BookCaps Study Guides

Swift's *A Modest Proposal* has always aroused the interest not just of literary critics, but also of linguists and pragmatists. Within the latter approaches, the study of irony, and more concretely, the intentions and attitudes that must have guided the production of such an intricate work, have always been paramount. However,

it seems that within pragmatics the analysis has been restricted so far to the 1729 work itself. In the present author's view, it is interesting to contextualise this masterpiece of irony and satire within Swift's wider writing on Ireland, an approach that remains to be carried out. Accordingly, this work sets out to analyse a selection of Swift's Irish Tracts, with a view to tracing the evolution within Swift's literary production of his views and attitudes towards the situation of his homeland. Although different pragmatic approaches are applied, the emphasis is laid upon the contributions

that the relevance-theoretical framework and its studies on irony may bring to the understanding of this particular Tract. The works selected are meant to cover and also be representative of the main phases currently distinguished within Swift's writing on the "Irish Question". It is therefore hoped that a deeper analysis of the former works by Swift on this topic will provide new insights for a better understanding of A Modest Proposal.

A Modest Proposal For preventing the Children of Poor People From being a Burthen to Their Parents or Country, and For making them Beneficial to the Publick, commonly referred to as A Modest Proposal, is a Juvenalian satirical essay written and published anonymously by Jonathan Swift in 1729. The essay suggests that the impoverished Irish might ease their economic troubles by selling their

children as food for rich gentlemen and ladies. This satirical hyperbole mocked heartless attitudes towards the poor, as well as British policy toward the Irish in general. The primary target of Swift's satire was the rationalism of modern economics, and the growth of rationalistic modes of thinking in modern life at the expense of more traditional human values

I have been assured by a very knowing American of my acquaintance in London, that a young healthy child well nursed,

is, at a year old, a most delicious nourishing and wholesome food, whether stewed, roasted, baked, or boiled; and I make no doubt that it will equally serve in a fricasie, or a ragoust. I do therefore humbly offer it to public consideration, that of the hundred and twenty thousand children, already computed, twenty thousand may be reserved for breed, whereof only one fourth part to be males; which is more than we allow to sheep, black cattle, or swine, and my reason is, that these children are seldom the fruits of marriage, a circumstance not much regarded by our savages, therefore, one male will be sufficient to serve four females. That the remaining hundred thousand may, at a year old, be offered in sale to the persons of quality and fortune, through the kingdom,

always advising the mother to let them suck plentifully in the last month, so as to render them plump, and fat for a good table.

Jonathan Swift presents a shockingly calculated and seemingly rational argument for using the children of the poor as a food source, thereby addressing both the economic burden on society and the issue of hunger. This provocative piece is a masterful example

of irony and social criticism, as it exposes the cruel attitudes and policies of the British ruling class towards the Irish populace. Jonathan Swift's incisive critique not only underscores the absurdity of the proposed solution but also serves as a profound commentary on the exploitation and mistreatment of the oppressed. *A Modest Proposal* remains a quintessential example of satirical literature, its biting wit and moral indignation as relevant today as it was at the time of its publication. JONATHAN SWIFT [1667-1745] was an Anglo-Irish author, poet, and satirist. His deadpan satire led to the coining of the term »Swiftian«, describing satire of similarly ironic writing style. He is most famous for the novel *Gulliver's Travels* [1726] and the essay *A Modest Proposal*

[1729].

Does late night political humor matter? Are late-night comedians merely entertaining, or do they have the power to influence the way we think about politics and politicians? *Politics Is a Joke!* situates late night comedy in the historical context of political humor and demonstrates how the public turn to this venue for political information, and are in turn affected by it. hyperbole mocked heartless attitudes towards the poor, as well as British policy toward the Irish in general.Drapier's Letters is the collective name for a series of seven pamphlets written between 1724 and 1725 by the Dean of St Patrick's Cathedral in Dublin, Jonathan Swift, to arouse public opinion in Ireland against the imposition of a privately minted copper coinage that Swift believed to be of inferior quality. William Wood was granted letters patent to mint the coin, and Swift saw the licensing of the patent as corrupt. In response, Swift represented Ireland as constitutionally and financially independent of Britain in the Drapier's Letters. Since the subject was politically sensitive, Swift wrote under the pseudonym M. B., Drapier, to hide from

retaliation. Although the letters were condemned by the Irish government, with prompting from the British government, they were still able to inspire popular sentiment against Wood and his patent. The popular sentiment turned into a nationwide boycott, which forced the patent to be withdrawn; Swift was later honoured for this service to the people of Ireland. Many Irish people recognised Swift as a hero for his defiance of British control over the Irish nation. Beyond being a hero, many critics have seen Swift, through the persona of the Drapier, as the first to organise a "more universal Irish community," although it is disputed as to who constitutes that community. Regardless of to whom Swift is actually appealing what he may or may not have

done, the nickname provided by Archbishop King, "Our Irish Copper-Farthen Dean," and his connection to ending the controversy stuck. Sir Leslie Stephen, KCB, FBA (28 November 1832 - 22 February 1904) was an English author, critic, historian, biographer, and mountaineer, and father of Virginia Woolf and Vanessa Bell.

One of Europe's most important literary figures, Jonathan Swift was also an inspired humorist, a beloved companion, and a conscientious Anglican minister—as well as a hoaxer and a teller of tales. His anger against

abuses of power would produce the most famous satires of the English language: Gulliver's Travels as well as the Drapier Papers and the unparalleled Modest Proposal, in which he imagined the poor of Ireland farming their infants for the tables of wealthy colonists. John Stubbs's biography captures the dirt and beauty of a world that Swift both scorned and sought to amend. It follows Swift through his many battles, for and against authority, and in his many contradictions, as a priest who sought to uphold the dogma of his church; as a man who was quite prepared to defy convention, not least in his unshakable attachment to an unmarried woman, his "Stella"; and as a writer whose vision showed that no single creed holds all the answers. Impeccably researched and

beautifully told, in Jonathan Swift Stubbs has found the perfect subject for this masterfully told biography of a reluctant rebel—a voice of withering disenchantment unrivaled in English. Shooting an Elephant Arihant Publications India limited

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. *Shooting an Elephant*, the fifth in the Orwell's Essays series, tells the story of a police officer in Burma who is called upon to

shoot an aggressive elephant. Thought to be loosely based on Orwell's own experiences in Burma, the tightly written essay weaves together fact and fiction indistinguishably, and leaves the reader contemplating the heavy topic of colonialism, with the words 'when the white man turns tyrant it is his own freedom that he destroys' echoing from the page. 'A remarkable piece.' (Jeremy Paxman) 'A writer who can – and must – be rediscovered with every age.' (Irish Times)
