SELLER • A REESE'S BOOK

CLUB PICK • "A gripping

and poignant ode to a messy, loving family in all

its glory." —Madeline

Miller, bestselling author

of *Circe* In this "rich,

complex family saga"

(USA Today) full of long-

buried family secrets,

Marilyn Connolly and David Sorenson fall in love in the 1970s, blithely ignorant of all that awaits them. By 2016, they have four radically different daughters, each in a state of unrest. Wendy, widowed young, soothes herself with booze and younger men; Violet, a litigator turned stay-at-home-mom, battles anxiety and self-doubt; Liza, a neurotic and newly tenured professor, finds herself pregnant with a baby she's not sure she wants by a man she's not sure she loves; and Grace,

the dawdling youngest daughter, begins living a lie that no one in her family even suspects. With the unexpected arrival of young Jonah Bendt—a child placed for adoption by one of the daughters fifteen years before—the Sorensons will be forced to reckon with the rich and varied tapestry of their past. As they grapple with years marred by adolescent angst, infidelity, and resentment, they also find the transcendent moments of joy that make everything else

worthwhile. Don't miss Claire Lombardo's new book, *Same As It Ever Was!*

Staying in Life Behler Publications, LLC

This impressive debut novel, longlisted for the 2020 Booker Prize, takes its premise and inspiration from ten of the best-known thought experiments in philosophy—the what-ifs of philosophical investigation—and uses them to talk about love in a wholly unique way.

Married couple Rachel and Eliza are considering

having a child. Rachel wants one desperately, and Eliza thinks she does, too, but she can't quite seem to wrap her head around the idea. When Rachel wakes up screaming one night and tells Eliza that an ant has crawled into her eye and is stuck there, Eliza initially sees it as a cry for attention. But Rachel is adamant. She knows it sounds crazy—but she also knows it's true. As a scientist, Eliza is skeptical. Suddenly their entire relationship is called into question. What follows is

a uniquely imaginative sequence of ten interconnecting episodes—each from a different character's perspective—inspired by some of the best-known thought experiments in philosophy. Together they form a sparkling philosophical tale of love lost and found across the universe.

A New York Times

Bestseller! We know there

are certain things we

must have to survive--

food, shelter, and safety to name a few. But there are also aspects of life that truly allow us to be joyful and fulfilled. For popular podcaster and bestselling author Annie F. Downs, fun is close to the top of that list. Few would argue that having fun doesn't enrich our lives, but so much gets in the way of prioritizing it. Tough days, busyness, and feelings that are hard to talk about keep us from the fun that's out there waiting to be found. With *That Sounds Fun*, Annie offers an irresistible

invitation to understand the meaning of fun, to embrace it and chase it, and to figure out what, exactly, sounds fun to you--then do it! Exploring some research and sharing some thoughts behind why fun matters, she shows you how to find, experience, and multiply your fun. With her signature storytelling style and whimsical vulnerability, Annie is the friend we all need to guide us back to staying true to ourselves and finding the fun we need. *Such a Fun Age*: Reese's

Reviews • Library Journal • BookPage Longlisted for the 2020 Booker Prize An Instant New York Times Bestseller A Reese's Book Club Pick "The most provocative page-turner of the year." -- Entertainment Weekly "I urge you to read Such a Fun Age." --NPR A striking and surprising debut novel from an exhilarating new voice, Such a Fun Age is a page-turning and big-hearted story about race and privilege, set around a young black babysitter, her well-intentioned employer, and

a surprising connection that threatens to undo them both. Alix Chamberlain is a woman who gets what she wants and has made a living, with her confidence-driven brand, showing other women how to do the same. So she is shocked when her babysitter, Emira Tucker, is confronted while watching the Chamberlains' toddler one night, walking the aisles of their local high-end supermarket. The store's security guard, seeing a young black woman out

late with a white child, accuses Emira of kidnapping two-year-old Briar. A small crowd gathers, a bystander films everything, and Emira is furious and humiliated. Alix resolves to make things right. But Emira herself is aimless, broke, and wary of Alix's desire to help. At twenty-five, she is about to lose her health insurance and has no idea what to do with her life. When the video of Emira unearths someone from Alix's past, both women find themselves on a crash course that will

upend everything they think they know about themselves, and each other. With empathy and piercing social commentary, *Such a Fun Age* explores the stickiness of transactional relationships, what it means to make someone "family," and the complicated reality of being a grown up. It is a searing debut for our times.

We are constantly growing older, and there are an increasing number of elderly people living with dementia who are merely being >taken care of<. There is no question that we need alternatives to the established procedures. What can we

do to create spaces where we can stay in life - rather than just staying alive? How can we turn the individual environments of people with and without dementia into ›places of human warmth‹? In Germany, initiatives attempting to answer these questions are on the rise: Committed individuals from politics, art, churches, social and volunteer work etc. are creatively working towards dementia-friendly communities. In this book, three authors, intimately familiar with the topic,

explore initial movements, obstacles, and first approaches. *A Smart Girl's Guide: Friendship Troubles* Random House The fiction and reportage included in *The Last Carousel*, one of the final collections published during Nelson Algren's lifetime, was written on ships and in ports of call around the world, and includes accounts of brothels in Vietnam and Mexico, stories of the boxing ring, and reminiscences of Algren's beloved Chicago White

Sox, among other subjects. In this collection, not just Algren's intensity but his diversity are revealed and celebrated. *As a Child* HarperCollins *Surviving and Alcoholic Marriage and Living to Tell About It* By: Susan Merrifield *Surviving an Alcoholic Marriage and Living to Tell About It* is a true story. Susan Merrifield details her long, difficult relationship with an alcohol-abusing husband. Through her journey, Merrifield provides advice to others who might be in a similar

situation, hoping they will learn from her experience. This book does not necessarily give us a happy ending or a complete storyline that we so often crave. Instead, Merrifield follows a winding path that refuses to flirt with magical realism. As we learn Merrifield's personality, and the obstacles that stood in her way, we come to respect the everyday triumphs that defined her long, difficult relationship with a man controlled by the bottle.

 "When two families unite, they don't blend, they collide," says Dr. Kevin Lemman, bestselling author of *The New Birth Order Book*. But he also believes, "You can blend a family without breaking it. The principles in this book will help you wage the battle of blending your family-and come up not only a survivor but a winner!" By understanding the impact that birth order has on each family member, parents are better

equipped to ease the transition into a new, different but functional family unit. Using his signature humor and real life examples, Dr. Lemman provides both insight and practical advice about discipline, self-respect, parental authority, and the importance of the marriage relationship.

 Like Sherlock Holmes's dog in the night time, sometimes the true significance of things lies in their absence. Rick

Gekoski tells the very human stories that lie behind some of the greatest losses to artistic culture - and addresses the questions such disappearances raise. Some of the items are stolen (the Mona Lisa), some destroyed (like Philip Larkin's diaries, shredded, then burnt, on his dying request) and some were lost before they even existed, like the career of the brilliant art deco architect, Charles Rennie Mackintosh, which foundered amid a lack of cash - but behind all of

them lies an often surprising story which reveals a lot about what art means to us. Gekoski explores in depth the greater questions these tremendous losses raise - such as the rights artists and authors have over their own work, the importance of the search for perfection in creativity, and what motivated people to queue to see the empty space where the Mona Lisa once hung in the Louvre.

Keeping Your Head After Losing Your Job

Totally Entwined Group (USA+CAD)

"The United States of America is drowning in a culture certain to keep us down. The church, the family, the home, our children are under attack from almost every direction. We are losing ground with every passing day. The America many of us grew up in no longer exists and the hopes of returning to a simpler and more moral climate seem to be fading. Is there anything we can do? Is

there anyone we can turn to? Is there hope of once again being in the land of the free and the home of the brave? Jim Davidson has written this book to answer some of those questions. Many of the answers ought to be obvious, and yet not many are pursuing them. To turn back the clock or better, to return to the days of yesteryear, we must get back to God's Word and God's ways. Our forefathers built this land on tried-and-true principles! If given a try, they still work. As you

read about our great heritage, the vision we used to reclaim, and the next steps we need to take, you will realize that all of us need to make a new commitment to our Lord and our land. We can no longer depend on the White House, Congress, or politicians to lift us up. We must make a change! We must become a counterculture people with our eyes on returning to the greatness we once enjoyed." -- from the Foreword by Don R. Chandler, Senior Pastor, Central Baptist Church,

* NOW WITH A NEW CHAPTER * 'A hugely enjoyable romp through the pleasures and pitfalls of setting up home in a foreign land.'- Guardian
Given the opportunity of a new life in rural Jutland, Helen Russell discovered a startling statistic: Denmark, land of long dark winters, cured herring, Lego and pastries, was the happiest place on earth. Keen to know their secrets, Helen gave herself a year to

uncover the formula for Danish happiness. From childcare, education, food and interior design to SAD and taxes, *The Year of Living Danishly* records a funny, poignant journey, showing us what the Danes get right, what they get wrong, and how we might all live a little more Danishly ourselves. In this new edition, six years on Helen reveals how her life and family have changed, and explores how Denmark, too – or her understanding of it – has shifted. It's a messy and flawed place,

she concludes – but can still be a model for a better way of living. *Living in the Now* Dorrance Publishing
The events in these true tales of the canoe country of northern Minnesota and Ontario were compiled over the authors lifetime of experience in the woods. Working with Boy Scouts and, in his later years, with employees, friends, family, and folks from his church, the author has led perhaps over five hundred people on trips into the Boundary Waters. The experiences

on these trips over the past fifty years have provided a wealth of material that the author has crafted into enjoyable stories. Some of the stories are educational, many are hilarious, more than a few are inspirational, all of them are entertaining. Each story stands alone, but the book is best read from the beginning. Words followed by asterisks are defined in a glossary for readers unfamiliar with canoeing or the Boundary Waters Canoe Area Wilderness. After reading

this book, the author hopes you will be better informed about the lake country, you will have a

greater appreciation for the wilderness, and you might even be encouraged to take a canoe trip to see Gods

country for yourself. If this happens, then the author has succeeded in his purpose.
