*Right Down Your Alley* Brooks Cole

"Why did I leave the 10-pin on that shot?" "Why isn't my ball hitting the pocket anymore?" "Should I change balls, or move?" "How heavy should my ball be?" "What's the best bowling ball?" "How do I get more hook?" "Why do I keep missing my spares?" Bowlers are faced with endless questions, problems, and choices every time we bowl.

Answers and solutions abound, but a great many of them are ineffective or just plain wrong. How do we know what to do? How do we know what to believe? In this book we examine: What doesn't work, and what bowlers have wrong. What's really happening on the lanes,

and how things really work. What you need to change to get back to striking. How to properly make that change. We teach you how to figure out exactly what's wrong with your shot. We show you all of the adjustments available to you, teach you what each one actually does, and show you how and when to apply it. We give you strategies that will improve your lane play and your decision making. Finally, we teach you a mathematically sound spare system that will simplify your game and make picking up your spares an easy proposition. We give you all of the knowledge and tools you need to take your game to the next level and become the bowler you want to be.
