À proprement parler, il ne s'agit pas d'un dictionnaire de langue, mais l'ouvrage s'en approche. Des représentations

graphiques permettent de visualiser les objets et de trouver le mot juste. Les notions abstraites sont donc absentes. Innovation importante avec cette édition : chaque terme est accompagné d'une brève définition. L'organisation est faite autour de 17 thèmes, eux-mêmes subdivisés. Index général des termes français.

Ouvrage de grande valeur par la qualité de son contenu et de ses illustrations, par sa présentation et par la solidité de reliure. [SDM].

In its painting and

sculpture since 1920, African art has combined elements from traditional tribal and modern European art. This book traces this development. Concentrating on the period from 1920 to 1965, the author discusses specific style motifs, as well as ways of handling sculptural forms and surfaces, most of which are drawn from older art. He then shows how this substratum has been shaped by the techniques, media, styles and philosophy of the West. A new introduction by the author describes and assesses current trends in African art.

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English

spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

The only comprehensive history of pastel art, beautifully illustrated with works both celebrated and little known *The Art of the Pastel* traces the evolution of this most appealing medium from the fifteenth to the early twentieth century—from its humble origins as a tool for sketching to the height of its popularity in Rococo portraiture, and its embrace by the Impressionists and Symbolists. Authors Thea Burns and Philippe Saunier, both leading experts on the subject, shed new light on the acknowledged masters of the pastel, such as Maurice Quentin de la Tour and Jean-Etienne Liotard, who used these magical sticks of color to capture the character of their sitters; Edgar Degas and Mary Cassatt, who used them to reveal the unexpected beauties of the everyday; and Odilon Redon, who used them to explore the inner mysteries of the spirit. But Burns and Saunier consider the pastel work of many other artists as well, from forgotten—yet pleasing—society portraitists to such important names as Delacroix, Whistler, and Picasso. As a rare

achievement, their graceful yet authoritative text is matched by the color plates in this volume, which reproduce the harmoniously blended hues of more than 330 choice pastels, from collections around the world. For reasons of conservation, most of these works are exhibited only rarely, and then only in low light. Now they can be admired all together, without interruption, in this museum between two covers. A delight for the eyes as well as an important work of art history, *The Art of the Pastel* will be eagerly welcomed by artists, scholars, and art lovers alike.

L'art moderne Houghton Mifflin Harcourt

Discover the award-winning debut novel by the New York Times bestselling author of *The Immortalists*, a “majestic collision of sci-fi thriller and love story” (*Bustle*) about a young woman struggling with questions of love, trust, and ethics as the line between dreams and reality dangerously blurs. When Sylvie Patterson, a bookish student at a Northern California boarding school, falls in love with a spirited, elusive classmate named

Gabe, they embark on an experiment that changes their lives. Their headmaster, Dr. Adrian Keller, is a charismatic medical researcher who has staked his career on the therapeutic potential of lucid dreaming: by teaching his patients to become conscious during sleep, he believes he can relieve stress and trauma. Over the next six years, Sylvie and Gabe become consumed by Keller’s work, following him across the country. But when an opportunity brings the trio to the Midwest, Sylvie and Gabe stumble into a tangled relationship with their mysterious neighbors—and Sylvie begins to doubt the ethics of Keller’s research. As she navigates the hazy, permeable boundaries between what is real and what isn’t, who can be trusted and who cannot, Sylvie also faces surprising developments in herself—an unexpected infatuation, growing paranoia, and a new sense of rebellion. With stirring, elegant prose, “Chloe Benjamin has crafted an eerie, compelling first novel which, like the lingering effects of a vivid dream, resonates long past its finish” (*Karen Brown, The Longings of Wayward*)

It's 1969 in New York City's Lower East Side, and word has spread of the arrival of a mystical woman, a traveling psychic who claims to be able to tell anyone the day they will die. The Gold children—four adolescents on the cusp of self-awareness—sneak out to hear their fortunes. The prophecies inform their next five decades. Golden-boy Simon escapes to the West Coast, searching for love in '80s San Francisco; dreamy Klara becomes a Las Vegas magician, obsessed with blurring reality and fantasy; eldest son Daniel seeks security

as an army doctor post-9/11; and bookish Varya throws herself into longevity research, where she tests the boundary between science and immortality. A sweeping novel of remarkable ambition and depth, *The Immortalists* probes the line between destiny and choice, reality and illusion, this world and the next. It is a deeply moving testament to the power of story, the nature of belief, and the unrelenting pull of familial bonds.

Georges Seurat (1859–1891) created just six major figure paintings during his lifetime, one of which, the alluring *Circus Sideshow* (Parade de cirque), has remained the most challenging to interpret since it first intrigued viewers at the 1888 Salon des

Indépendants in Paris. Unlike Seurat's earlier sunlit scenes, *Circus Sideshow* presents a nighttime tableau depicting a parade—a street show enticing passersby to purchase tickets. With its geometrically precise composition, muted colors, and elements of abstraction, the painting stands apart as a masterpiece of Neo-Impressionism and heralds Seurat's subsequent depictions of popular entertainments. This book, the first comprehensive study of *Circus Sideshow*, situates the painting in the context of nineteenth-century Paris and of the many social changes France was undergoing. Renowned art historian Richard Thomson illuminates the roles of caricature, naturalist and avant-garde painting, and circus advertising; examines Seurat's use of contemporary aesthetic theory; and discusses how artists ranging from Rouault to Picasso mined the sideshow theme into the twentieth century. Illustrated with Seurat's related drawings, works by other artists, and period posters and broadsides, *Circus Sideshow* delves

into the history of traveling circuses and seasonal fairs in France, exploring the ongoing appeal of this traditional form of popular entertainment through the fin de siècle. Two additional essays describe the painting's enthusiastic reception in New York upon its 1929 debut and present the results of a fresh technical examination of the canvas, making this volume the definitive resource on one of Seurat's most captivating works.

Who's who in Art

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and

conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century. *Arts Digest* Published to accompany the exhibition Jackson Pollock held the Museum of Modern Art, New York, from 1 November 1998 to 2 February 1999.
