Rappresentare con verità storica, anche scomoda ai potenti di turno, la realtà contemporanea, rapportandola al passato e proiettandola al futuro. Per non reiterare vecchi errori. Perché la massa dimentica o non conosce. Denuncio i difetti e caldeggio i pregi italiani. Perché non abbiamo orgoglio e dignità per migliorarci e perché non sappiamo apprezzare, tutelare e promuovere quello che abbiamo ereditato dai nostri avi. Insomma, siamo bravi a farci del male e qualcuno deve pur essere diverso! In un mondo caposotto (sottosopra od alla rovescia) gli ultimi diventano i primi ed i primi sono gli ultimi. L'Italia è un Paese caposotto. Io, in questo mondo alla rovescia, sono l'ultimo e non subisco tacendo, per questo sono ignorato o perseguitato. I nostri destini in mano ai primi di un mondo sottosopra. Che cazzo di vita è? Dove si sentono alti anche i nani e dove anche i marescialli si sentono generali, non conta quanti passi fai e quali scarpe indossi, ma conta quante tracce lasci del tuo percorso. Il difetto degli intelligenti è che sono spinti a cercare le risposte ai loro dubbi. Il pregio degli ignoranti è che non hanno dubbi e qualora li avessero sono convinti di avere già le risposte. Un popolo di "coglioni" sarà sempre governato ed amministrato, informato ed istruito, giudicato da "coglioni".

Poetry. Translated from the French by Lee Fahnestock. First published in 1942 and considered the keystone of Francis Ponge's work, *Le parti pris de choses* appears here in its entirety. It reveals his preoccupation with nature and its metaphorical transformation through the creative ambiguity of language. "My immediate reaction to Lee Fahnestock's translation was: this must certainly be 'Ponge's voice in English'...[She] gives us his tones, rhythms, humor...[and] maneuvers his word play with respect and unostentatious discretion"--Barbara Wright, translator of Queneau, Pinget, Sarraute.

Carlo M. Martini was cardinal of the largest diocese in the world, a scholar, and one of the most renowned men of the church. Georg Sporschill has worked in prisons and lived with drug-addicted street children in Romania and Moldavia. The two Jesuits met in Jerusalem and became firends: two worlds, one faith--and a passionate search for ways in which the message of Jesus of Nazareth can

still be effective for tomorrow. In a series of conversations they ask what faith can mean for life, what future young people have in the church, and what must be changed so that Christianity itself has a future. The questions from young people are the catalyst for deep thought. Is the future only dark? Where are the rays of light on the horizon? What would Jesus say today?

Night Conversations with Cardinal Martini: The Relevance of the Church for Tomorrow Millbrook Press

The long-awaited new novel by America's master playwright and activist—a radical reimagining of our history and our hopes and fears Forty years in the making, *The American People* embodies Larry Kramer's vision of his beloved and accursed homeland. As the founder of ACT UP and the author of *Faggots* and *The Normal Heart*, Kramer has decisively affected American lives and letters. Here, as only he can, he tells the heartbreaking and heroic story of one nation under a plague, contaminated by greed, hate, and disease yet host to transcendent acts of courage and kindness. In this magisterial novel's sweeping first volume, which runs up to the 1950s, we meet prehistoric monkeys who spread a peculiar virus, a Native American shaman whose sexual explorations mutate into occult visions, and early English settlers who live as loving same-sex couples only to fall victim to the forces of bigotry. George Washington and Alexander Hamilton revel in unexpected intimacies, and John Wilkes Booth's motives for assassinating Abraham Lincoln are thoroughly revised. In the twentieth century, the nightmare of history deepens as a religious sect conspires with eugenicists, McCarthyites, and Ivy Leaguers to exterminate homosexuals, and the AIDS virus begins to spread. Against all this, Kramer sets the tender story of a middle-class family outside Washington, D.C., trying to get along in the darkest of times. *The American People* is a work of ribald satire, prophetic anger, and dazzling imagination. It is an encyclopedic indictment written with outrageous love.

Poetry. Translated from the Italian by Michael Palma. NO PART TO PLAY is a bilingual selection from eight collections of verse: *Il disperso / The Missing* (1976), *Le meraviglie dell'acqua / The Wonders of Water* (1980), *Glenn* (1982), *Donna del gioco / Mistress of the Game* (1987), *Poesia della fonte / Poetry of the Source* (1993), *L'ultimo viaggio di Glenn / Glenn's Last Journey* (1999), *Per un secondo o un secolo / By a Second or a Century* (2003) and *Vite pulvicolari / Dusty Lives* (2009). "Cucchi's poetry is notable for its even tone, its avoidance of stylistic excess and rhetorical extravagance... His preference is to let descriptions, and their juxtapositions, speak for themselves, without preaching or hectoring, without pointing a moral or adorning a tale. Like Eliot's *The Waste Land*, Cucchi's work includes such characteristics as historical references, literary allusions and quotations, and the intermingling of these elements with disturbing personal experiences. Another central point of contact is each poet's procedure through an accretion of fragments, creating a kaleidoscope of scenes and incidents and a medley of shifting voices." from the Introduction by translator Michael Palma "Cucchi's poetry posed and poses the problem of the friction between autobiography and impersonality, between concealment and exposure, between lyrical writing and narrative modes, between realism and oneiric vision, between a renunciative and nihilistic inclination and a positive and ethical vocation, between, better still, a private and solitary numbness and an epical determination for ordinary life." Children today are growing up in an increasingly commercialised world. But should we see them as victims of manipulative marketing, or as competent participants in consumer culture? *The Material Child* provides a comprehensive critical overview of debates about children's changing engagement with the commercial market. It moves from broad overviews of the theory and history of children's

consumption to insightful case studies of key areas such as obesity, sexualisation, children's broadcasting and education. In the process, it challenges much of the received wisdom about the effects of advertising and marketing, arguing for a more balanced account that locates children's consumption within a broader analysis of social relationships, for example within the family and the peer group. While refuting the popular view of children as incompetent and vulnerable consumers that is adopted by many campaigners, it also rejects the easy celebration of consumption as an expression of children's power and autonomy. Written by one of the leading international scholars in the field, *The Material Child* will be of interest to students, researchers and policy-makers, as well as parents, teachers and others who work directly with children.

Leonardo Bruni (1370-1444) is widely recognized as the most important humanist historian of the early Renaissance. But why this recognition came about and what it has meant for the field of historiography has long been a matter of confusion and controversy. Writing *History in Renaissance Italy* offers a fresh approach to the subject by undertaking a systematic, work-by-work investigation that encompasses for the first time the full range of Bruni's output in history and biography. The study is the first to assess in detail the impact of the classical Greek historians on the development of humanist methods of historical writing. It highlights in particular the importance of Thucydides and Polybius. Bruni was among the first in the West to read, and whose analytical approach to politics led him in new directions. Yet the revolution in history that unfolds across the four decades covered in this study is no mere revival of classical models: Lanzani constantly monitors Bruni's position within the shifting hierarchies of power in Florence, drawing connections between his various historical works and the political uses they were meant to serve. The result is a clearer picture of what Bruni hoped to achieve, and a more precise analysis of the dynamics driving his new approach to the past. Bruni himself emerges as a protagonist of the first order, a figure whose location at the center of power was a decisive factor shaping his innovations in historical writing.

Translated by John Shepley 2,000 Italian partisans took the city of Alba on 10/10/44, and 200 lost it to the Fascists on 2/11/44. Among the bedraggled fighters in this historic siege was Beppe Fenoglio, who later made his writing debut with this collection of stories based on his experiences in the Italian resistance movement. Marking the 50th anniversary of the book's original publication, this translation celebrates Fenoglio's direct and intimate portrait of soldiers who bumbled their way into playing a crucial role in the Allied victory of WWII.

Is the internet really transforming children and young people's lives? Is the so-called 'digital generation' genuinely benefiting from exciting new opportunities? And, worryingly, facing new risks? This major new book by a leading researcher addresses these pressing questions. It deliberately avoids a techno-celebratory approach and, instead, interprets children's everyday practices of internet use in relation to the complex and changing historical and cultural conditions of childhood in late modernity. Uniquely, *Children and the Internet* reveals the complex dynamic between online opportunities and online risks, exploring this in relation to much debated issues such as: Digital in/exclusion Learning and literacy Peer networking and privacy Civic participation Risk and harm Drawing on current theories of identity, development, education and participation, this book includes a refreshingly critical account of the challenging realities undermining the great expectations held out for the internet - from governments, teachers, parents and children themselves. It concludes with a forward-looking framework for policy and regulation designed to advance children's rights to expression, connection and play online as well as offline.
