Educational Studies in the Light of the Feminine Holt McDougal

Jones examines men's and women's relation to fashion in eighteenth-century France and shows how shopping and fashion developed as specifically feminine associations.

Sexing La Mode University of Wales Press
 Analyzing four best-selling novels - by both women and men - written in the feminine voice, this book traces how the creation of women-centered salons and the emergence of a feminine poetic style engendered a new type of literature in eighteenth-century France. The author argues that writing in a female voice allowed writers of both sexes to break with

classical notions of literature and style, so that they could create a modern sensibility that appealed to a larger reading public, and gave them scope to innovate with style and form. Wolfgang brings to light how the 'female voice' in literature came to embody the language of sociability, but also allowed writers to explore the domain of inter-subjectivity, while creating new bonds between writers and the reading public. Through examination of Marivaux's *La Vie de Marianne*, Graffigny's *Lettres d'une Péruvienne*, Riccoboni's *Lettres de Mistriss Fanni Butlerd*, and Laclos's *Les Liaisons dangereuses*, she shows that in France, this modern 'feminine' sensibility turned the least prestigious of literary genres - the novel - into the most compelling and innovative literary form of the eighteenth century. Emphasizing how the narratives analyzed here refashioned

the French literary world through their linguistic innovation and expression of new forms of subjectivity, this study claims an important role for feminine-voice narratives in shaping the field of eighteenth-century literature.

The volume as a whole offers a cohesive history of women's writing which has sometimes been obscured by the canonisation of a small feminine elite. Each chapter focuses on a given period and a range of writers, taking account of prevailing sexual ideologies and women's activities in, or their relation to, the social, political, economic and cultural surroundings. Complemented by an extensive bibliography of primary and secondary works and a biographical guide to more than one hundred and fifty women writers, it represents an invaluable resource for those wishing to discover or extend their knowledge of French literature written by women.

How has psychoanalysis developed in France in the years since Lacan so dramatically polarized the field? In this book, Dana Birksted-Breen and Sara Flanders of the British Psychoanalytical Society, and Alain Gibeault of the Paris Psychoanalytical Society provide an overview of how French psychoanalysis has developed since Lacan. Focusing primarily on the work of psychoanalysts from the French Psychoanalytical Association and from the Paris Psychoanalytical Society, the two British psychoanalysts view the evolution of theory as it appears to them from the outside, while the French psychoanalyst explains and elaborates from inside the French psychoanalytic discourse. Seminal and representative papers have been chosen to illuminate what is special about French thinking. A substantial general introduction argues in favour of the specificity of 'French psychoanalysis', tracing its early influences and highlighting specific contemporary developments. Sections are made up of introductory material by Alain Gibeault, followed by illustrative papers in the following categories: the history of psychoanalysis in France the pioneers and their legacy the setting and the process of psychoanalysis phantasy and representation the body and the drives masculine and feminine sexuality psychosis. An excellent introduction to French psychoanalytical debate, *Reading French Psychoanalysis* sheds a complementary light on thinking that has evolved differently in England and North America. It will be ideal reading for beginners and advanced students of clinical theory as well as experienced psychoanalysts wanting to know more about French Psychoanalytic theory, and how it has developed.

Feminizing the Fetish Hats Office Books

Do you wonder why an arm is masculine while a leg is feminine? Why your sofa is masculine but your chair is feminine? And why should a person or victim always be feminine, even if the person or the victim referred to happens to be a man? And isn't it odd that masculinité is feminine? The illogic of French gender can be puzzling and frustrating to the new student of French. After reading this book, if you see words like croisement, or pays, or vin, or chocolat, you will know that they are masculine, and, in the same way, you will recognize immediately that ville, facture, maladie and essence are feminine words. You will even know why the United States is masculine but France is La France.

Shoes, gloves, umbrellas, cigars that are not just objects—the topic of fetishism seems both bizarre and inevitable. In this venturesome and provocative book, Emily Apter offers a fresh account of the complex relationship between representation and sexual obsession in turn-of-the-century French culture. Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive, she considers fetishism as a cultural artifact and as a subgenre of realist fiction. Apter traces the web of connections among fin-

de-siècle representations of perversion, the fiction of pathology, and the literary case history. She explores in particular the theme of "female fetishism" in the context of the feminine culture of mourning, collecting, and dressing.

The market for commercial beauty products exploded in Third Republic France, with a proliferation of goods promising to erase female imperfections and perpetuate an aesthetic of femininity that conveyed health and respectability. While the industry's meteoric growth helped to codify conventional standards of womanhood, *The Force of Beauty* goes beyond the narrative of beauty culture as a tool for sociopolitical subjugation to show how it also targeted women as important consumers in major markets and created new avenues by which they could express their identities and challenge or reinforce gender norms. As cosmetics companies and cultural media, from magazines to novels to cinema, urged women to aspire to commercial standards of female perfection, beauty evolved as a goal to be pursued rather than a biological inheritance. The products and techniques that enabled women to embody society's feminine ideal also taught them how to fashion their bodies into objects of desire and thus offered a subversive tool of self-expression. Holly Grout explores attempts by commercial beauty culture to reconcile a standard of respectability with female sexuality, as well as its efforts to position French women within the global phenomenon of changing views on modern womanhood. Grout draws on a wide range of primary sources—hygiene manuals, professional and legal debates about the right to fabricate and distribute "medicines," advertisements for beauty products, and contemporary fiction and works of art—to explore how French women navigated changing views on femininity. Her seamless integration of gender studies with business history, aesthetics, and the history of medicine results in a textured and complex study of the relationship between the politics of womanhood and the politics of beauty.

Gender and Voice in the French Novel, 1730-1782 University of Toronto Press

This important work considers the contemporary movement of "writing in the feminine", by examining the work of five women writers from French and English Canada and the dialogue therein with feminist and psychoanalytic theory and theories of ethics. Informing the author's interpretations are the ideas of French theorists Emmanuel Levinas, Paul Ricoeur, Luce Irigaray, and Julia Kristeva, as well as American feminists Kelly Oliver and Jessica Benjamin. Marie Carrière explores the unfolding, complex questions of sexual difference, female subjectivity, and mother-daughter relations. She also uncovers and examines the occasional breakdown of the feminist ethics postulated by Nicole Brossard, France Theoret, Di Brandt, Erin Mouré, and Lola Lemire Tostevin. Carrière views these instances of deviation not as a failure of writing in the feminine, but as an inevitability in the relatively new intellectual terrain of feminist ethics. *Writing in the Feminine* will be of great interest to scholars of literary theory, women's studies, and Canadian literature in French and English. As a challenging study of the connections between gender and authorship, it will also appeal to those who have a particular interest in women's literature.

Gender and Voice in the French Novel, 1730-1782 John Wiley & Sons

The enfranchisement of women in Charles de Gaulle's France in 1944 is considered a potent element in the nation's self-crafted, triumphant World War Two narrative: the French, conquered by the Germans, valiantly resisted until they rescued themselves and built a new democracy, honoring France's longstanding liberal traditions. Kelly Ricciardi Colvin's *Gender and French Identity after the Second World War, 1944-1954* calls that potent element into question. By analyzing a range of sources, including women's magazines, trials, memoirs, and spy novels, this book explores the ways in which culture was used to limit the power of the female vote. It exposes a wide network of constructed behavioral norms that supported a conservative vision of French identity. Taken together, they depicted men as virile Resisters for French democracy and history, and women as solely domestic support. Indeed Colvin shows that women's access to the vote emerged alongside an explosion of cultural messages that encouraged them to retreat into the home, to find mates, to have 'millions of beautiful babies', in the words of de Gaulle, and not to challenge patriarchy in any way. This is a vital study for understanding the nature of postwar

France and women's history in 20th-century Europe.

Born in Algeria in 1937, Hélène Cixous achieved world fame for her short stories, criticism, and fictionalized autobiography (*Dedans*, 1969). Her work quickly became controversial because it frankly tested a distinction between male and female writing. Her literary experiments and her conclusions make her one of the most stimulating and most elusive feminist theorists of our time. Verena Andermatt Conley, a professor of French and women's studies at Miami University, has written the first full-length study of Cixous in English. Looking at Cixous as writer, teacher, and theoretician, Conley takes up Cixous's ongoing exploration of the "feminine" as related to the "masculine"? words not to be equated with "woman" and "man"? and her search for a

terminology less freighted with emotion and prejudice. Conley has updated this paperback edition with a new preface, bibliography, and interview with Cixous conducted by the editors of *Hors Cadre*.
