in India** Pearson Education India

The book, written with the author's extensive teaching experience at The West Bengal National University of Juridical Sciences, (NUJS) Kolkata and Department of Law, University of Calcutta, attempts to critically analyse Indian High Courts and Supreme Court cases on Code of Civil Procedure. It also evaluates the relationship between statutory procedural law and case law as

a subject. The book's presentation of recent Supreme Court and High Court rulings is its primary attraction. These rulings have been examined, along with the critical analysis of the radical and extensive effects of the Code. This book is divided into six parts and is clear and well-structured. Part I develops theoretical foundations of the subject. Part II demonstrates certain important issues on the (i) scope of jurisdiction of civil courts to entertain disputes, (ii) principles governing res sub judice, res judicata and foreign judgment, (iii) nature of powers exercised by civil courts in matters relating to place of

suing, institution of suit, transfer of cases, withdrawal and compromise of suits, (iv) necessary conditions for first hearing, interim order, trial as well as special suits, (v) scope and ambit of law relating to pleadings, appearance and non-appearance of parties, discovery, inspection, production of documents, death, marriage, insolvency of parties, judgment and decrees. Part III explores various issues on appeals, reference, review and revision. In this part an attempt has also been made to discuss different facets of law on first appeals, second appeals, appeals from orders, appeals by indigent persons and appeals to the Supreme Court. Part IV discusses various principles on execution. Part V deals with miscellaneous issues on the Law of Civil Procedure. Part VI includes

commercial courts and their procedure as well as the law of limitation. Like the first edition, it is intended that this second edition would be helpful to LLB and LLM students, researchers, academicians, jurists, attorneys, judges, and members of civil society. The book is an ethnographic exploration of how 'democracy' takes social and cultural roots in India and in the process shapes the nature of popular politics. It centres on a historically marginalised caste who in recent years has become one of the most assertive and politically powerful communities in North India: the Yadavs. The Vernacularisation of Democracy is a vivid account of how Indian popular democracy works on the ground. Challenging conventional theories of democratisation the book shows how the political upsurge of 'the lower orders' is situated within a wider process of the vernacularisation of democratic politics, referring to the ways

in which values and practices of democracy become embedded in particular cultural and social practices, and in the process become entrenched in the consciousness of ordinary people. During the 1990s, Indian democracy witnessed an upsurge in the political participation of lower castes/communities and the emergence of political leaders from humble social backgrounds who present themselves as promoters of social justice for underprivileged communities. Drawing on a large body of archival and ethnographic material the author shows how the analysis of local idioms of caste, kinship, kingship, popular religion, 'the past' and politics ('the vernacular') inform popular perceptions of the political world and of how the democratic

process shapes in turn 'the vernacular'. This line of enquiry provides a novel framework to understand the unique experience of Indian democracy as well as democratic politics and its meaning in other contemporary post-colonial states. Using as a case study the political ethnography of a powerful northern Indian caste (the Yadavs) and combining ethnographic material with colonial and post-colonial history the book examines the unique experience of Indian popular democracy and provides a framework to analyse popular politics in other parts of the world. The book fills
