BSA 250, 350, 441 & 500 Singles David and Charles
"Jan Moran is the new queen of the epic romance."- USA Today
best-selling author Rebecca Forster When French perfumer
Danielle Bretancourt steps aboard a luxury ocean liner, leaving
her son behind in Poland with his grandmother, she has no idea
that her life is about to change forever. The year is 1939, and the
declaration of war on the European continent soon threatens her
beloved family, scattered across many countries. Traveling
through London and Paris into occupied Poland, Danielle searches
desperately for her the remains of her family, relying on the

strength and support of Jonathan Newell-Grey, a young captain.
Finally, she is forced to gather the fragments of her impoverished
family and flee to America. There she vows to begin life anew, in
1940s Los Angeles. There, through determination and talent, she
rises high from meager jobs in her quest for success as a
perfumer and fashion designer to Hollywood elite. Set between
privileged lifestyles and gritty realities, Scent of Triumph by
commanding newcomer Jan Moran is one woman's story of
courage, spirit, and resilience.

Most of the many available books about Triumph motorcycles concentrate on the bigger Bonneville and Trident ranges. Yet alongside these headline-grabbing bikes, Triumph also built a series of smaller 350 and 500cc machines that possessed all the style of their bigger brothers, but were lighter in weight, easier to ride, and now cheaper to buy, too. This straightforward, practical Essential Buyer's Guide contains all the advice you need on buying one of these classic motorcycles, from the earliest Twenty-one, to the final Daytona and TR5T. It reveals what these bikes are like to live with, assesses the values, advantages and disadvantages of the different models, plus, of course explains what to look for when buying one - engine, transmission, frame, brakes, electrics, paint - everything you need to know!

Want to be an expert on Triumph's 350 and 500 unit-construction

twins? Here is everything you need to know about these classic machines. Alongside the headline-grabbing bikes – the Bonneville and Trident – Triumph built a whole series of smaller 350/500cc machines, with all the style of their bigger brothers, but lighter in weight, easier to ride and now cheaper to buy. The Triumph 350/500s played a key role in the company's success through the 1960s, in North America as well as the UK. The range included everything from the original 350cc 3TA, a mild mannered tourer, to the final Daytona Tiger 500 (a modified version of which won the Daytona 500 race in 1967), and the TR5T trail bike. This comprehensive book covers the complete history of these bikes, with details of model variants, advice on buying and living with a Triumph 350/500, technical specifications, and a list of useful contacts.

Motorcycles, the open road, cruising; all things associated with this powerful locomotive are detailed in this marvelous history of a stunning vehicle. Humanity is capable of many wonderful things, but the art of making motorcycles is arguably not its greatest achievement. Throughout history there have been far more pressing needs than the desire to get from A to B more quickly and more pleasurably than anyone else. And yet, thousands of entrepreneurs have gravitated to the motorcycle industry: scratch any of them, and one will most likely find an enthusiast beneath the skin. Why else would anyone be willing to risk time and money in a business notorious for its glorious failures?

- The perfect time for a reissue: In October 2009, PBS will air a ninety-minute primetime special on Joan Baez as part of the Emmy Award-winning American Masters series. Told often from Baez's perspective, but supported by a rich performance and historical archive, the documentary centers on her career as a musician, power as an artist, those who influenced her, and those she championed. She will also be on a 27-city U.S. tour starting July 2009..
- A musical force and a catalyst for social change: At the age of eighteen Baez was an international star with a Time magazine cover story; fifty years later she has thirty-three albums to her credit. She also marched alongside Martin Luther King, Jr., was jailed for supporting the draft resistance, and sang in the first Amnesty International tour. An extraordinary woman who has led an eventful life, Baez's memoir is as honest, unpretentious, and courageous as she is. .

The Encyclopedia of the Motorcycle Causey Enterprises, LLC
Triumph's pre-unit twin-cylinder motorcycles were produced from 1938 to 1962, with engine sizes of 350cc, 500cc and 650cc. Ridden both on the road and in competition, the bikes formed the basis for Triumph's success through the 1940s to the 1960s. With iconic names such as Speed Twin, Tiger 100, Trophy and Bonneville, the pre-unit Triumphs came as sports bikes and

tourers. With their superb styling and reliable engines, there were a favourite both at home and abroad. Triumph Pre-Unit Twins looks at the history and development of these bikes, and describes the various models that make up the range. It gives a detailed technical analysis of each model. Interviews with past and present owners give riding impressions of the bikes both today and back in the 1960s.

The Triumph 350cc and 500cc unit-construction twins were called the 'C' Series, and were made between 1957 and 1974. The range started with the 350cc 'Twenty-one' - a sedate touring bike with full enclosure in the form of the famous Triumph 'Bathtub' - went through such famous names as the Speed Twin, Tiger 100 and Trophy, and ended with the rip-roaring Daytona and the off-road Adventurer. This book deals with the whole range, giving the history of all the models, and also describes the restoration of a 1969 Trophy T100C.
