The Shameless Detroit Iron
The story of how Chrysler's minivan team created an automobile that captured the 1995 Motor Trend Car of the Year and other major awards - and reinvented a perilously entrenched corporation in the process - is as dramatic and inspiring a story as any in business today. Brock Yates, one of the most respected writers in the auto world, was given unprecedented access to Chrysler - every planning session, presentation, budget review, test drive, assembly line start-up, and marketing launch. The result is a book that

unveils the mysteries of modern car-making, revealing how cars are shaped through countless interlinked decisions ranging from size and power to door configurations, color selections, and innumerable other interconnected details. It also captures the complex process by which the thousands of separate pieces that make up a car are designed, tested, manufactured, and marshaled into place at the exact moment they are needed. For any reader who cares about cars, this is the most intriguing look inside the mysteries of their creation ever written. At the same time, *The Critical Path* recounts an extraordinary drama of all-too-human managers attempting to make something new, in a new way, inside a corporate culture that resists them at every turn. The story of how Chrysler's minivan platform team kept their commitment to quality, schedule, and budget - with a \$3 billion investment and the company's fate palpably in the balance - is as encouraging a tale as has emerged from American business in years. The unprecedented triumph and Chrysler's resultant comeback is a lesson in successful management that will be savored by any

reader interested in how great companies make breakthrough products.

National Artificial Reef Plan

Cuisine and Culture presents a multicultural and multiethnic approach that draws connections between major historical events and how and why these events affected and defined the culinary traditions of different societies. Witty and engaging, Civitello shows how history has

shaped our diet--and how food has affected history. Prehistoric societies are explored all the way to present day issues such as genetically modified foods and the rise of celebrity chefs. Civitello's humorous tone and deep knowledge are the perfect antidote to the usual scholarly and academic treatment of this universally important subject.

Official Boy Scout Handbook

Buried secrets, dirty lies, and unbridled greed and ambition raise the stakes down South in the lauded crime series from New York Times bestselling author Ace Atkins. Twenty years ago, Brandon Taylor was thought to be just another teen boy who ended his life too soon. That's what almost everyone in Tibbehah County, Mississippi, said after his body and hunting rifle were found in the Big Woods. Now two New York-based reporters show up asking Sheriff Quinn Colson questions about the Taylor case. What happened to the evidence? Where are the missing files? Who really killed Brandon? Quinn wants to help. After all, his wife Maggie was a close friend of Brandon Taylor. But Quinn was just a kid himself in 1997, and these days he's got more on his plate than twenty-

year-old suspicious death. He's trying to shut down the criminal syndicate that's had a stranglehold on Tibbehah for years, trafficking drugs, stolen goods, and young women through the MidSouth. Truck stop madam Fannie Hathcock runs most of that action, and has her eyes on taking over the whole show. And then there's Senator Jimmy Vardaman, who's cut out the old political establishment riding the Syndicate's money and power--plus a hefty helping of racism and ignorance--straight to the governor's office. If he manages to get elected, the Syndicate will be untouchable. Tibbehah will be lawless. Quinn's been fighting evil and corruption since he was a kid, at home or as a U.S.

Army Ranger in Afghanistan and Iraq. This time, evil may win out.
