It is arguably the most common theme in ABDL fiction - becoming a baby again, perhaps forever and perhaps completely so. For many Adult Babies, the

idea of being able to give into our wishes and desires completely and without restriction is a wonderful concept and one that grabs our attention. For the vast majority of adult babies, the expression of our inner infant is complicated by endless compromises and limits on what we can actually do. Our partners limit us. Our

finances limit us. Social acceptance - and the lack thereof - limits us. Friends, employment, family and other issues limit us. But fiction can overcome all of these. In fiction, we can bend the rules of probability, break the bounds of social norms and erase the limits that otherwise keep us from expressing our inner infancy the way we wish. In these three books, you will read of adults that become complete babies once more. If they are not originally completely willing to become babies again, they quickly discover the joys, the peace and comfort of nappies, baby clothes, bottle feeds and baby toys. Infancy is entrancing to almost everyone, but for those special people - adult babies -

infancy is only a nappy-change away and stories of grownups reverting to babyhood is less fiction than an innate desire that we express on the pages of a book. Enjoy your stay in the world of refreshing infancy. *Your Child from One to Six* Simon and Schuster Journalists John McCoy and Ethan Hoffman spent four months inside the walls of the Washington State Penitentiary at Walla Walla in 1978, just as Washington, once a leader in prison reform, abandoned its focus on reform and rehabilitation and returned to cell time and punishment. It was a brutal transition. McCoy and Hoffman roamed the maximum-security compound almost at will, observing and befriending prisoners and guards. The result is a striking depiction of a community in which there was little to do, much to fear, and a culture that both mimicked and scorned the outside world.

McCoy's unadorned prose and Hoffman's stunning black-and-white photographs offer as authentic a portrayal of life in the Big House as "outsiders" are ever likely to experience. Originally published in 1981, *Concrete Mama* revealed a previously unseen stark and complex world of life on the inside, for which it won the Washington State Book Award. Long unavailable yet still relevant, it is revitalized in a second edition with an introduction by scholar Dan Berger that provides historical context for the book's ongoing resonance, along with several previously unpublished photographs. *My Three Lost Girls*

Growing up an orphan, author Su Anne Sherry often found herself adrift in life belonging to no one. As Sherry struggled to navigate the sometimes perilous

waters of her life without parental guidance, she just wanted to know what it felt like to be loved. In her poignant memoir, Sherry, called Sophie in her childhood, chronicles a lost and lonely little orphan's hunger for affection and her struggle to understand her world as she battled instinctively to hold onto her true self and her sense of humor in the face of institutional indifference, bureaucratic foibles, and human cruelty. Orphaned three months after she was born due to her mother's untimely death and her father's chronic illness, little Sophie began her journey through foster care and subsequently life in an orphanage, where she learned to

embrace random acts of kindness, develop her personality, and overcome daily challenges. As she slowly unveils memories from her coming-of-age journey, she illustrates the power of the human spirit to overcome even the greatest of challenges in order to realize true happiness. My Three Lost Girls shares a heartrending, often humorous account of one woman's pilgrimage from an unpredictable beginning in an orphanage to adolescent independence, where she finally discovers what it is like to be loved.

AB Discovery is pleased to publish John Marshall from Australia - in his first book - *Australian Baby - A life of nappies, bottles and struggles* John Marshall was born in 1961 in Australia. This 40,000 word book is the story of his early life through to university, as he struggled as a life-long

bedwetter and his desire to become a baby girl. Through nappies, baby dummies and feeding bottles, John's struggle will resonate with many whose infantile desires began early and never ceased. Finding himself in a world that expected men to be men and boys to be boys, John Marshall fought to be the baby girl he felt inwardly, while still having a rewarding school life and finally, a professional career. John is an adult baby - a sissy baby, but before that, he was a five-year-old boy wearing nappies and going to school, trying to find who he - or she - was. Long-term bedwetters, ABDLs, and those who simply feel unsure of their identity will relate to

this story of growing up babyish, girlish, and bedwetting.

Colin Milton presents a 36,000 word collection of letters by dominant women about their diapered/nappied husbands or relatives. Unbeknown to many of us, behind closed doors there are many men being put back into nappies, being bottle-fed and put into petticoats and baby clothes and regressed at the whim of their dominant partner. And best of all... it seems to work out best for everyone!

New ABDL author, Ryan Zinna, brings us his first novel, a story of a young man and his girlfriend and how they moved from the humiliation of his bedwetting and babyfacedness to a new life of genuine infancy. Ryan was trapped by his inner infant, the child that caused him to wet his bed and his pants and to crave the simplicity and dependence of genuine babyhood. His girlfriend, Veronica, and some of her friends gently take him back to a place of safety and honesty where Ryan is once

again, a diapered infant, with other baby friends and a life that suddenly makes sense to him again.

In 2010, Dr. James A. Levine was commissioned by Doctors Without Borders to travel anywhere in the world where they have a station and write about the experience – in an effort to give a voice to people who would otherwise have none.

The novella was published, along with nine other major international authors, in Italian, in the anthology, *Dignità*, for Doctors Without Borders' 50th Anniversary. Dr. Levine traveled to Kinshasa in the Democratic

Republic of Congo where he visited AIDS clinics and witnessed the remarkable medical care that's being provided. He almost wrote about that. Until he spent time with some of the people living in HIV-positive communities. There, he met Paulit, an extraordinary woman living with AIDS, who refused to be victimized, a woman whose capacity for love will be an inspiration to all. Now, for the first time in English - this is her true story.

Hypnotism has long been associated with adult babies. With hypnotic tapes to re-introduce bedwetting, incontinence, or diaper messing, it has been a big part of ABDL

culture. It is often used to expand the regressive experience and to help achieve a deeper and more authentic experience of infancy. In these 5 novels, we read of hypnosis being used on people - both willing and not - to generate both infancy and the usual byproducts - a wet and messy diaper! A more complete infantile experience awaits from a hypnotic sleep! The 5 original books are as follows:
