Ramona's World Random House

In this humorous and relatable novel from Newbery Medal-winning author Beverly Cleary, a girl must overcome her rebellious attitude toward learning cursive. At first, Maggie is just feeling stubborn when she declares she won't learn cursive. What's wrong with print, anyway? And she can easily type on a computer, so why would she need to know how to read those squiggly lines? But soon all her classmates are buzzing about Maggie's decision, especially after her teacher, Mrs. Leeper, says Maggie's cursive is so sloppy that her name looks like "Muggie." With "Muggie Maggie" ringing in her ears, Maggie absolutely, positively won't back down...until she's appointed class mail messenger. All the letters that Mrs. Leeper sends to the office are in cursive, and Maggie thinks they are written about her. But there's only way to know for sure...so what's Maggie going to do? For generations, Beverly Cleary has captivated readers of all ages with beloved characters

such as Ramona Quimby, Henry Huggins, Ribsy, and Ralph S. Mouse. Muggie Maggie follows suit with what School Library Journal calls "a likable, funny heroine whom readers will want to know." *Math & Stories* Teacher Created Resources

"After betraying her two best friends, eighteen-year-old Willa spends the week of her high school graduation going through a memory box commemorating important moments of the three girls' friendship in order to try to save it."--Provided by publisher.

Two Times the Fun Oxford University Press, USA

"The rousing notes of the bugle and the laughter and shouting increased the feeling of rebellion within Ralph. As the last strains of the bugle call hovered in the clear mountain air, Ralph made up his mind. He knew now what he was going to do. He was going to run away. Fed up with his timid mother and uncle and his squirmy little cousins, Ralph hops onto his toy motorcycle and zooms down the road to summer camp. It turns out camp is not all peanut butter and jelly sandwiches and fun. A strict watchdog, a mouse-hungry cat, and a troubled boy named Garf lead Ralph on some fur-raising escapades. Perhaps home isn't such a bad place to be, if only Ralph can find a

way to get there again.

The Hero and the Crown Harper Collins

Longlisted for the 2021 Porchlight Business Book Awards, Big Ideas & New Perspectives "She offers something both broad and scarce: a compelling new story about how to create a desirable future."—New York Times An award-winning author and leading international economist delivers a hard-hitting and much needed critique of modern capitalism in which she argues that, to solve the massive crises facing us, we must be innovative—we must use collaborative, mission-oriented thinking while also bringing a stakeholder view of public private partnerships which means not only taking risks together but also sharing the rewards. Capitalism is in crisis. The rich have gotten richer—the 1 percent, those with more than \$1 million, own 44 percent of the world's wealth—while climate change is transforming—and in some cases wiping out—life on the planet. We are plagued by crises threatening our lives, and this situation is unsustainable. But how do we fix these problems decades in the making? Mission Economy looks at the grand challenges facing us in a radically new way. Global warming, pollution, dementia, obesity, gun violence,

mobility—these environmental, health, and social dilemmas are huge, complex, and have no simple solutions. Mariana Mazzucato argues we need to think bigger and mobilize our resources in a way that is as bold as inspirational as the moon landing—this time to the most ‘wicked’ social problems of our time.. We can only begin to find answers if we fundamentally restructure capitalism to make it inclusive, sustainable, and driven by innovation that tackles concrete problems from the digital divide, to health pandemics, to our polluted cities. That means changing government tools and culture, creating new markers of corporate governance, and ensuring that corporations, society, and the government coalesce to share a common goal. We did it to go to the moon. We can do it again to fix our problems and improve the lives of every one of us. We simply can no longer afford not to.

Unusual Chickens for the Exceptional Poultry Farmer Aust Council for Ed Research

For the first time in a chapter-book format, Newbery Medal winner Beverly Cleary's twin characters, Jimmy and Janet, will charm young children with their humorous adventures. Jimmy

and Janet are twins, but that doesn't mean they are just alike. When we first meet Jimmy, he wants to dig a real hole. He likes to use a real, grown-up shovel. While he's working, his sister, Janet, pretends to be a bird! She likes to use her imagination. But the twins both like silly jokes, new boots, and talking to Mr. Lemon, the mailman. As Beverly Cleary writes about Jimmy and Janet's doings, the unique understanding of children that she brings to all of her beloved books is coupled with a keen awareness of duo dynamics that comes from raising twins herself. Originally published as four separate picture books (*The Real Hole*, *Two Dog Biscuits*, *The Growing-Up Feet*, and *Janet's Thingamajigs*), these are stories that a Jimmy would like because they are so true-to-life, and that a Janet would love because they are so believable.
