DIAMOND ALVARO

[Open Government](#) JHU Press

This book offers a proven approach for reliable mapping of soil-landscape relationships to derive information for policy, planning and management at scales ranging from local to regional. It presents the theoretical and conceptual framework of the geopedologic approach and a bulk of applied research showing its application and benefits for knowledge generation relevant to geohazard studies, land use conflict analysis, land use planning, land degradation assessment, and land suitability analysis. Soil is a vital resource for society at large and an important determinant of the economic status of nations. The intensification of natural disasters and the increased land use competition for food and energy have raised awareness of the relevant role the pedosphere plays in natural and anthropogenic environments. Recent papers and global initiatives show a renewed interest in soil research and its applications for improved planning and management of this fragile and finite resource.

Unequal Neighbourhoods, Unequal Schools Cambridge University Press

The first study to document the extent and complexity of the cult's influence on Graeco-Roman and early Christian culture, R. E. Witt's acclaimed *Isis in the Ancient World* is now available in paperback *Worship of the Egyptian goddess Isis* dates as far back as 2500 B.C. and extended at least until the

fifth century A.D. throughout the Roman world. The importance of her cult is attested to in Apuleius's *Golden Ass*, and evidence of its influence has been found in places as far apart as Afghanistan and Portugal, the Black Sea and northern England. The first study to document the extent and complexity of the cult's influence on Graeco-Roman and early Christian culture, R. E. Witt's acclaimed *Isis in the Ancient World* is now available in paperback.

Arbeitsheft Pflege praktisch Transaction Publishers

33 essays take various archaeological approaches to the study of arts and crafts in the medieval village, from small-scale domestic production, to what might more reasonably be termed industries. The papers range all over Europe in geographical scope, with a focus perhaps more on eastern Europe and Scandinavia than western Europe. Papers look at pottery, textiles, bone carving, iron smelting and charcoal burning, and more general questions of the place of the peasant-artisan in the medieval economy.

Permanently Online, Permanently Connected Springer Nature

Permanently Online, Permanently Connected establishes the conceptual grounds needed for a solid understanding of the permanently online/permanently connected phenomenon, its causes and consequences, and its applied implications. Due to the diffusion of mobile devices, the ways people communicate and interact with each other and use electronic media have changed substantially within a short period of time. This megatrend comes with fundamental challenges to communication, both theoretical and empirical. The book offers a compendium of perspectives and

theoretical approaches from leading thinkers in the field to empower communication scholars to develop this research systematically, exhaustively, and quickly. It is essential reading for media and communication scholars and students studying new media, media effects, and communication theory.

Isis in the Ancient World Springer

Making and Breaking Governments offers a theoretical argument about how parliamentary parties form governments, deriving from the political and social context of such government formation its generic sequential process. Based on their policy preferences, and their beliefs about what policies will be forthcoming from different conceivable governments, parties behave strategically in the game in which government portfolios are allocated. The authors construct a mathematical model of allocation of ministerial portfolios, formulated as a noncooperative game, and derive equilibria. They also derive a number of empirical hypotheses about outcomes of this game, which they then test with data drawn from most of the postwar European parliamentary democracies. The book concludes with a number of observations about departmentalistic tendencies and centripetal forces in parliamentary regimes.

The Hindu Diaspora Cambridge University Press

This fascinating and wide-ranging book charts developments in the teaching and study of handwriting over the course of the twentieth century. The book shows how changing educational policies, economic forces and inevitable technological advance have combined to alter the priorities and form of handwriting. This 'long and sometimes sorry story' tells also of the sheer pain and hard work of children forced to follow the style of the day, and of the reformers who have sought to simplify the teaching and learning of handwriting over the years. Illustrated throughout with examples from copybooks and personal handwriting from across the world, the book is a compelling historical record of techniques, styles and methods.

History of Vocational Education and Training in Europe Psychology Press

Our ancestors gathered around a fire in a circle, families gather around their kitchen tables in circles, and now we are gathering in circles as communities to solve problems. The practice draws on the ancient Native American tradition of a talking piece. Peacemaking Circles are used in neighborhoods to provide support for those harmed by crime and to decide sentences for those who commit crime, in schools to create positive classroom climates and resolve behavior problems, in the workplace to deal with conflict, and in social services to develop more organic support systems for people struggling to get their lives together. A title in The Little Books of Justice and Peacebuilding Series.

Transgender 101 Peter Lang Limited, International Academic Publishers

Providing a timely contribution to the ongoing questions surrounding topics which are by definition subject to varying stakeholder interpretations, this book addresses "the missing link" between theoretical CSR concepts and everyday management practice. It acts as a guide to awaken managers to the advantages of adopting a CSR "mindset" when developing sustainable business strategies. The book consists of three parts: 1) A theoretical realm which establishes the key concepts and rationale for the adoption of a sustainable CSR approach, 2) A practical realm which addresses putting CSR and sustainability into business practice, 3) An educational realm which proposes how to incorporate the concepts into teaching and training.

Hypothesis-Driven Simulation Studies Springer

In China, in the first centuries of the Common Era, prognostication was a widely used tool of political decision making, of cultural and ideological expression and, increasingly, also of popular resistance. The Scripture on Great Peace originated in this environment. It contains warnings of a universal cataclysm and suggests a radical social and religious reorientation as means of salvation. Thereby, it connects insights and ideas of the empire's academic establishment to experiences and concerns of the population at large. It belongs to the earliest textual sources for Daoism, that is, for China's indigenous religion that took shape when the imperial government and with it the empire fell apart in the second century CE. The present volume documents the Scripture's doctrinal and stylistic diversity. The selected materials stem from different parts of the long text. Some focus on eschatological scenarios, others, in contrast, on utopian hopes for the reform of humankind and its future under the auspices of "Great Peace". Still others design schemes for personal immortality. In this study, these materials are translated into a Western language for the first time. The translations are accompanied by extensive explanatory annotations.

Problems of Reflection in the System of Education Nardini

"Although there have been some discussions about 'diaspora' in the past, this has been more pronounced in the intellectual and public domain during the last decade of the 20th century. Why has 'diaspora' attracted such scholarly interest only recently? Who are the protagonists who have made important contributions to the field? This comprehensive collection of essays provides some answers by focusing on themes such as immigration, transnationalism, ethnicity, identity, religion, politics, citizenship, gender, sexuality, and hybridity which comprise the domain of diaspora studies. This book will be useful not only to sociologists but also to scholars working in the fields of social anthropology, political science, geography, history, philosophy, literary, cultural and ethnic studies."

Paket Pflege praktisch Thorndike Press Large Print

The international group of sociological and nutritional scientists in this volume represent the research that has been conducted on the social problematics of food and nutrition in such areas as food safety, biotechnology, food stamp programs, obesity, anorexia nervosa, and vegetarianism. The broad range of topics addressed and the case studies examined make this book suitable as a course-related text both in foodways and cultural aspects of nutrition and as a new departure in social problems courses.

Bestselling author and mortician Doughty answers real questions from kids about death, dead bodies, and decomposition.

Eating Agendas Routledge

Hinduism outside the Indian subcontinent represents a contrasting and scattered community. From Britain to the Caribbean, diasporic Hindus have substantially reformed their beliefs and practices in accordance with their historical and social circumstances. In this theoretically innovative analysis Steven Vertovec examines: * the historical construction of the category 'Hinduism in India' * the formation of a distinctive Caribbean Hindu culture during the nineteenth century * the role of youth groups in forging new identities during Trinidad's Hindu Renaissance * the reproduction of regionally

based identities and frictions in Britain's Hindu communities * the differences in temple use across the diaspora. This book provides a rich and fascinating view of the Hindu diaspora in the past, present and its possible futures.

Geopedology Stanford University Press

Are you going to be one of the hottest couples or singles who are making sexual fantasies come true. Are you looking for an endless supply of fantasy ideas. Are you looking for advice on ways to get a imaginative sex life that turns you both on. This Better Sex Journal Notebook has over 100 questions to inspire you towards that goal.To better understand and learn the incredible diversity of sexual desire, and why it exists in the first place! We could experience less anxiety and more orgasms! Better understand our partners, without shame.This Better Sex Journal Notebook will help readers to share their sex lives and to break down barriers by discussing sexual fantasies and intimacy allowing them to become a part of sexual realities.The Better Sex Journal Notebook is 8 and 1/2 by 11. The 108 pages are white, on top of the numbered and blank pages is a sexual inspired question to share with each other with plenty of space for notes, ideas or even sketches. If your goal is BETTER SEX, then a Better Sex Journal Notebook will inspire you to better sex in no time.

Sociology of Diaspora Simon and Schuster

In a world where web services can make real-time data accessible to anyone, how can the government leverage this openness to improve its operations and increase citizen participation and awareness? Through a collection of essays and case studies, leading visionaries and practitioners both inside and outside of government share their ideas on how to achieve and direct this emerging world of online collaboration, transparency, and participation. Contributions and topics include: Beth Simone Noveck, U.S. Deputy Chief Technology Officer for open government, "The Single Point of Failure" Jerry Brito, senior research fellow at the Mercatus Center at George Mason University, "All Your Data Are Belong to Us: Liberating Government Data" Aaron Swartz, cofounder of reddit.com, OpenLibrary.org, and BoldProgressives.org, "When Is Transparency Useful?" Ellen S. Miller, executive director of the Sunlight Foundation, "Disrupting Washington's Golden Rule" Carl Malamud, founder of Public.Resource.Org, "By the People" Douglas Schuler, president of the Public Sphere Project, "Online Deliberation and Civic Intelligence" Howard Dierking, program manager on Microsoft's MSDN and TechNet Web platform team, "Engineering Good Government" Matthew Burton, Web entrepreneur and former intelligence analyst at the Defense Intelligence Agency, "A Peace Corps for Programmers" Gary D. Bass and Sean Moulton, OMB Watch, "Bringing the Web 2.0 Revolution to Government" Tim O'Reilly, founder and CEO of O'Reilly Media, "Defining Government 2.0: Lessons Learned from the Success of Computer Platforms" Open Government editors: Daniel Lathrop is a former investigative projects reporter with the Seattle Post Intelligencer who's covered politics in Washington state, Iowa, Florida, and Washington D.C. He's a specialist in campaign finance and "computer-assisted reporting" -- the practice of using data analysis to report the news. Laurel Ruma is the Gov 2.0 Evangelist at O'Reilly Media. She is also co-chair for the Gov 2.0 Expo.

Positive Peer culture Sage Publications (CA)

Written by a social worker, popular educator, and member of the transgender community, this well-rounded resource combines an accessible portrait of transgenderism with a rich history of transgender life and its unique experiences of discrimination. Chapters introduce transgenderism and its psychological, physical, and social processes. They describe the coming out process and its effect on family and friends, the relationship between sexual orientation, and gender and the differences between transsexualism and lesser-known types of transgenderism. The volume covers the characteristics of Gender Identity Disorder/Gender Dysphoria and the development of the transgender movement. Each chapter explains how transgender individuals handle their gender identity, how others view it within the context of non-transgender society, and how the transitioning of genders is made possible. Featuring men who become women, women who become men, and those who live in between and beyond traditional classifications, this book is written for students, professionals, friends, and family members.

Democracy and Crisis Springer

This is the first book focused on providing Irish parents and early years, primary, post-primary and special school teachers with effective strategies for supporting children with autism spectrum difference. It rejects «disorder» in favour of «difference», emphasising the importance of a child-centred approach and the dangers of overgeneralising.

Grundbegriffe Der Soziologie APH Publishing

Upon its publication in 1962, this book became one of the founding texts of organizational sociology. Bringing together diverse approaches, it presented a new focus of interest: the formal organization. This reissue, which includes a new introduction by Scott, makes this seminal work accessible to a new generation of scholars and practitioners.

The Professionalization of Psychology in Nazi Germany Brepols Publishers

In light of the public and scholarly debates on the challenges and problems of established democracies, such as a lack of participation, declining confidence in political elites, and the deteriorating capabilities of democratic institutions, this volume discusses the question whether democracy as such is in crisis. On the basis of the shared concept of embedded democracy, it develops a range of conceptual approaches to empirically analyzing the challenges of democracy and their potential transformation into crisis phenomena. The book is divided into three parts, the first of which highlights various aspects of political participation, such as political inequality in voting. In turn, Part II focuses on problems of political representation, while Part III assesses whether processes such as globalization, deregulation, and the withdrawal of the state from important policy areas have limited the political control and legitimacy of democratically elected governments.

New Perspectives on Corporate Social Responsibility "O'Reilly Media, Inc."

Fabian Lorig develops a procedure model for hypothesis-driven simulation studies which supports the design, conducting, and analysis of simulation experiments. It is aimed at facilitating the execution of simulation studies with regard to the replicability and reproducibility of the results. In comparison to existing models, this approach is based on a formally specified hypothesis. Each step of the simulation study can be adapted to the central hypothesis and performed in such a way that it can optimally contribute to the verification and thus to the confirmation or rejection of the hypothesis.
