In addition to being a basic item of furniture to be found in any home, the chair reflects social and aesthetic changes throughout history, provides an ideal medium through which to experiment with new materials or technologies, and challenges the creativity of designers devising new ways to defy gravity's

immutable laws to provide support for the human body. Through vivid photography and commentary, *Just Chairs* describes all facets of chairs, classic designs that have withstood the test of time to revolutionary and modern creations from young designers transforming the chair into an object of art. After a brief introductory history of the chair, this visual history features chairs designed from the world's most famous designers including Gerrit Thomas Rietveld, Eileen Gray, Mies van der Rohe, Le Corbusier, Marcel Breuer, Alvar Aalto, Charles and Ray Eames, Eero

Saarinen, Arne Jacobsen, Harry Bertoia, Verner Panton, Eero Aarnio, Ettore Sottsass, Vico Magistretti, Oscar Tusquets, and others. A complete and inspirational look at the too-often-overlooked machine that is the chair, the book is a charming and inspirational resource not only for interior designers but also for all those wishing to find the perfect chair for their lifestyle.

The Stick Chair Book Carlton Publishing Group

What will your 100-year life look like? A new edition of the international bestseller, featuring a new preface 'Brilliant, timely, original, well written and utterly terrifying' Niall Ferguson Does the thought of working for 60 or 70 years fill you with dread? Or can you see the potential for a more stimulating future as a result of having so much extra time? Many of us have been raised on the traditional notion of a three-stage approach to our working lives: education, followed by work and then retirement. But this well-established pathway is already beginning to collapse - life expectancy is rising, final-salary pensions are vanishing, and increasing numbers of people are juggling multiple careers. Whether you are 18, 45 or 60, you will need to do things very differently from previous generations and learn to structure your life in completely new ways. The 100-Year Life is here to help. Drawing on the unique pairing of their experience in psychology and economics, Lynda Gratton and Andrew J. Scott offer a broad-

ranging analysis as well as a raft of solutions, showing how to rethink your finances, your education, your career and your relationships and create a fulfilling 100-year life. · How can you fashion a career and life path that defines you and your values and creates a shifting balance between work and leisure? · What are the most effective ways of boosting your physical and mental health over a longer and more dynamic lifespan? · How can you make the most of your intangible assets - such as family and friends - as you build a productive, longer life? · In a multiple-stage life how can you learn to make the transitions that will be so crucial and experiment with new ways of living, working and learning? Shortlisted for the FT/McKinsey Business Book of the Year Award and featuring a new preface, The 100-Year Life is a wake-up call that describes what to expect and considers the choices and options that you will face. It is also fundamentally a call to action for individuals, politicians, firms and governments and offers the clearest demonstration that a 100-year life can be a wonderful and inspiring one.

Wonder Wood presents this timeless material as it is being used today and how it can be used in the future. It also documents a selection of current international projects and processes, making-ofs, and experiments by 120 internationally renowned designers, architects, and artists, whose creative and innovative approach to the material makes their work compelling. For selected projects, interviews with the designers provide an in-depth look at the creative process and its results. A second section, dedicated to materials and technologies examines innovative developments as well as wood, wood-based materials, finishing technologies, and wooden structure

principles. With biographies of the designers represented in the book, an alphabetical index, a bibliography and sources, *Wonder Wood* will serve the reader as a classic book of reference.

The Book is a window on Indian cultural diplomacy, which is set against the backdrop of its ethos of 'Vasudhaiva Kutumbakam' (The World is a Family). It is pivoted to the 'Idea of India' that gets manifested through acceptance of diversity and celebration of pluralism. The

Book in 15 chapters under 8 sections provides a comprehensive picture on the concept of cultural diplomacy; its relationship with public diplomacy and soft power; its place in the diplomatic architecture and its growing centrality. Unlike soft power, cultural diplomacy is not in the paradigm of power. The Book also provides an in depth study on the origins and evolution of Indian cultural diplomacy over the years. It reviews the role of the Ministries of Culture and External Affairs and the Indian Council for Cultural Relations (ICCR). It examines various instrumentalities, such as Cultural Agreements, Festivals of India, Cultural Centres and Chairs of Indian Studies, used by India, to achieve its objectives. The role played by Education, Media and Diaspora, as bridge builders is evaluated. The Book peeps into global cultural hubs, like the Smithsonian Institution in Washington DC and the working of cultural diplomacy at grassroots level at Chandigarh and Chicago. Two chapters in the Book look at the operation of cultural diplomacy in the Indian diplomatic missions and foreign diplomatic missions in India. This adds a practical dimension to the conceptual

framework, as seen by practitioners of diplomacy. The final chapter provides an overview on the existing reality. A section on 'The Way Ahead' makes a number of practical recommendations in five clusters, to take cultural diplomacy to a higher plateau. Finally, it raises a set of pertinent issues and points for consideration by theoreticians and practitioners of cultural diplomacy. The Book would serve as a useful reference point for further studies, as it fills the existing void in the literature on cultural diplomacy.

Rustic or refined, traditional or whimsical, functional or just plain fun, these imaginative thrones, rockers and chaises have one thing in common; more than merely places to sit, they are sculptural works of art. The work of today's top furniture artists, will charm, provoke and inspire you and make you rethink the very meaning of 'chair'.

Indian Cultural Diplomacy e-artnow

In a unique collection of international and interdisciplinary research, this book focuses on commemorative events around the world on the same day: 11 November

2018, the centenary of Armistice Day, the end of the First World War. It argues that we need to move beyond discourse, narrative and how historical events are represented to fully understand what commemoration does, socially, politically and culturally. Adopting an experiential reframing treats sensory, affective and emotional feelings as fundamental to how we collectively understand shared histories, and through them, shared identities. The volume features 15 case studies from ten countries, covering a variety of settings and national contexts specific to the First World War. Together the chapters demonstrate that a new conceptualisation of commemoration is needed: one that attends to how it feels. Philippine Agriculturist and Forester Routledge

Should neighborhoods change? Is wearing a suit a good way to quit smoking? Why do people think that if you do one thing,

you're against something else? Is monogamy a trick? Why isn't making the city more fun for you and your friends a super-noble political goal? Why does a computer last only three years? How often should you see your parents? How should we behave at parties? Is marriage getting easier? What can spam tell us about the world? Misha Glouberman's friend and collaborator, Sheila Heti, wanted her next book to be a compilation of everything Misha knew. Together, they made a list of subjects. As Misha talked, Sheila typed. He talked about games, relationships, cities, negotiation, improvisation, Casablanca, conferences, and making friends. His subjects ranged from the sublime to the ridiculous. But sometimes what had seemed trivial began to seem important—and what had seemed important began to seem less so. *The Chairs Are Where the People Go* is refreshing, appealing, and kind of profound. It's a self-help book for people who don't feel they need help, and a how-to book that urges you to do things you don't really need to do.

"..."The Stick Chair Book" is divided into three sections. The first section, "Thinking About Chairs," introduces you to the world of common stick chairs, plus the tools and wood to build them. The second section - "Chairmaking Techniques" - covers every process involved in making a chair, from cutting stout legs, to making curved arms with straight wood, to carving the seat. Plus, you'll get a taste for the wide variety of shapes you can use. The chapter on seats shows you how to lay out 14 different seat shapes. The chapter on legs has 16 common forms that can be made with only a couple handplanes. Add those to the 11 different arm shapes, six arm-joinery options, 14 shapes for hands, seven stretcher shapes and 11 combs, and you could make stick chairs your entire life without ever making the same one twice. The final section offers detailed plans for five stick chairs, from a basic Irish armchair to a dramatic Scottish comb-back. These five chair designs are a great jumping-off point for making stick chairs of your own design. Additional chapters in

the book cover chair comfort, finishing and sharpening the tools. From the author: "When I first wrote 'The Stick Chair Book' in 2021, I was also fighting cancer. So I hammered out the text with urgency and the desire to record every fragment of information I knew about chairmaking. "To be fair, that's usually how I go about writing all my books. But then I typically take a couple months off, put the manuscript aside, then revisit it with fresh eyes and a sharpened pen. My final revisions remove about 10-20 percent of the original material. The stuff I cut is usually chapters that don't match the tone of the rest of the text. Or I snip sections that aren't as relevant as when I first wrote them. I also smooth out the writing and add bits of information I'd forgotten during the first brain-to-fingers dump. "And that's exactly what I've done for this revised edition. As a result, the text is 10.1 percent shorter than the first edition. It's more to the point. And it's where the manuscript would have ended up under normal conditions..."--Publisher's website. *Maryland Law Reporter* Lists news events, population figures, and miscellaneous data of an historic,

This book reports on cutting-edge findings and developments in physical, social and occupational ergonomics. It covers a broad spectrum of studies and evaluation procedures concerning physical and mental workload, work posture and ergonomic risk. Further, it reports on significant advances in the design of services and systems, including those addressing special populations, for purposes such as health, safety and education, and discusses solutions for a better and safer integration of humans, automated systems and digital technologies. The book also analyzes the impact of culture on people's cognition and behavior, providing readers with timely insights into theories on cross-cultural decision-making, and their diverse applications for a number of purposes in businesses and societies. Based on three AHFE 2020 conferences (the AHFE 2020 Virtual Conference on Physical Ergonomics and Human Factors, the AHFE 2020 Virtual Conference on Social & Occupational Ergonomics, and the AHFE 2020 Virtual Conference on Cross-Cultural Decision

Making), it provides readers with a comprehensive overview of the current challenges in physical, social and occupational ergonomics, including those imposed by technological developments, highlights key connections between them, and puts forward optimization strategies for sociotechnical systems, including their organizational structures, policies and processes.

Drawing on ethnographic research at the British seaside, this book offers an original and insightful anthropological contribution to the study of contemporary Britain and nationalism. The volume focuses on people who have retired from different parts of the UK to the seaside town of Margate and nearby areas, exploring their ethical negotiations and relationship with things that 'have history'. It considers how residents engage daily with objects, houses and places 'with character' and how such ordinary engagements underlie nationalist sentiments and the Brexit vote. Ana Carolina Balthazar demonstrates that those who have reached a comfortable financial position often look for ways to reconnect with their working-class

upbringing and, while doing so, engage with the national past in a very tangible manner. Contributing to social scientific debates on class dynamics and ethics, the book provides a different perspective on nationalist populism, one which moves beyond media stereotypes and arguments made about the 'left behind' and 'longing for empire' in 'post-industrial' Britain.
