William Morris Designs: a Colouring Book Penguin
A beautiful and informative gift book devoted to designs by William Morris that incorporate flowers—a central motif in his oeuvre and one that played a part in the majority of his designs. The leading figure of the Arts and Crafts Movement, William Morris (1834–1896) is one of the best-known and most popular of all British designers. A passionate advocate of craftsmanship over mass production, he designed a huge variety of objects, but it is his spectacular carpet, fabric, and wallpaper patterns that have continued to

capture the popular imagination and influence interior designers and the decorative arts. Around six hundred such designs are attributed to Morris, most of which are based on nature, including trees, plants, and flowers. This beautifully designed, accessibly priced gift book offers a wealth of designs by Morris where flowers are the principal motif. The text traces the origins of Morris's flower-based designs: his own gardens at the Red House in Kent; sixteenth- and seventeenth-century herbals; illuminated medieval manuscripts; late medieval and Renaissance tapestries; and the range of decorated objects, particularly from the Islamic world, that Morris studied at the South Kensington Museum, now the Victoria and Albert Museum. Authored by Rowan Bain, senior curator at the William Morris Gallery, and lavishly illustrated with over one hundred color illustrations, *William Morris's Flowers* will both inform and delight. The Kelmscott Chaucer is the most memorable and beautiful edition of the complete works of the first great English poet. Next to The Gutenberg Bible, it is considered the outstanding typographic achievement of all time. There are 87 full-page illustrations by Sir Edward Burne-Jones, and the borders, decorations and initials are drawn by William Morris himself. Only 425 copies of this magnificent work were produced in 1896, and this beautiful

monochrome facsimile, slightly smaller than the original, makes this glorious book available to all. A fascinating Introduction by Nicholas Barker places the book and its importance in context. The main text is followed by a black and white facsimile of ANoteby William Morris on his Aims in Founding the Kelmscott Press, together with a Short History of the Press by S C Cockerell.

Coloring books for kids is an activity that is educational and fun at the

same time. These books usually have large pictures and clear contours, specifically designed to make coloring easier for children. The designs often vary, from cute cartoon characters, cute animals, to charming natural landscapes. Bright and varied colors dominate the pages, awakening children's creativity and imagination. The coloring process can help them develop fine motor skills, improve focus, and teach them about color selection and coordination. Apart from that, coloring can also be a relaxing activity for children, helping them deal with stress or anxiety in a fun way. Coloring books often also contain educational elements, such as numbers, letters, or other concepts embedded in the images. By coloring these books, children can not only express themselves but also learn while playing, making it an ideal combination for their all-round development. *Inuit Art from Cape Dorset Coloring Book (CB101)* Model Pub

Widely regarded as one of the most exquisite books ever printed, the Kelmscott Chaucer is the masterwork of William Morris (1834-1896) and Edward Burne-Jones (1833-1898). Published in 1896, more than thirty years after the two Englishmen discovered a shared love of art and medieval literature while students at Oxford University, *The Works of Geoffrey Chaucer* now newly imprinted represents the peak of their artistic collaboration.

Morris was a man of many passions: an artist, designer, poet, publisher, businessman, and social activist, as well as being a founder of the Arts & Crafts movement in England. After establishing the Kelmscott Press in 1891, he turned to his friend Burne-Jones, a painter then in great demand, to help him create an ideal book, one patterned after the artistry and typography of medieval illuminated manuscripts and the best of fifteenth-century handprinting. In its 556 pages, the Kelmscott Chaucer included 87 elegant narrative illustrations by Burne-Jones and 32 of Morris's lush floral and foliate border designs, along with his decorative frames and initials. It was printed to exacting specifications in

black and red using the (appropriately named) Chaucer typeface Morris designed for it. The great book took four years to make. "If we live to finish it," wrote Burne-Jones, "it will be like a pocket cathedral-so full of design and I think Morris the greatest master of ornament in the world." The first two of the 438 books printed were presented to Morris and Burne-Jones in June 1896. Morris, who had been in declining health for several years, died four months later. Burne-Jones would survive him by less than two years. This colouring book's images are from a copy of the Kelmscott Chaucer in the collection of The British Library, which houses more than 150 million items representing every age of written civilization.
