Decisions of the Commissioner of Patents Bantam

The Emmy-winning CBS Sunday Morning correspondent chronicles his year traveling to every one of our National Parks, discovering the most beautiful places and most interesting people that America has to offer. When Conor Knighton decided to spend a year wandering through America's "best idea," he was worried the whole thing might end up being his worst idea. But after a broken engagement and a broken heart, Conor desperately needed a change of scenery. The ambitious plan he cooked up went a bit overboard in that department; Knighton set out to visit every single one of America's National Parks, from Acadia to Zion. Leave Only Footprints is the memoir of his year spent traveling across the United States, a journey that yielded his "On the Trail" series, which quickly became one of CBS Sunday Morning's most beloved segments. In this smart, informative, and entertaining book, he shares how his journey through these natural wonders

ended up changing his worldview on everything from God and love to politics and technology.

Whether he's waking up early for a naked scrub in a historic bathhouse or staying up late to stargaze along our loneliest highway, Knighton goes behind the scenery to provide an unfiltered look at our country. In doing so, he reveals the unforgettable stories behind the often beautiful, always fascinating lands that all Americans share.

A humorous and rousing set of literal and figurative sojourns as well as a mission statement about comprehending, protecting, and truly experiencing the outdoors, fueled by three journeys undertaken by actor, humorist, and New York Times bestselling author Nick Offerman Nick Offerman has always felt a particular affection for the Land of the Free—not just for the people and their purported ideals but to the actual land itself: the bedrock, the topsoil, and everything in between that generates the health of your local watershed. In his new book, Nick takes a humorous, inspiring, and elucidating trip to America's trails, farms, and frontier to examine the people who inhabit the land, what that has meant to them and us, and to the land itself, both historically and currently. In 2018, Wendell Berry posed a question to Nick, a query that planted the seed of this book, sending Nick on two memorable journeys with pals—a hiking trip to Glacier

National Park with his friends Jeff Tweedy and George Saunders, as well as an extended visit to his friend James Rebanks, the author of *The Shepherd's Life* and *English Pastoral*. He followed that up with an excursion that could only have come about in 2020—Nick and his wife, Megan Mullally, bought an Airstream trailer to drive across (several of) the United States. These three quests inspired some “deep-ish” thinking from Nick, about the history and philosophy of our relationship with nature in our national parks, in our farming, and in our backyards; what we mean when we talk about conservation; and the importance of outdoor recreation, all subjects very close to Nick's heart. With witty, heartwarming stories and a keen insight into the human problems we all confront, this is both a ramble through and celebration of the land we all love.

220 pages with 53 total maps Locating original landowners in maps has never been an easy task- until now. This volume in the Family Maps series contains newly created maps of original

landowners (patent maps) in what is now Wyandot County, Ohio, gleaned from the indexes of the U.S. Bureau of Land Management. But it offers much more than that. For each township in the county, there are two additional maps accompanying the patent map: a road map and a map showing waterways, railroads, and both modern and many historical city-centers and cemeteries. Included are indexes to help you locate what you are looking for, whether you know a person's name, a last name, a place-name, or a cemetery. The combination of maps and indexes are designed to aid researchers of American history or genealogy to explore frontier neighborhoods, examine family migrations, locate hard-to-find cemeteries and towns, as well as locate land based on legal descriptions found in old documents or deeds. The patent-maps are essentially plat maps but instead of depicting owners for a particular year, these maps show original landowners, no matter when the transfer from the federal government was completed. Dates of patents typically begin near the time of statehood and run into the early 1900s. What's Mapped in this book (that you'll not likely find elsewhere) . . . 3601 Parcels of Land (with original landowner names and patent-dates labeled in the relevant map) 91 Cemeteries plus . . . New York Times bestselling author Luanne Rice explores the complex emotional equations of love and loyalty that hold together three pairs of remarkable sisters, in an unforgettable story of loss, redemption, and forgiveness The storm off Mackinac Island that engulfed Maura Shaw's husband and elder daughter, Carrie, also swept away the illusion of her life as the perfect midwestern wife and mother. Newport has never failed to infuse Maura with a sense of mystery and hope, but ever since the accident, her younger daughter, fourteen-year-old Beck, has retreated into the safe, predictable world of mathematics. Without Carrie, Beck has lost half of herself—the half that would have fit into the elite private school she and her brother, Travis, will attend. The half that made things right. Sixteen-year-old Travis is also struggling to adjust—juggling a long-distance first love and an attraction to a girl with a wicked sparkle in her eye. And for Maura, ghosts linger here—an unresolved breach with her own beloved sister and a long-ago secret that may now have the power to set her free. . . .

The Immortal Nicholas Spiegel & Grau

This important contribution about ancient coins in India has been written jointly by Osmund Boparachchi and Wilfried Pieper. It is an impressive volume of 289 pages with 59 plates which presents a private collection of ancient coins patiently gathered through the years. In Part one, W.Pieper develops a historical commentary about the earliest coinages of India, the imperial period

of late Magadha and Maurya rule (ca late IVth-early IIInd centuries B.C.), Ujjain and Eran, the Satavahanas (ca 1st century B.C.-early IIInd century A.D.), and tribal republics and kingdoms in post-Mauryan northern India (ca 200 B.C-ca 300 A.D.). This commentary is followed by a detailed catalogue with very precise drawings of more than 600 coins and punch-marked coins. Part two by o. Bopearachhi is organized on the same pattern: a historical commentary about foreign powers in

ancient northern India, from the Bactrian Greeks until the time of the early Kushans followed by a precise catalogue presenting Greek, Graeco-Bactrian and Indo-Greek, Indo-Scythian, Indo-Parthian, and early Kushan coins (in fact, more than 300 specimens). The commentary intends to give a general overview of the coins concerned and of their historical context with a more extensive discussion of the series best represented in the collection. For the indigenous Indian coins this is

specially true for the coinages of Ujjain, Eran, Taxila and Kausambi, many of which are new and published here for the first time.
