MonoSpace® Kone
Ecodisc ManualKONE

MonoSpace uses less space so you can lease more space. All of the elevator components are uniquely engineered to fit inside the hoistway. The KONE EcoDisc® machine saves money by using less energy than traditional elevator products. KONE MonoSpace is 40% more efficient than traditional geared traction applications KONE MonoSpace- including the KONE EcoDisc hoisting machine and other mechanical structures - now requires even less height and width in the shaft. n This frees up valuable floor space or allows for a more spacious, higher-capacity car. n When replacing an existing elevator, the new KONE N MonoSpace

eliminates the need THE MACHINE-ROOM-LESS ELEVATOR KONE N MonoSpace The Kone EcoDisc is a gearless hoisting machine made by Kone since the introduction of their MonoSpace elevators in 1996, the world's first machine room less elevator system. The EcoDisc motor was first introduced in 1996. It is a Rotational Linear Motor combined with synchronous axial...Kone EcoDisc | Elevator Wiki | Fandom Greater efficiency - The secret behind the KONE EcoSpace™ elevator is the energy-efficient, permanent-magnet, gearless traction KONE EcoDisc® motor.. Space savings - KONE EcoSpace does not need a separate machine room thanks

to the KONE EcoDisc hoisting motor, which is so compact that it can be located in the hoistway. There is no need for a control room as the KONE EcoSpace control and ...EcoSpace Low-rise Elevator - KONEThe secret behind the KONE MonoSpace® concept is the permanent-magnet, gear less KONE EcoDisc® motor. The revolutionary KONE EcoDisc® weighs less than half of a conventional geared traction machine, has only one moving part, and is roughly twice as efficient. Its efficiency is three times that of a hydraulic power unit and it uses THE MACHINE-ROOM-LESS ELEVATOR PLATFORM KONE MonoSpace Specialtools and downloads Our easy-to-use tools and
