**Urban & Community Forestry** Committee

Serial No. 91-20. Reviews the problems of gas pipeline safety oversight according to provisions of the Natural Gas Pipeline Safety Act of 1968. Laws of the State of Utah "Native American cultures have flourished in the Four Corners region for thousands of years, from the early shamans, to the Anasazi, to historic tribes of today. Rock art images created by these cultures

are diverse, mysterious, and haunting. Utah may contain more world-class, prehistoric rock art than any other region in North America. Rock overhangs with ghostly, painted, shamanistic figures have become synonymous with Utah." "Dennis Slifer has done extensive field work to identify those sites suitable for public visitation. Complete with maps and directions, this book

describes more than fifty sites with public access in Utah, the Arizona strip, southern Nevada, and the western edge of Colorado. Richly illustrated with photographs and drawings, Guide to Rock Art of the Utah Region is a must for all rock art enthusiasts."--

*Special Report*  
 With the tremendous growth of population in this and neighboring states, there are more collectors than ever before and with the rapidly escalating prices for mineral and fossil specimens in the retail market, there is a great demand for displayable material. It has become necessary for professional geologists,

hobby collectors, and commercial collectors to recognize each others existence and to try to work together within a framework of regulation, courtesy, and common sense so that material of scientific value is not lost and undue restrictions are not placed upon collecting. There is a continuing need for collectors and professionals to work together with resource

managers and legislators to develop workable laws and rules affecting the collecting of minerals and fossils. This publication contains details information about collecting areas, divided by county to make for ease of use. Each collecting area contains information about the minerals, rocks, or fossils present, map

recommendations, and other helpful tips on getting to the sites.
