**Finding the Words** W. W. Norton & Company

Remembering Well offers family members, clergy, funeral professionals, and hospice workers ways to plan services and rituals that honor the spirit of the deceased and are faithful to that person's values and beliefs, while also respecting the needs and wishes of those who will attend the services. It is an essential resource for anyone who yearns to put death in a spiritual context but is unsure how to do so—including both those who have broken with tradition and those who wish to give new meaning to the time-honored rituals of their faith. The real-life stories, examples, and practical guidelines in this book address a wide array of important issues, including the difficult decisions that survivors must make quickly when a death occurs—and the sensitive topic of family alienation, where possibilities for healing, forgiveness, and hope are explored. The invaluable insights offered here will help those who grieve to prepare mind and spirit for life's final rites of passage.

In this unique and compassionate guide, renowned grief counselor Helen Fitzgerald turns her attention to the special needs of adolescents struggling with loss and gives teens the tools they need to work through their pain and grief. Although the circumstances surrounding a death are difficult to handle at any age, adolescence brings with it challenges and struggles that until now have been largely overlooked. Writing not only about but also for teenagers, Fitzgerald adeptly covers the entire range of situations in which teens may find themselves grieving a death, whether the cause was old age, terminal illness, school violence, or suicide. She helps teens address the gamut of strong and difficult emotions they will experience and the new situations they will face, including family changes, issues with friends, problems at school, and the courage needed to move forward with one's own life. Using the clear and accessible format that has made *The Mourning Handbook* and *The Grieving Child* enduring and helpful classics, Fitzgerald guides teens through everything from the sickbed to the funeral, from the first day back at school to the first anniversary of the death.

Above all, she lets teens know that even in their darkest hour, they are not alone.

**Death's Summer Coat** Donna Vincent Roa

*Words as Medicine* What to say to your children to get them through the bumps, bruises, and crises of childhood. Falling off a bike, having a bad dream, getting stitches...sometimes a kiss isn't enough to make it all better. But what you say to your child in those first moments of pain or fear could make all the difference. Using techniques the authors have taught to doctors, nurses, and first responders, *Verbal First Aid*(tm) explains how words can be used to promote healing from burns, bruises, nightmares, asthma attacks, and more. It provides scripts and tips on how to short-circuit traumatic memories, sometimes just by speaking a sentence or two. This revolutionary book gives parents the responses they need to immediately stabilize their children's emotions. And these methods will build a foundation of confidence and inner strength that will help kids heal at the deepest level, and weather whatever hardships and difficulties they encounter throughout life.

*Confessions of a Funeral Director* Routledge

This book is not about one story of loss or one grief therapy approach. This book contains exactly what grieving couples have asked for: what they wanted to know in exactly your situation; what they have mentioned and pointed out they would need or would have needed in that horrendous time of loss. Books written by bereaved parents often follow the formula: "My life was beautiful, then my child or baby died and then my life was never the same again. I had to write a book about it." These books are usually self-therapy, rather than a way to help others. Books by therapists often talk about their work from a theoretical basis that lacks personal experience. They discuss people who experience complicated or chronic grief as opposed to encouraging the resilience that lies within each and every one of us. I have experienced the loss of a child and I am a grief therapist, but this book is not a memoir about my loss. Neither is it just a book written from the perspective of a therapist having worked with countless clients experiencing loss. This book focuses on the effect parental bereavement has on the parents and their relationship. It is about surviving loss as a couple and the re-emerging from grief into a life of joy and melancholy, laughter and tears, happiness and sadness. Not either/or but BOTH/AND. This book will, teach you understanding and acceptance of the grieving process each and everyone chooses. In a relationship, each partner is equally responsible to take

part in sailing the ship together. *Surviving Loss as a Couple* is about how you can re-emerge from this crazy ride through the darkness of grief with renewed depth and understanding with your partner. This book is based on bereaved parents' needs, challenges and what they said has helped them, based on a worldwide survey I have conducted. It contains detailed descriptions of what has helped eighteen individuals and couples that I have interviewed, couples in varying situations and at different stages of their journey with grief.

Winner of the 2009 National Book Critics Circle Award in Autobiography and a New York Times bestseller: a prize-winning, critically acclaimed memoir on life and aging —“An honest joy to read” (Alice Munro). Hailed as “a virtuoso exercise” (Sunday Telegraph), this book reflects candidly, sometimes with great humor, on the condition of being old. Charming readers, writers, and critics alike, the memoir won the Costa Award for Biography and made Athill, then ninety-one, a surprising literary star. Diana Athill was one of the great editors in British publishing. For more than five decades she edited the likes of V. S. Naipaul and Jean Rhys, for whom she was a confidante and caretaker. As a writer, Athill made her reputation for the frankness and precisely expressed wisdom of her memoirs. Writing in her ninety-first year, "entirely untamed about both old and new conventions" (Literary Review) and freed from any of the inhibitions that even she may have once had, Athill reflects candidly, and sometimes with great humor, on the condition of being old—the losses and occasionally the gains that age brings, the wisdom and fortitude required to face death. Distinguished by "remarkable intelligence...[and the] easy elegance of her prose" (Daily Telegraph), this short, well-crafted book, hailed as "a virtuoso exercise" (Sunday Telegraph) presents an inspiring work for those hoping to flourish in their later years.
