Association Winner of the Mirra Komarovsky Book Award Winner of the CEP-Mildred García Award for Exemplary Scholarship "Eye-opening...Brings home the pain and reality of on-campus poverty and puts the blame squarely on elite institutions." —Washington Post "Jack's investigation redirects attention from the matter of access to the matter of inclusion...His book challenges universities to support the diversity they indulge in advertising." —New Yorker "The lesson is plain—simply admitting low-income students is just the start of a university's obligations. Once they're on campus, colleges must show them that they are full-fledged citizen." —David Kirp, American Prospect "This book should be studied closely by anyone interested in improving diversity and inclusion in higher education and provides a moving call to action for us all." —Raj Chetty, Harvard University The Ivy League looks different than it used to. College presidents and deans of admission have opened their doors—and their coffers—to support a more diverse student body. But is it enough just to admit these students? In this bracing exposé, Anthony Jack shows that many students' struggles continue long after

they've settled in their dorms. Admission, they quickly learn, is not the same as acceptance. This powerfully argued book documents how university policies and campus culture can exacerbate preexisting inequalities and reveals why some students are harder hit than others.

Learn from the Engagement Masters Education is a battle for attention. Whether you are a teacher trying to reach a classroom full of students or a parent trying to prepare your child for the world to come, getting our audience to just listen can be a real challenge. When students have access to personalized entertainment sitting in their pockets, anything that doesn't jump out and grab their attention right away is easily drowned out. But there is a place where even today all those modern distractions melt away--Disneyland. When you're there, you're not only in a different world, you're in Walt Disney's world. Whether you are Peter Pan flying over London in Fantasyland or a rebel fighter struggling against the First Order in Galaxy's Edge, you are 100% engaged. Sights, sounds and even smells ensure that your brain is locked into the experience. If we can bring those techniques into our teaching, we can create engaging experiences for our students, grab their attention, and boost their learning. You'll improve your teaching and create a place students want to visit. In this book we'll learn from the world's greatest engagement masters--the Disney Imagineers. Through narrative visits to attractions throughout Disneyland and Disney California Adventure, you'll experience a visit to the park as we share memories and see how the Imagineers make it all work. We'll be guided by Imagineering

Anti-Bias Education for Young Children and Ourselves David C Cook

Like no book before it, *Preachers of Hate* uncovers an ancient hatred that threatens the life and livelihood of every American. The “new” anti-Semitism targets not only Jews, but Americans specifically and the West in general. It targets our values, our lifestyle, and our freedoms. It is the single most important issue we face when trying to make sense of the Arab world. Most Americans will be stunned to discover the depth and extent of anti-Semitic hatred in today’s Middle East and Europe, and that many Muslim leaders are not just encouraging it, but spending a great deal of money to spread the lies that spawned the terrorists responsible for the September 11 attack on America. In *Preachers of Hate*, bestselling author Kenneth R. Timmerman (who is not Jewish) contends that, besides Islam itself, the core unifying force in the Muslim world is a virulent strain of anti-Semitism that postulates the existence of a Jewish conspiracy to take over the world. From the pulpits of fiery Muslim clerics to the Arab street, and to the highest reaches of government and state-sponsored media, there is a belief that this thousand-year-old conspiracy has already taken hold in America and is now, especially after the war in Iraq, about to do the same in the Middle East and beyond. It is seen as no less than Muslims’ historical destiny to prevent such a takeover, and to do so by any means possible. To misunderstand the ferocity of that belief is to vastly underestimate the resolve of many Muslims to repel America, Israel, and all things Western. Timmerman explores the roots of this hatred, examining its history, the religious sources upon which it draws, and how it is being transmitted to young people growing up in Arab societies by their leaders, their teachers,

and their mosques. He documents how U.S. and European Union money has been used to finance hatred in Palestinian schools. He exposes the double-talk of Arab leaders and their supporters in the West. As it so often was throughout history, this new strain of Jew hatred is really about much more than Jews. They get attacked first, when the enemies of America can’t attack Americans. However, what begins with the Jews never ends with the Jews. “Is there a conspiracy between America and the Jews?” asks Timmerman. “Indeed there is: A common heritage, a dedication to improving the human condition through compassion and tolerance of differences—a conspiracy of freedom. And that is why they hate us.” As with the Jews throughout history, America has been “unfairly successful.” As have the Jews, Americans have “profited” from the misery and poverty of others. If you hate Jews, you must also hate America. Such is the simple logic of the anti-Semite. Such, increasingly, is the logic of the Middle East. It is a message that is reinforced day in and day out by the official government-sanctioned Arab media, from the streets of Egypt, London, Lebanon, Saudi Arabia, Paris, and Gaza, and in the mosques where impassioned clerics quote verbatim texts like the *Protocols of the Elders of Zion*, a pillar of anti-Semitic hatred that originated in czarist Russia. As America reasserts her role in the Middle East and attempts to bring peace between Jews and Arabs, *Preachers of Hate* is an essential book that reframes a very complicated issue as a matter of life and death.

Children's ministry has the power to change the lives of kids and families. Unfortunately, it's not always clear that the work a person does with kids is really making a lasting difference. Ask children's ministry leaders and kid-influencers if they are making the impact on children's lives as they had hoped and most likely the responses will be mixed. And for good reason. Research over the past decade has revealed an alarming lack of long-term growth in the faith community as children progress through student ministries into adulthood. Clearly, something needs to change. Relational Children's Ministry seeks to reverse this trend by equipping children's ministry leaders with practical tools to disrupt the status quo approach to discipleship with children and realign their ministries for greater long-term impact. Ministry leaders will: Learn how to relate intentionally to kids and families by putting five discipleship invitations modeled by Jesus into practice Explore practical approaches to realign their children's ministry for a new trajectory by hitting three "reset buttons" to ensure long-term discipleship is embedded Encounter examples of disruptive disciple-makers in action and learn key principles that can be translated into their own ministry context Children's ministry leaders will receive practical training to refocus their children's ministry along with time-tested tools to personally recommit to lifelong discipleship. Kid-influencers can become a disciple-making community that redirects the current trajectory for this and future generations.

Being different from the masses is one of the greatest gifts that you possess! Let's face it: Who wants to be just like everyone else? Talk about boring! People come in all shapes and sizes and are born with natural and unnatural gifts and talents like no other, and your greatest challenge is to discover your gifts and then apply them to the world to create a

better place, a better planet, a better universe! That is my challenge to you so that all of us can get along peacefully and become truly a population of one. I would like to ask you some questions to help you discover what makes you unique, different, and awesome. Are you different? Are you unique? Do you look different than others? Talk differently than others? Do you walk differently than others? Have you been born with talents that very few others have? Have you been brainwashed to look at your talents as a disability? Do you stay up nights dwelling on all the things in life you don't have, rather than focus on all the blessings you do have? Have you ever been bullied at school, at home, and in many areas in your life? Have you ever been called a retard, dumb, disabled? If you have answered yes to any of these questions, perhaps you have yet to understand, accept, and apply your unique gifts to make the world a better place. If you have answered Yes to any of these questions, I feel your pain, I have walked in your shoes, and I can empathize with your situation. I have been bullied, called a retard, told that I am disabled, put in special classes, advised that I should not expect to reach my goals. My name is Tyler McNamer and I have been called ALL of the above many, many times in my life. I am nineteen years old and have been blessed with autism my entire life. I have chosen to accept my label of autism not as a disability but as an extraordinary ability and I want to help you overcome the label that you may have suffered from for many years of your life. So what is autism? The dictionary defines autism as a mental condition, present from early childhood, characterized by great difficulty in communicating and forming

relationships with others. Also, it is defined as a mental condition in which fantasy dominates over reality. So just how many people today are affected by this condition? According to a recent WebMD study, 1 in 88 kids today has autism and for boys the numbers is 1 in 54. Also you might be surprised to learn that since 2002, autism has increased by 78 percent. Let's put those numbers in perspective. A high school with 1,000 students enrolled is going to have 11 students with this condition, and a bigger high school with 2,500 students is going to have 28 students with autism. So, now that you know more about autism, let me highlight some of the things you will learn by reading this book since I want to assure you that this book is not just a book about autism it is a book about how we can all live together in harmony regardless of our differences. In this book, you are going to learn that, despite our differences and diversities, we can get along and become a population of one to serve others. In this book, you will learn the importance of becoming the leader in your own life, following your dreams. You will learn to focus on your blessings instead of being discouraged by your challenges. In this book, you will learn to embrace change and continue to learn for a lifetime. In this book, you will learn what it is like to be blessed with the unique ability of having autism. You will learn how not only to cope with your gifts, but to thrive in life and pursue your goals despite your challenges. In this book, you will learn how to turn your ability into a blessing to serve others
