the historical origins of this extraordinary
'antireligion.'

TRILOGY (FAUSTEF: the MASTER
GUARDIAN of the CREATION: the 22

SIBLING UNIVERSES) J.D. Rockefeller
The life and times of Helena Blavatsky, the controversial religious guru who cofounded the Theosophical Society and kick-started the New Age movement. Recklessly brilliant, Helena Petrovna Blavatsky scandalized her 19th century world with a controversial new religion that tried to synthesize Eastern and Western philosophies. If her contemporaries saw her as a freak, a charlatan, and a snake oil salesman, she viewed herself as a special person born for great things. She firmly believed that it was her destiny to enlighten the world. Rebelliously breaking conventions, she was the antithesis of a pious religious leader. She cursed, smoked, overate, and needed to airbrush out certain inconvenient facts, like husbands, lovers,

and a child. Marion Meade digs deep into Madame Blavatsky's life from her birth in Russia among the aristocracy to a penniless exile in Europe, across the Atlantic to New York where she became the first Russian woman naturalized as an American citizen, and finally moving on to India where she established the international headquarters of the Theosophical Society in 1882. As she chased from continent to continent, she left in her aftermath a trail of enthralled followers and the ideas of Theosophy that endure to this day. While dismissed as a female messiah, her efforts laid the groundwork for the New Age movement, which sought to reconcile Eastern traditions with Western occultism. Her teachings entered the mainstream by creating new respect for the cultures

and religions of the East—for Buddhism and Hinduism—and interest in meditation, yoga, gurus, and reincarnation. Madame Blavatsky was one of a kind. Here is her richly bizarre story told with compassion, insight, and an attempt to plumb the truth behind those astonishing accomplishments.

In an extraordinary study that takes us from the mythical times of Atlantis to a past life in the Chinese court of the Emperor Yu the Great, through to the failing medical systems of the present day, Are Thoresen comes to some striking conclusions with relevance to us all. Having previously brought to light the reality of spiritual translocation – the movement of pathological entities that

cause disease – Thoresen now reveals the roots of this phenomenon in pre-history. The corruption of healing methods, in both conventional and alternative medical fields, harks back to the introduction of the five-element system in traditional medicine. This philosophy was founded by the legendary figure of the Yellow Emperor – a god in folk religion and the author of an influential book on which Chinese medicine is based. The Yellow Emperor, says Thoresen, was an incarnation of a mighty spiritual being whose influence has shone through the centuries. But this being seeks to deceive humanity. Its malign teaching is the reason that most diseases – and the demonic entities that cause them – are translocated, causing further suffering. Are Thoresen describes

his past life as the foremost healer in the court of Yu the Great, two thousand years before the birth of Christ. The emperor, overshadowed by a powerful entity, ultimately becomes dissatisfied with his chief medical adviser and plots his demise. The Lucifer Deception presents this gripping narrative as well as offering profound spiritual insights into illness and healing in the present day.

While we know of Ahriman from Persian mythology, Rudolf Steiner spoke of him as an actual, living spiritual entity. This being, he said, works to embed people firmly into physicality, encouraging dull, materialistic attitudes and a philistine, dry intellect. In these extraordinary lectures Steiner, in rare prophetic mode,

talks about an actual incarnation of Ahriman on the earth and the potential consequences. Just as Christ incarnated in a physical body, so would Ahriman incarnate in the Western world - before 'a part' of the third millennium had passed. Steiner places this incarnation in the context of a 'cosmic triad' - Lucifer, Christ and Ahriman. Ahriman will incarnate as a counterpoint to the physical incarnation of Lucifer in the East in the third millennium BC, with the incarnation of Jesus Christ in Palestine as the balancing point between the two. Over the period during which Steiner developed anthroposophy - a speaking career that spanned two decades and more than six thousand lectures - he referred to the idea of Ahriman's incarnation only six times. These six

lectures, together with an additional supporting excerpt, are reproduced in their entirety, and under one cover, for the first time.

Lucifer's Roles Rudolf Steiner Press Honorable Mention for the Wallace K. Ferguson Prize from the Canadian Historical Association Chosen by Choice Magazine as an Outstanding Academic Title of 2003 In 1891, newspapers all over the world carried reports of the death of H. P. Blavatsky, the mysterious Russian woman who was the spiritual founder of the Theosophical Society. With the help of the equally mysterious Mahatmas who were her teachers, Blavatsky claimed to have brought the "ancient wisdom of the East" to the rescue of a materialistic West. In England, Blavatsky's earliest followers

were mostly men, but a generation later the Theosophical Society was dominated by women, and theosophy had become a crucial part of feminist political culture. Divine Feminine is the first full-length study of the relationship between alternative or esoteric spirituality and the feminist movement in England. Historian Joy Dixon examines the Theosophical Society's claims that women and the East were the repositories of spiritual forces which English men had forfeited in their scramble for material and imperial power. Theosophists produced arguments that became key tools in many feminist campaigns. Many women of the Theosophical Society became suffragists to promote the spiritualizing of politics, attempting to create a

political role for women as a way to "sacralize the public sphere." Dixon also shows that theosophy provides much of the framework and the vocabulary for today's New Age movement. Many of the assumptions about class, race, and gender which marked the emergence of esoteric religions at the end of the nineteenth century continue to shape alternative spiritualities today.

Many people are now losing their beliefs in the existence of Angels. Angel pertains to a spirit or a supernatural being that can be found in numerous mythologies and religions. In Zoroastrianism and Abrahamic religions, the angels are usually portrayed as kind, heavenly beings that function as mediators between the Heaven and Earth, as spirit guardians, or as guiding

influence. Other functions of angels involve guiding and protecting human beings, and carrying out the task of God. The word "angel" has been stretched to various concepts of spirits recognized under different religious traditions. In this book, you will learn more about angels, how they can help you in moments of uncertainty, and regarding the purpose of your existence. You can also reflect on the different chapters of this book and verify your beliefs and ideas.

Rahn's personal diary from his travels as occult investigator for the Third Reich • First English translation of the author's journeys in search of a Nordic equivalent to Mt. Sinai • Explains why Lucifer the Light Bringer, god of the heretics, is a positive figure Otto Rahn's lifelong search for the Grail brought him to the attention of the SS leader Himmler, who shared his esoteric interests. Induced by Himmler to become the chief investigator of the occult for the Nazis, Rahn traveled throughout Europe--from Spain to Iceland--in the mid 1930s

pursuing leads to the Grail and other mysteries. Lucifer's Court is the travel diary he kept while searching for "the ghosts of the pagans and heretics who were [his] ancestors." It was during this time that Rahn grasped the positive role Lucifer plays in these forbidden religions as the bearer of true illumination, similar to Apollo and other sun gods in pagan worship. This journey was also one of self-discovery for Rahn. He found such a faithful echo of his own innermost beliefs in the lives of the heretics of the past that he eventually called himself a Cathar and nurtured ambitions of restoring that faith, which had been cruelly destroyed in the fires of the Inquisition. His journeys on assignment for the Reich--including researching an alleged entrance to Hollow Earth in

Iceland and searching for the true mission of Lucifer in the caves of southern France that served as refuge for the Cathars during the Inquisition--also led to his disenchantment with his employers and his mysterious death in the mountains after his break with the Nazis.

The Gnostic Luciferian New Age "Utopia" will be based upon a Mystery Babylon re-visitation of tolerance for all behaviors narcissistically self-indulgent, sexually perverse, psychoactively induced, and sinfully decadent, with self-worship and self-adulation as the highest pinnacle of religious zeal. Additionally, utilizing the trickery and artifice of an Alien Antichrist Messiah Deception, the Luciferian Elite

seek to obliterate Christianity and replace it with a Gnostic Pantheistic Cosmogogenesis narrative, where Ancient Aliens are our true genetic origins, and Cosmic Evolution, with Mankind in tow, is the Grand Design of the Universe. Since this is a very real situation which effects all the world in the direst sort of way, the contents of this book are relevant to all citizens of the world. This book bravely explores the various guises that this repackaged Babylonian Gnostic Luciferianism has taken and how it got to this point, as well as offers answers to this nefarious situation.
