Why do literary theorists see reading as an act of dispassionate textual analysis and meaning production, when historical evidence shows that readers have often read excessively, obsessively, and for sensory stimulation? Posing these and other questions, this is the first major work to bring insights from book history to bear on literary history and theory. In so doing, the book charts a compelling and innovative history of theories of reading. While literary theorists have greatly contributed to our understanding of the text-reader relation, they have rarely taken into account that the relation between a book and a reader is also a relation between two bodies: one made of paper and ink, the other flesh and blood. This is why, Karin Littau argues, we need to look beyond the words on the page, and pay attention to the technical innovations in the physical format of the book. Only then is it

possible to understand more fully how media technology has changed our experience of reading, and why media history presents a challenge to our conceptions of what reading is. Each chapter places the reader in specific disciplinary and historical contexts: literature, criticism, philosophy, cultural history, bibliography, film, new media. Overall, the history recounted in this book points to a split between modern literary study which regards reading as a reducibly mental activity, and a tradition reaching back to antiquity which assumed that reading was not only about sense-making but also about sensation. Theories of Reading: Books, Bodies and Bibliomania will be essential reading for all students and scholars of literary theory and history as well as of great interest to students of the history of the book and new media.

A workbook for using symbolic acts to heal the unconscious mind • Provides several hundred successful psychomagic solutions for a wide range of specific psychological, sexual, emotional, and physical problems, from stuttering, eczema, and

fears to repressed rage and hereditary illnesses • Details how practitioners can develop unique psychomagic solutions for their patients • Explains how psychomagic bypasses the rational mind to work directly with the unconscious for quicker and more enduring change Traditional psychotherapy seeks to unburden the unconscious mind purely through talk and discussion. Psychomagic recognizes that it is difficult to reach the unconscious with rational thought. We should instead speak directly to the unconscious in its own language, that of dreams, poetry, and symbolic acts. By interacting on this deeper level, we can initiate quicker and more enduring change to resolve repressed childhood trauma, express buried emotions, and overcome deep-seated intimacy issues. Through the lens of psychomagic, illness can be seen as the physical dream of the unconscious, revealing unresolved issues, some passed from generation to generation. In this workbook of psychomagic spells, legendary filmmaker and creator of psychomagic Alejandro Jodorowsky

provides several hundred successful psychomagic solutions for a wide range of psychological, sexual, emotional, and physical problems from stuttering, eczema, and fear of failure to repressed rage, hereditary illnesses, and domineering parents. Each solution takes the same elements associated with a negative emotional charge and recasts them into a series of theatrical symbolic actions that enable one to pay the psychological debts hindering their lives. Explaining the shamanic techniques at the foundation of psychomagic, the author offers methods for aspiring practitioners to develop solutions for their own unique patients. Jodorowsky explains how the surreal acts of psychomagic are intended to break apart the dysfunctional persona with whom the patient identifies in order to connect with a deeper, more authentic self. As he says in the book, "Health only finds itself in the authentic. There is no beauty without authenticity."

"Excellent guide...with specifics on individual plants." - The New York

Times. A bonsai is a miniature tree. Grown in a shallow dish, it resembles larger trees in all respects except size, and lives to an equally old age. The conventional bonsai requires a site in the open air where the plant is exposed to the sun, wind and rain in order to develop and remain healthy. In this book, however, Paul Lesniewicz looks at those species that can successfully be kept indoors all year round. He explores a vast variety of bonsai trees, including mini versions, which are only 3-6 inches tall, for those who are really lacking in space. *Indoor Bonsai* includes sections such as choosing a plant or growing it from seed, planting, general care, pests and diseases, shaping, wiring and pruning, and many other aspects, all explained in simple and straightforward terms. Advice is accompanied by step-by-step illustrations and spectacular colour photography throughout, to help you choose and care for your bonsai tree. Paul's guidance is not a one-size-fits-all approach; his sensible and easy-to-follow advice will help each gardener to create their own individual work of art.

Throughout my childhood, my grandmother Yasmina, who was illiterate and grew up in a harem, repeated that to travel is the best way to learn and to empower yourself. "When a woman decides to use her wings, she takes big risks," she would tell me, but she was convinced that if you didn't use them, it hurt.... So recalls Fatema Mernissi at the outset of her mesmerizing new book. Of all the lessons she learned from her

grandmother -- whose home was, after all, a type of prison -- the most central was that the opportunity to cross boundaries was a sacred privilege. Indeed, in journeys both physical and mental, Mernissi has spent virtually all of her life traveling -- determined to "use her wings" and to renounce her gender's alleged legacy of powerlessness. Bursting with the vitality of Mernissi's personality and of her rich heritage, *Scheherazade Goes West* reveals the author's unique experiences as a liberated, independent Moroccan woman faced with the peculiarities and unexpected encroachments of Western culture. Her often surprising discoveries about the conditions of and attitudes toward women around the world - - and the exquisitely embroidered amalgam of clear-eyed autobiography and dazzling meta-fiction by which she relates those assorted discoveries -- add up to a deliciously wry, engagingly cosmopolitan, and deeply penetrating narrative. In her previous bestselling works, Mernissi -- widely recognized as the world's greatest living Koranic scholar and Islamic

sociologist -- has shed unprecedented light on the lives of women in the Middle East. Now, as a writer and scholarly veteran of the high-wire act of straddling disparate societies, she trains her eyes on the female culture of the West. For her book's inspired central metaphor, Mernissi turns to the ancient Islamic tradition of oral storytelling, illuminating her grandmother's feminized, subversive, and highly erotic take on Scheherazade's wife-preserving tales from *The Arabian Nights* -- and then ingeniously applying them to her own lyrically embellished personal narrative. Interwoven with vivid ruminations on her childhood, her education, and her various international travels are the author's piquant musings on a range of deeply embedded societal conditions that add up, Mernissi argues, to a veritable "Western harem." A provocative and lively challenge to the common assumption that women have it so much better in the West than anywhere else in the world, Mernissi's book is an entrancing and timely look at the way we live here and now. By inspiring us to reconsider

even the most commonplace aspects of our culture with fresh eyes and a healthy dose of suspicion, *Scheherazade Goes West* offers an invigorating, candid, and entertaining new perspective on the themes and ideas to which Betty Friedan first turned us on nearly forty years ago.

For every child who has ever looked up at the stars and asked, "What are they?" comes the story of a curious boy who never stopped wondering: Carl Sagan. When Carl Sagan was a young boy he went to the 1939 World's Fair and his life was changed forever. From that day on he never stopped marveling at the universe and seeking to understand it better. *Star Stuff* follows Carl from his days star gazing from the bedroom window of his Brooklyn apartment, through his love of speculative science fiction novels, to his work as an internationally renowned scientist who worked on the Voyager missions exploring the farthest reaches of space. This book introduces the beloved man who brought

the mystery of the cosmos into homes across America to a new generation of dreamers and star gazers.

Alejandro Zambra's *Ways of Going Home* begins with an earthquake, seen through the eyes of an unnamed nine-year-old boy who lives in an undistinguished middleclass housing development in a suburb of Santiago, Chile. When the neighbors camp out overnight, the protagonist gets his first glimpse of Claudia, an older girl who asks him to spy on her uncle Raúl. In the second section, the protagonist is the writer of the story begun in the first section. His father is a man of few words who claims to be apolitical but who quietly sympathized—to what degree, the author isn't sure—with the Pinochet regime. His reflections on the progress of the novel and on his own life—which is strikingly similar to the life of his novel's protagonist—expose the raw suture of fiction and reality. *Ways of Going Home* switches between author and character, past and present, reflecting with melancholy

and rage on the history of a nation and on a generation born too late—the generation which, as the author-narrator puts it, learned to read and write while their parents became accomplices or victims. It is the most personal novel to date from Zambra, the most important Chilean author since Roberto Bolaño.

A “wonderfully twisted meditation on identity and individuality” from a Nobel Prize-winning author who pushes fiction to its very limits (*The Boston Globe*). As this novel by the author of *Blindness* and *All the Names* begins, Tertuliano Máximo Afonso is a divorced, depressed history teacher. To lift his spirits, a colleague suggests he rent a certain video. Tertuliano watches the film, unimpressed. But during the night, when he is awakened by noise, he finds the VCR replaying the video and watches in astonishment as a man who looks exactly like him—or, more specifically, exactly like he did five years earlier, mustachioed and fuller in the face—appears on the screen. Against his own

better judgment, Tertuliano decides to pursue his double. As he roots out the man’s identity, what begins as a whimsical chase becomes a probing investigation into what makes us human. Can we be reduced to our outward appearance, rather than the sum of our experiences? The inspiration for the film *Enemy* starring Jake Gyllenhaal and directed by Denis Villeneuve, *The Double* is a timeless novel from a writer John Updike described in *The New Yorker* as “like Faulkner, so confident of his resources and ultimate destination that he can bring any impossibility to life by hurling words at it.” “It’s tempting to think of [The Double] as his masterpiece.” —*The New York Times* Translated from the Portuguese by Margaret Jull Costa

 The words “Disciple,” “Mentor,” and “Coach” are often used interchangeably. But they are different. We disciple new believers laying foundations of faith. We mentor emerging leaders providing leadership formation. We coach ministry practitioners encouraging fruitfulness.

Between them, Osterhouse and Teja have logged six decades of mentoring emerging leaders. They have had their share of “successes” and “failures,” learning from both in the process. They share those lessons with us in this delightful, yet challenging, book.

 Celebrating Daido Moriyama's 2019 Hasselblad Award in a concise overview, with testimonies from his many collaborators and admirers With its generous image flow, this book celebrates Japanese photographer Daido Moriyama (born 1938) as the 2019 Hasselblad Award winner and his highly influential, lifelong, radical and authentic approach to photography. A Diary draws on his daily photographic expeditions, resulting in a body of work charged with fragments,

repetitions, chance and chaos. His production of images is enormous, and whereas some photographs have become iconic and reappear in numerous books and exhibitions, it is always possible to encounter more unknown works. In order to exemplify the long-term and wide-range impact of Daido Moriyama's photography, this publication not only presents an overview and analysis of his work by Sandra Phillips, but it also includes shorter personal notes from people who have encountered and worked with him over the years, such as Simon Baker, Mark Holborn, Hervé Chandès, Nick Rhodes and Ishiuchi Miyako.

Learn the art of Japanese gardening with this classic, fascinating text. The Sakuteiki, or "Records of Garden Making," was written nearly one thousand years ago. It is the oldest existing text on Japanese gardening--or any kind of gardening--in the world. In this edition of the Sakuteiki, the authors provide an English-language translation of this classic work and an introduction to the cultural and

historical context that led to the development of Japanese gardening. Central to this explanation is an understanding of the sacred importance of stones in Japanese culture and Japanese garden design. Written by a Japanese court noble during the Heian period (794-1184), the Sakuteiki includes both technical advice on gardening--much of which is still followed in today's Japanese gardens--and an examination of the four central threads of allegorical meaning, which were integral features of Heian-era garden design. For those seeking inspiration to build a rock garden or just better understand the Japanese stone garden, the Sakuteiki is an enduring classic.

Lead a life of adventure, meaning and purpose—and earn a good living. “Thoughtful, funny, and compulsively readable, this guide shows how ordinary people can build solid livings, with independence and purpose, on their own terms.”—Gretchen Rubin, author of the #1 New York Times bestseller *The Happiness Project* Still in his early thirties, Chris Guillebeau completed a tour of every country on earth and yet he’s never held a “real job” or earned a regular paycheck. Rather, he has a special genius for turning ideas into income, and he uses what he earns both to support his life of adventure and to give back. Chris identified 1,500 individuals who have built businesses

earning \$50,000 or more from a modest investment (in many cases, \$100 or less), and focused on the 50 most intriguing case studies. In nearly all cases, people with no special skills discovered aspects of their personal passions that could be monetized, and were able to restructure their lives in ways that gave them greater freedom and fulfillment. Here, finally, distilled into one easy-to-use guide, are the most valuable lessons from those who've learned how to turn what they do into a gateway to self-fulfillment. It's all about finding the intersection between your "expertise"—even if you

don't consider it such—and what other people will pay for. You don't need an MBA, a business plan or even employees. All you need is a product or service that springs from what you love to do anyway, people willing to pay, and a way to get paid. Not content to talk in generalities, Chris tells you exactly how many dollars his group of unexpected entrepreneurs required to get their projects up and running; what these individuals did in the first weeks and months to generate significant cash; some of the key mistakes they made along the way,

and the crucial insights that made the business stick. Among Chris's key principles: If you're good at one thing, you're probably good at something else; never teach a man to fish—sell him the fish instead; and in the battle between planning and action, action wins. In ancient times, people who were dissatisfied with their lives dreamed of finding magic lamps, buried treasure, or streets paved with gold. Today, we know that it's up to us to change our lives. And the best part is, if we change our own life, we can help others change theirs. This remarkable book will start you on your way.
