This informative two-volume set provides readers with an understanding of the fads and crazes that have taken America by storm from colonial times to the present. Entries cover a range of topics, including food, entertainment, fashion, music, and language. Why could hula hoops and TV westerns only have been found in every household in the 1950s? What murdered Russian princess can be seen in one of the first documented selfies, taken in 1914? This book answers those questions and more in its documentation of all of the most captivating trends that have defined American popular culture since before the country began. Entries are well-researched and alphabetized by decade. At the start of every section is an insightful historical overview of the decade, and the set uniquely illustrates what today's readers have in common with the past. It also contains a Glossary of Slang for each decade as well as a bibliography, plus suggestions for further reading for each entry. Students and readers interested in history will enjoy discovering trends through the years in such areas as fashion, movies, music, and sports.

No Sleep is a visual history of the halcyon days of New York City club life as told through flyer art. Spanning the late 80s through the late 90s, when nightlife buzz travelled via flyers and word of mouth, No Sleep features a collection of artwork from the personal archives of NYC DJs, promoters, club kids, nightlife impresarios, and the artists themselves. Club flyers, by design, were ephemeral objects distributed on street corners, outside of nightclubs and concert halls, in barbershops and retail shops, and were not intended to be preserved for posterity. Through the 90s, they became both increasingly prevalent and more sophisticated as printing technology evolved. Overnight, however, with the advent of the internet, the flyer essentially disappeared, despite it being common at one time for promoters to print thousands of flyers for any given event. Recently, these flyers have become

sought-after collector's items.

During his birth on Christmas Day 1916 under a circling, grenade-dropping German warplane, Albert Torreele was blinded in one eye by a panicked midwife. That did not stop him on his tenacious path towards officerhood. He graduated from the Royal Military Academy in Brussels just in time to lead an ill-fated platoon straight into the German onslaught of May 10, 1940. A single shot that should have left him crippled sent him on a grueling odyssey, though his tumbling country to the edge of the hell of Dunkirk, and across the English Channel to the charming seaside town of Tenby where the Belgian forces regrouped and prepared for another chance to fight. Finding old friends and true love in Wales, Albert and his comrades of the Free Belgian Forces set their minds on a single goal - cross the English Channel, take back their home and free their families.

 Bill Ball was born in Oakland, California on June 21st, 1915, but since his parents moved to Wheatland before he was a year old, he always considered that small farming community his hometown. Wheatland, population 500, forty miles north of Sacramento, was an ideal place to grow up. With fields, pastures, woods, and the Bear River close by, plenty of adventures could feed the imagination of a young boy. A deserted cabin discovered in the woods became a castle for Bill and his 11-year-old pals. They learned to swim in the river, drying off on the warm sand bar, then seeking shade under the willows. Chores included lawn mowing, hedge trimming, wood gathering, or helping in the machine shop and gas station. Attending high school during the Great Depression, Bill saw first hand how Wheatland residents struggled to maintain a decent living. Graduating in 1933 with a class of fourteen ended what had been an idyllic adventure and it was off to the big city, Sacramento, to study engineering. College opened up a brand new world as he studied descriptive geometry, calculus, land surveying, and mechanical design. Bill's talent for music found expression in a dance band, where he played saxophone and clarinet. After completing the program in Sacramento, Bill moved on to Berkeley to attend the University of California, furthering his engineering studies and still playing the sax. Spending summers working survey parties and having part-time design jobs prepared Bill for his first post-college career assignment. Going to work for the Henry J. Kaiser company in 1938, he took a giant step, relocating to Mason City, Washington where Grand Coulee Dam was being constructed. Leaving a fiance behind in Oakland was tough, but the starting salary was persuasive and the opportunity priceless. Thus began a forty-year engineering career that took him all across the United States and around the world. The war years found Bill back in California working for Kaiser in the Richmond shipyards where more than 400 ships were built in 4 years. He married Helen Hederman in 1940, and their two daughters were born in those lean but exciting years. With civil and mechanical professional engineering licenses in hand, Bill embraced every new challenging assignment from dams to dredging, from automobile plants to aluminum smelters, from water reservoirs to rapid transit systems. He started as a junior engineer and was Vice President and Chief

Engineer with Kaiser Engineers and Constructors when he retired in 1979. In *Tales from a Grandfather*, dedicated to his two granddaughters and their grandmother, Bill relates stories of his boyhood, college years that were filled with learning about engineering, a joyous career that took him around the world, and the love he and his wife shared during 64 years of marriage. Bill still lives in Oakland near one daughter and granddaughter, meets regularly with colleagues from Kaiser, and is currently working on developing several short stories and a novel."  Some may read this book and find it straightforward and easy to comprehend, others may read this book with much incredulity and disbelief. This book, "My Little Garden of Eden" was written to enlighten my brothers and sisters in Jesus Christ, you're my family and friends; we are all sons and daughters of the Most High; this book is for you. It is better to believe and have faith in something, rather than not believe and have faith in nothing. In writing this book, My Little Garden of Eden, Junior Mendez ingeniously distinguishes between his human nature and the nature of his spirit. This book is a twofold autobiography of the spirit man and the fleshly man, one walked by faith and the other walked by sight. The internal spirit nature seeks after love, peace, and service to others, while human nature lust after beauty, pleasure, and material wealth. Through faith and his intellectual awareness of a higher power, Junior Mendez became convinced that the spiritual mind is far superior to the carnal mind. The mind is spiritual, divine and freewill, the mind is susceptible to the influence of spiritual forces. The brain regulates the biological functions of the body, it process complicated emotions, feelings, images and a multiplicity of information simultaneously. The mind conscieve thoughts and immaginations to vision and reason within our faith after hearing or reading the Word of the Sacred Scriptures. Faith brings hopes and dreams of a brighter future. Eeach of us shall experience the end of life in the flesh, but through faith my spirit shall be a child in the kingdom of God. Unlike the brain, the mind is unseen, it cannot be touch or seen by human. Spiritual forces of the natural and supernatural world discreetly influence the conscious and subconscious mind. *Congressional Record* Turtleback Books

Harper Roland has abandoned his job as a war correspondent, and returned home a weary, jaded 37-year-old. Uncertain of the future but determined to move forward with his life, he begins a search for enduring love--hoping he will also regain the ability to see the beauty of the world. Along the way, he meets an intellectually gifted but emotionally absent doctor, a beautiful Parisian artist who burns too hot to the touch, and a human rights lawyer who has left New York in search of a more centered life. The novel's sweeping tale encompasses four continents--where prior assumptions are constantly tested, and men who cling too passionately to certainty unleash destruction--and ultimately leads Harper back to the chaos he was trying to escape. The result is a startlingly fresh view of the contemporary world, in which place and history are mere starting points for the deeper journey into the geography of the human heart.

The first English-language biography of one of the great literary talents of the twentieth century, written by his award-winning translator “Bernofsky takes us into the heart of an artist’s life/work struggles, brilliantly illuminating Walser’s exquisite sensibility and uncompromising radical innovations, while deftly tracking how his life gradually came apart at the seams. A tragic and intimate portrait.”—Amy Sillman “Robert Walser is the perfect pathetic poet: pithy, awkward, drinks too much, sibling rivalrous, ambitious, broke, and mentally ill. Was he proto queer or trans, this red headed writer who next to Gertrude Stein might be the most influential writer of our moment? Riveting and heart-breaking, this biography kept me drunk for days.”—Eileen Myles

The great Swiss-German modernist author Robert Walser lived eccentrically on the fringes of society, shocking his Berlin friends by enrolling in butler school and later developing an urban-nomad lifestyle in the Swiss capital, Bern, before checking himself into a psychiatric clinic. A connoisseur of power differentials, his pronounced interest in everything inconspicuous and modest—social outcasts and artists as well as the impoverished, marginalized, and forgotten—prompted W. G. Sebald to dub him “a clairvoyant of the small.” His revolutionary use of short prose forms won him the admiration of Franz Kafka, Walter Benjamin, Robert Musil, and many others. He was long believed an outsider by conviction, but Susan Bernofsky presents a more nuanced view in this immaculately researched and beautifully written biography. Setting Walser in the context of early twentieth century European history, she provides illuminating analysis of his extraordinary life and work, bearing witness to his “extreme artistic delight.”

Despite an often unfair reputation as being less popular, less successful, or less refined than their bona-fide Broadway counterparts, Off Broadway musicals deserve their share of critical acclaim and study. A number of shows originally staged Off Broadway have gone on to their own successful Broadway runs, from the ever-popular A Chorus Line and Rent to more off-beat productions like Avenue Q and Little Shop of Horrors. And while it remains to be seen if other popular Off Broadway shows like Stomp, Blue Man Group, and Altar Boyz will make it to the larger Broadway theaters, their Off Broadway runs have been enormously successful in their own right. This book discusses more than 1,800 Off Broadway, Off Off Broadway, showcase, and workshop musical productions. It includes detailed descriptions of Off Broadway musicals that closed in previews or in rehearsal, selected musicals that opened in Brooklyn and in New Jersey, and American operas that opened in New York, along with general overviews of Off Broadway institutions such as the Light Opera of Manhattan. The typical entry includes the name of the host theater or theaters; the opening date and number of performances; the production's cast and creative team; a list of songs; a brief plot synopsis; and general comments and reviews from the New York critics. Besides the individual entries, the book also includes a preface, a bibliography, and 21 appendices including a discography, filmography, a list of published scripts, and lists of musicals categorized by topic and composer.

compelling voices of her generation. In *I Would Leave Me If I Could*, she reveals never-before-seen poetry of longing, love, and the nuances of bipolar disorder. In this debut collection, Halsey bares her soul. Bringing the same artistry found in her lyrics, Halsey’s poems delve into the highs and lows of doomed relationships, family ties, sexuality, and mental illness. More hand grenades than confessions, these autobiographical poems explore and dismantle conventional notions of what it means to be a feminist in search of power. Megawattage sound systems have blasted the electronically enhanced riddims and tongue-twisting lyrics of Jamaica's dancehall DJs across the globe. This high-energy raggamuffin music is often dissed by old-school roots reggae fans as a raucous degeneration of classic Jamaican popular music. In this provocative study of dancehall culture Carolyn Cooper, Professor of Literary and Cultural Studies at the University of the West Indies, Mona, Jamaica, offers a sympathetic account of the philosophy of a wide range of dancehall DJs: Shabba Ranks, Lady Saw, Ninjaman, Capleton, Buju Banton, Anthony B, Apache Indian. She demonstrates the ways in which the language of dancehall culture, often devalued as mere 'noise,' articulates a complex understanding of the border clashes that characterise Jamaican society. Cooper also analyses the sound clashes that erupt in the movement of Jamaican dancehall culture across national borders.
