Beware The Silence American Library Association

Russian businessman Dmitry Rybolovlev ranks in the top 200 wealthiest people in the world, according to Forbes Magazine. Since December 2011 he has been the Chairman of AS Monaco, regenerating the famous football club, and taking it from the bottom of the French Ligue 2 to the semi-finals of the Champions League and the French Ligue 1 Championship title in 2017. A man of many parts, he first trained to be an emergency cardiologist, then became an international businessman, spending eleven months as a prisoner in a Russian jail for a crime he did not commit, before going on to transform the fortunes of fertiliser giant Uralkali and listing the company on the London Stock Exchange. From Russia's Urals Mountains to Monaco's Stade Louis II, this biography traces the epic saga of this reserved, determined and enigmatic character. It dissects his extraordinary story and takes us backstage at this famous football club, where the transfers and negotiations take place. It transports us from Rybolovlev's hometown of Perm in eastern Russia to the private Greek island of Skorpios once owned by Aristotle Onassis and now the retreat of Rybolovlev and his family. With rare access to Dmitry Rybolovlev himself, this is the complete story. [The Horror Beyond Life's Edge: 560+ Macabre Classics, Supernatural Mysteries & Dark Tales](#) Biteback Publishing

This volume of the Lecture Notes in Computer Science series provides a comprehensive, state-of-the-art survey of recent advances in string processing and information retrieval. It includes invited and research papers presented at the 10th International Symposium on String Processing and Information Retrieval, SPIRE 2003, held in Manaus, Brazil. SPIRE 2003 received 54 full submissions from 17 countries, namely: Argentina(2), Australia(2), Brazil(9), Canada(1), Chile (4), Colombia(2), Czech Republic (1), Finland (10), France (1), Japan (2), Korea (5), Malaysia (1), Portugal (2), Spain (6), Turkey (1), UK (1), USA (4) – the numbers in parentheses indicate the number of submissions from that country. In the nontrivial task of selecting the papers to be published in these proceedings we were fortunate to count on a very international program committee with 43 members, representing all continents but one. These people, in turn, used the help of 40 external referees. During the review process all but a few papers had four reviews instead of the usual three, and at the end 21 submissions were accepted to be published as full papers, yielding an acceptance rate of about 38%. An additional set of six short papers was also accepted. The technical program spans over the two well-defined scopes of SPIRE (string processing and information retrieval) with a number of papers also focusing on important application domains such as bioinformatics. SPIRE 2003 also features two invited speakers: Krishna Bharat (Google, Inc.) and Joaõ Meidanis (State Univ. of Campinas and Scylla Bioinformatics).
