What are the best practices of mission work? Better Together is a layperson's guide to many of the most common questions faced by churches working in mission. George puts her wealth of mission experience to work translating solid biblical missiological content into everyday language. Each chapter begins with a case study and addresses key questions and challenges encountered. The book also contains a study guide. This is a wonderful resource for mainline Protestant churches active in mission projects and will prove especially helpful for the Presbyterian Church (U.S.A.) and its various mission agencies. It is also perfect for individual or group study, for training sessions for mission-committed congregants, and for the boards of mission initiators.

"Ivar Vegge argues that Paul, in line with ancient moral philosophers, letter-writers, and

rhetoricians, used idealized praise in 2 Cor 1-9, and particularly in 2 Cor 7:5-16, and blame or threats, especially in 2 Cor 10-13, to promote reconciliation between the Corinthians and Paul as apostle."--BOOK JACKET.

The primary goal of this series is to disseminate information about major new research or applied developments in the field of personality assessment. We are striving to present a broad range of topics in personality assessment that reflect the diverse viewpoints and various assessment strategies that make up the field. The series is devoted to several types of contributions: relevant reviews of research areas and theoretical articles; empirical research studies; intensive case studies; and articles describing new, well developed assessment techniques. This volume differs somewhat from the previous three volumes in the series which generally contained chapters with heterogeneous content. Several of the articles in Volume 4 focus on a single theme-international applications of personality assessment. Specifically, it contains several invited articles which detail some of the extensive international work being conducted on the Minnesota Multiphasic

Personality Inventory.

Are you saddened but unsure about how best to express your deep feelings in the face of sorrow or tragedy? In sympathy situations, friends and family have the greatest need to hear from you. Don't leave them wondering about your lack of concern. Begin your letter or note with a straightforward comment about your feelings—your sadness, your shock, your sorrow, or your concern. Mention something positive you remember about the individual or, if you did not know him or her personally, recall something you've heard others say. Let the reader know that you understand the extent of the loss or the painful situation in the case of a misfortune. But do show sensitivity. Avoid adding gruesome details or increasing the pain. If possible, and if you're sincere, offer to help in some specific way: Be brief. You don't need to go into all the details of the situation—how you heard the news or what so-and-so told you. Your caring concern in "I am so sorry" speaks volumes. Close with a comforting phrase—a final thought that reflects your concern and is appropriate to your relationship with the person. Make your words genuine and personal—as if you were talking face to face. This is not a task that you should delegate to someone else. Use your personal stationery or card. Typically, you should write the note by hand. But if you're writing to a business colleague or client, a typed letter is acceptable—depending on the closeness of the association. If you'd like to make the sympathy letter writing process even easier, we can help even more. If you still can't find the right words to express comfort, try our professionally written package of sympathy letters and notes. You'll find sample sympathy letters for both personal and business situations: Personal Sympathy and Business Sympathy Letters Death of a child Death of a parent Death of a spouse Death of other relatives Miscarriage Death of pet Personal failures Disaster—loss of home Disaster—loss of business Business failure Financial ruin Loss of job—friend Loss of job—coworker Get well soon Terminal illness—friend Terminal illness—acquaintance Wedding—cancelled Divorce—to parents of those getting divorce Divorce—to friend or relative getting divorce Criminal conviction Crime victim"

For the first time ever, three pioneers in the field of acceptance and commitment therapy (ACT)

present an edited volume that outlines how the core ACT processes can be applied to religious and spiritual care approaches. If you are a clergy leader or pastoral counselor, people struggling with difficult situations or life traumas frequently turn to you for guidance. And while you're passionate about helping, you may be unprepared for counseling people with certain mental health challenges. On the other hand, if you are a psychotherapist, you may need guidance in supporting your client's religious belief system in therapy. In either case, this book presents a powerful road map to help you provide the best care. In this book, you'll find a complete overview of ACT, as well as strategies for integrating ACT and issues related to spirituality. You'll also learn how the core processes of ACT—such as commitment to change and values-based living—can be seamlessly tied into spiritual and religious counseling, no matter your faith or therapeutic background. By teaching you how to fuse conceptual psychological and spiritual principles, this book will provide you with the tools needed to enhance your counseling skill set.

BOOKER PRIZE WINNER • NATIONAL BESTSELLER • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single setting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

The essays collected in *Analyzing the Different Voice: Feminist Psychological Theory and Literary Texts* apply influential, pathbreaking psychological studies about women's lives to literature. In their analyses of fictional portraits, contributors both challenge and confirm psychological theories about female identity, about 'connection/separation' as developmental catalysts, and about the impact of gender on 'voice,' moral decision-making, and epistemology in relation to classical and contemporary literary texts, written by both women and men.

What is the apostle Paul's message in his Letter to the Romans? And how does it apply to us today? Is there more to learn about Romans, and is there more for the church to hear today? Keith Stanglin takes this familiar epistle and makes sense of its author's original intent and its meaning for believers now. With attention both to the historical background and to our contemporary situation, he offers thirty-one meditations that take readers through the entire letter, beginning with the ancient arguments and arriving at modern exhortation. Each chapter is accompanied by discussion questions for use in classes and study groups. For scholars serving the church, this book is a welcome supplement to a technical commentary. For non-specialists, it is an introduction to Romans and an invitation to seek its wisdom. All readers will see Paul's message of God's grace in fresh ways.
