character. When first released in 2001, *The Gates of Janus* sparked controversy attended by a huge media splash. The new edition, the first in paperback, provides the reader with a decade and a half of updates, including Brady's letters to the publisher, both providing information regarding his own demented history along with demands that Feral House remove its unflattering afterword written by

author Peter Sotos. *Mama Black Widow*

A true story of riveting psychological intensity by the assistant D.A. who prosecuted the captor of "the girl in the box". Called the "sex slave," and "the girl in the box" case, this is the story behind Colleen Stan's terrifying, seven-year-long imprisonment by Cameron Hooker as told by the district attorney who tried the case. Too bizarre to be anything but true, it is a tale of riveting intensity and gripping courtroom drama. *The Strange Case of Dr. H.H. Holmes*

This 210 paged book contains both journals written by Dylan Klebold and Eric Harris along with a side by side transcript for

easier reading. Both journals span two years leading up to what became America's worst high school shooting in U.S. history of its time. When both teenagers went on a shooting spree at Columbine High School in Littleton, Colorado, killing 13 people and wounding more than 20 others before turning their guns on themselves and committing suicide. Contained in these journals are their plans of how they envisioned killing as many as 500 students, before going on to attack neighbouring homes. As well as an eerie plan to hijack a jet and crash it in New York. Also included are some of Eric's internet writing and the infamous

'Basement tapes' transcripts partly recorded 30 minutes before their terrible killing spree. Cruel Sacrifice Transaction Publishers A visionary book in the repertoire of prison literature. When Normal Mailer was writing *The Executioner's Song*, he received a letter from Jack Henry Abbott, a convict, in which Abbott offered to educate him in the realities of life in a maximum security prison. This book organizes Abbott's by now classic letters to Mailer, which evoke his infernal vision of the prison nightmare. *Why They Kill* New Press, The Charles "Carl" Panzram was an American serial killer, rapist, arsonist, robber and burglar. In

prison confessions and his autobiography, he claimed to have committed 21 murders, most of which could not be corroborated, and over 1,000 acts of sodomy of boys and men. After a series of imprisonments and escapes, he was executed in 1930 for the murder of a prison employee at Leavenworth. Carl Panzram possessed an obsessive hatred for the human race that bordered on the maniacal. This loathing for himself and his fellow man was manifested in a lifetime of murder and mayhem. This book is a chilling and gripping account of one of the most brutal and gruesome true crime stories in American history. The riveting narrative draws the

reader into the real-live horror experienced by the victims and has all the elements of a classic thriller.

Neuroscience Harper Collins

Born in the shadows of a railroad yard, of a wandering mother who took her lovers where she found them and a father who was scarcely conscious of her arrival in the world, Bertha Thompson took to 'the road' as soon as the restless impulses of adolescence stirred in her. She was more interested in wanders than those who settled down in homes, more interested in criminals than law-abiding citizens. She wanted to see how they lived, live as they did, know what they were like. As a result of her restlessness and

curiosity, she became, in fifteen years of wandering, a hobo, traveling from one end of the country to the other in box-cars, "decking" passenger trains, and hitchhiking; member of a gang of shoplifters, traveling as the mistress of one of the men; a prostitute working in a Chicago brothel; the mother of a child of an unknown father; and a research worker for a New York social service bureau. *Sister of the Road* is Bertha's own story of those fifteen years and the record of her conclusions about them. Gifted with a naturally keen intelligence, fearless of consequences to herself, willing and eager to do and be everything which other members of her group did and were, her story

is a mine of little-known information and a succession of moving human stories about that vast and growing army of homeless, jobless, wandering women who live by begging, stealing, cheating, prostituting themselves, and occasionally working at legitimate jobs.

Lifer Charlie Bronson's reputation precedes him - 'Britain's most violent prisoner' - or does it? Do we really know the true Charlie, or are our impressions the result of media hype? Well, what is in no doubt is that Loonyology is 200% Bronson and will transport the reader on the dizziest no-holds-barred roller-coaster ride of their lives, from suspense and shock to

laughter and tears, and from Bronson the 'Solitary King' to Bronson the Philosopher, the Poet, the Artist, the Author, the Joker, the Walking Scar and the Freedom Fighter. Now 55 years old, and having spent most of his last 34 years as a maximum security 'Bronco Zoo' inmate, he's a much wiser man as he looks back on his crazy journey of unpredictable behaviour, his ever-alert mind darting from reminiscences of his teenage years to memories of fellow-cons, the screws, the cranks, letters and news reports, prison life and procedures, and the overall madness ('loonyology') of the legal and penal systems, peppering his stories with diary

entries, true gems of information, sound advice and hilarious one-liners. Together with his many supporters and with the aid of a top lawyer, Charlie is campaigning for the parole board to finally allow him his freedom, but begging is not his style: he calls a spade a spade and is determined to win with dignity, fighting with his pen and his brain to achieve his aim of a life outside 'the cage'. In his words: "I chose to be a villain. I'm not proud of it, nor am I ashamed of it. I have paid my debt to society and it's time to go home."

In the Belly of the Beast HarperCollins
Richard Rhodes,
Pulitzer Prize-winning author of *The Making of the Atomic Bomb*, brings his inimitable

vision, exhaustive research, and mesmerizing prose to this timely book that dissects violence and offers new solutions to the age old problem of why people kill. Lonnie Athens was raised by a brutally domineering father. Defying all odds, Athens became a groundbreaking criminologist who turned his scholar's eye to the problem of why people become violent. After a decade of interviewing several hundred violent convicts--men and women of varied background and ethnicity, he discovered "violentization," the four-stage process by which almost any human being can evolve into someone who will assault, rape, or murder another

human being. *Why They Kill* is a riveting biography of Athens and a judicious critique of his seminal work, as well as an unflinching investigation into the history of violence.

On February 1, 1929, Carl Panzram, the self-described "meanest

man who ever lived", stepped through the gates at the Leavenworth Penitentiary in Kansas. Upon entering the penitentiary, Panzram mentioned to the Warden that he would kill the first person who bothered him. Keeping his word, Panzram murdered the civilian laundry foreman who was taunting Panzram about his past crimes. A life of torture and suffering led Panzram to hate the entire human race and himself. His only friend was Washington D.C. corrections officer Henry Lesser, who Panzram continued corresponding with while incarcerated at USP Leavenworth. Eventually, Panzram is placed in segregation across from another famous criminal,

Robert Stroud, *The Birdman of Alcatraz*, who observes Panzram and writes about him. Panzram does not censor himself as he conveys his thoughts on murder, segregation, the death penalty, and his desire to die. Panzram at Leavenworth is the first book to accurately depict murderer Carl Panzram's time at the federal penitentiary. Presenting archival documents and photographs, a clear view of the events which transpired during Panzram's time at Leavenworth Penitentiary comes into focus.

Unit 731 *Journal of Murder*
Prison Life Writing is the first full-length study of one of the most controversial genres in American

literature. By exploring the complicated relationship between life writing and institutional power, this book reveals the overlooked aesthetic innovations of incarcerated people and the surprising literary roots of the U.S. prison system. Simon Rolston observes that the autobiographical work of incarcerated people is based on a conversion narrative, a story arc that underpins the concept of prison rehabilitation and that sometimes serves the interests of the prison system, rather than those on the inside. Yet many imprisoned people rework the conversion narrative the way they repurpose other objects in prison. Like a radio motor retooled

into a tattoo gun, the conversion narrative has been redefined by some authors for subversive purposes, including questioning the ostensible emancipatory role of prison writing, critiquing white supremacy, and broadly reimagining autobiographical discourse. An interdisciplinary work that brings life writing scholarship into conversation with prison studies and law and literature studies, *Prison Life Writing* theorizes how life writing works in prison, explains literature's complicated entanglements with institutional power, and demonstrates the political and aesthetic innovations of one of America's most fascinating literary

genres.

Kill 'Em All Random House Canada "An unforgettable look at the peculiar horrors and humiliations involved in solitary confinement" from the prisoners who have survived it (New York Review of Books). On any given day, the United States holds more than eighty-thousand people in solitary confinement, a punishment that—beyond fifteen days—has been denounced as a form of cruel and degrading treatment by the UN Special Rapporteur on Torture. Now, in a book that will add a startling new dimension to the debates around human rights and prison reform, former and current prisoners describe the devastating effects of

isolation on their minds and bodies, the solidarity expressed between individuals who live side by side for years without ever meeting one another face to face, the ever-present specters of madness and suicide, and the struggle to maintain hope and humanity. As Chelsea Manning wrote from her own solitary confinement cell, "The personal accounts by prisoners are some of the most disturbing that I have ever read." These firsthand accounts are supplemented by the writing of noted experts, exploring the psychological, legal, ethical, and political dimensions of solitary confinement. "Do we really think it makes sense to lock so many people alone in tiny

cells for twenty-three hours a day, for months, sometimes for years at a time? That is not going to make us safer. That's not going to make us stronger."

—President Barack Obama "Elegant but harrowing." —San Francisco Chronicle "A potent cry of anguish from men and women buried way down in the hole." —Kirkus Reviews Dear Dawn Harper Collins

"I have no desire whatever to reform myself. My only desire is to reform people who try to reform me. And I believe that the only way to reform people is to kill 'em. My motto is, Rob em all, Rape em all and Kill em all." - Carl Panzram In 1902, at the age of 11, Carl Panzram broke into a neighbour's home and stole some

apples, a pie, and a revolver. As a frequent troublemaker, the court decided to make an example of him and placed him into the care of the Minnesota State Reform School. During his two-year detention, Carl was repeatedly beaten, tortured, humiliated and raped by the school staff. At 15-years old, Carl enlisted in the army by lying about his age but his career was short-lived. He was dishonourably discharged for stealing army supplies and was sent to military prison. The brutal prison system sculpted Carl into the man that he would remain for the rest of his life. He hated the whole of mankind and wanted revenge. When Carl left prison in 1910, he set out to rob, burn,

rape and kill as many people as he could, for as long as he could. His campaign of terror could finally begin and nothing could stand in his way. Kill 'Em All is a chilling and gripping account of one of the most brutal and gruesome true crime stories in American history. Ryan Green's riveting narrative draws the reader into the real-live horror experienced by the victims and has all the elements of a classic thriller. The Journals of Dylan Klebold and Eric Harris [New York] : Macmillan
 This is a riveting and disturbing account of the medical atrocities performed in and around Japan during WWII. Some of the cruelest deeds of Japan's war in Asia did not occur on the battlefield, but in quiet, antiseptic medical wards in obscure parts of the continent. Far from front lines and prying eyes, Japanese doctors and their assistants subjected human guinea pigs to gruesome medical experiments. In the first part of Unit 731: Testimony author Hal Gold draws upon a painstakingly accumulated reservoir of sources to construct a portrait of the Imperial Japanese Army's most notorious

medical unit, giving an overview of its history and detailing its most shocking activities. The second half of the book consists almost entirely of the words of former unit members themselves, taken from remarks they made at a traveling Unit 731 exhibition held around Japan in 1994-95. These people recount their vivid first-hand memories of what it was like to cut open pregnant women as they lay awake on the vivisection table, inject plague germs into healthy farmers, and carry buckets of fresh blood and organs through corridors to their appropriate destinations. Unit 731: Testimony represents an essential addition to the growing body of literature on the still-unfolding story of one

of the most infamous "military" outfits in modern history. By showing how the ethics of normal men and women, and even an entire profession, can be warped by the fire of war, this important book offers a window on a time of human madness, in the hope that such days will never come again.
