CABRERA POWELL

JFK and LBJ Washington : Brookings Institution

The recent commemoration of the fiftieth anniversary of John F. Kennedy's election as the thirty-fifth president of the United States serves as a reminder of a period of time that many Americans perceive as idyllic. Just as his election, despite a near-run thing, had instilled a pervasive sense of hope throughout the country, his assassination stunned the entire nation, scarring the psyche of a generation of Americans. More than half a century later, JFK continues to inspire debates about the effectiveness of the presidency, as well as his own political legacy, making the senator from Massachusetts the object of many enduring myths: that he would have been one of the country's greatest leaders had he lived, he would have kept the US out of a full-fledged Vietnam war, and that he was a martyr of right-wing assassins. His successor, Lyndon B. Johnson, who did get the US deeply involved in Vietnam while pursuing the social reforms of the Great Society at home and abroad, also casts a long shadow in the twenty-first century, as the nation continues to deal with poverty, racism, and social injustice. This second edition of Historical Dictionary of the Kennedy-Johnson Era covers its history through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries on important personalities, including the president, his advisors, his family, his opponents, and his critics, as well as members of Congress, military leaders, and international leaders. This

book is an excellent access point for students, researchers, and anyone wanting to know more about John F. Kennedy.

Waging Peace and War Harvard University Press

Sundquist clearly and engagingly traces the development of many programs in what would become Johnson's Great Society as they developed over three presidential administrations. Education reform, poverty, the environment, social services and more are shown rising from America's post-war boom but taking years, and often much effort, to come into being. This history is more complete than even many individual accounts of given programs as it examines presidential influence, public opinion, changes in Congress, the rise and fall of interest groups, and how each can lead or be led by the others.

The Passage of Power Simon and Schuster

A re-creation of the deliberations, actions, and deceptions that brought two decades of post-World War II confidence to an end, this book offers an insight into the Vietnam War at home and abroad - and into American foreign policy in the 1960s.

The Johnson Years Indiana University Press

The presidency of John F. Kennedy continues to fascinate, even as it also continues to inspire heated debates between admirers and detractors of Camelot's fallen king. Now readers can gain a new appreciation of JFK in this thoroughly revised and updated edition of James Giglio's bestselling study, widely acclaimed as the best and most balanced book on JFK's White House years. Giglio incorporates the voluminous archival materials made available in the last fifteen years,

including the declassified documents on crucial foreign policy affairs and White House medical records that contradict the image of Kennedy's youth and vigor. He stresses the extent to which domestic and foreign policies were interconnected at a time when the Cold War dominated national life and reveals his new appreciation for JFK's prudence in his handling of such enormous challenges as the Cuban missile crisis and the emerging war in Vietnam. Giglio shows Kennedy to be "the most medicated, one of the most courageous, and perhaps the most self-absorbed of our presidents." He reviews the physical ailments and heavy prescriptions that were kept out of the public eye and catalogs sexual indiscretions ranging from Marilyn Monroe and socialite Florence Pritchett to low-level White House employees and even virtual strangers. Surveying this field of conquest, Giglio suggests that JFK's sexual obsession could easily have affected his presidency even more during a second term. His work also amplifies coverage of key issues like civil rights, the Cuban missile crisis, and Vietnam and reevaluates many of the questions surrounding the assassination—maintaining that, even with the existence of a conspiracy still doubtful, the case is far from closed. Like the first edition, this new edition provides a sharp and thoughtful analysis of both domestic and foreign affairs and underscores that, despite his undeniably brief tenure in office, the state of the nation actually did improve on Kennedy's watch. Featuring an expanded bibliographical essay and twenty-two photos from the JFK library, *The Presidency of John F. Kennedy* remains the definitive appraisal of Camelot's kingdom.

Women, Work, and National Policy UNM Press

To mark the twenty-fifth anniversary of the inauguration of President Lyndon Johnson, a joint symposium held in Washington, D.C., and Austin, Texas, brought together seventy scholars, journalists, former government officials, and private persons whose lives have been touched by the body of legislation called the Great Society. In this publication of the proceedings, the panelists address such questions as, What was the country like before the Great Society? How did the President and his staff make it happen? How did it change American society? Would a successor program be possible today? The symposium also searches for Lyndon Johnson, the man and the president. By each contributing piece to the mosaic, the friends who were close to him, the associates who knew and worked with him, and the journalists who covered him create a picture of President Johnson that does justice to the many facets of a most complex and elusive individual.-- Cover

Three Years of Progress Brandywine Press

Using the Kennedy and Johnson archives to analyze the evolution of educational policy from the perspective of the executive branch, Graham finds that the central theme was executive planning through presidential task forces. Mission agencies, clientele gr

Federal Indian Policy in the Kennedy and Johnson Administrations, 1961-1969 Infobase Publishing

In 1948, Lyndon Johnson, John Kennedy, and Richard Nixon were up-and-coming congressmen, all at pivotal points in their lives. In each of these ambitious politicians, Lance Morrow finds a streak of amorality and ruthlessness--each

believed that the rules didn't apply to him. For each, lies of one kind or another would be a conduit to power; lies would also undo LBJ and Nixon's presidencies, and tarnish JFK's reputation.

The Kennedy Assassination--24

Hours After W. W. Norton

The only man yet to reveal his part in the decisions made regarding U.S. involvement in Vietnam is interviewed. Thomas Schoenbaum writes a biography destined to receive international attention, a volume that is as close as America will ever come to Rusk's own story.

Historical Dictionary of the Kennedy-Johnson Era [Austin] : Lyndon B. Johnson School of Public Affairs, University of Texas at Austin

"A deeply illuminating, journalistic romp through Camelot from the eyes and minds of the great New York Times reporters of that era and beyond."
—Douglas Brinkley, #1 New York Times–bestselling author
Decades after the assassination of John F. Kennedy, he still ranks as one of the top five presidents in every major annual survey. To commemorate the man and his time in office, the New York Times has authorized a book, edited by Richard Reeves, based on its unsurpassed coverage of the tumultuous Kennedy era. The Civil Rights Movement, the Bay of Pigs, the Cuban Missile Crisis, Vietnam, the space program, the Berlin Wall—all are covered in articles by the era's top reporters, among them David Halberstam, Russell Baker, and James Reston. Also included are new essays by leading historians such as Robert Dallek and Terry Golway, and by Times journalists, including Sam Tanenhaus, Scott Shane, Alessandra Stanley, and Roger Cohen. With more than 125 color and black-and-white photos, this is the

ultimate volume on one of history's most fascinating figures. "This book is both fascinating and poignant. It brings us back into the Kennedy years while also allowing us to reflect on what made them so emotional. I found myself totally immersed." —Walter Isaacson, #1 New York Times–bestselling author
"Provides much more than a riveting first draft of history. Here we also witness the birth of modern America." —Cokie Roberts, former political commentator and #1 New York Times–bestselling author
"A terrific introduction to the Kennedy presidency for those who did not live through it, and a startling reminder for those who did of how much happened in those 1,000 days." —David Nasaw, New York Times–bestselling author
Exploring the Johnson Years Vintage Set in the 1960s.

The Best Year of Their Lives Basic Books
William Manchester's epic and definitive account of President John F. Kennedy's assassination—now restored to print in a new paperback edition. As the world still reeled from the tragic and historic events of November 22, 1963, William Manchester set out, at the request of the Kennedy family, to create a detailed, authoritative record of the days immediately preceding and following President John F. Kennedy's death. Through hundreds of interviews, abundant travel and firsthand observation, and with unique access to the proceedings of the Warren Commission, Manchester conducted an exhaustive historical investigation, accumulating forty-five volumes of documents, exhibits, and transcribed tapes. His ultimate objective -- to set down as a whole the national and personal tragedy that was JFK's assassination -- is brilliantly achieved in this galvanizing narrative, a book

universally acclaimed as a landmark work of modern history.

Toward New Human Rights Lyndon Baines Johnson Foundation

Now, thirty years later, the Republican Congress is reconsidering those Great Society programs, arguing that they have grown to consume the national budget and reshape, to our detriment, social policy. An epic exploration of people and politics in an age of unrest, *The Best of Intentions* is the first comprehensive history of a legislative program that continues to dominate today's political scene.

From Truman Through Johnson Belknap Press

In 1948, John Kennedy, Lyndon Johnson, and Richard Nixon were all ambitious young congressmen at pivotal points in their lives. LBJ was in a desperate Senate race, running against a more popular candidate. Campaigning frantically by helicopter across Texas, LBJ won only with the help of corrupt political bosses, whose illegal ballot-stuffing put "Landslide Lyndon" into the Senate by 87 votes. At the same time, Nixon was having his first meetings with Whittaker Chambers, the witness in the Alger Hiss trial that would make Nixon a national figure and lead to his selection as Eisenhower's running mate four years later. And Kennedy was still recovering from the near-fatal attack of Addison's disease he had suffered the previous year. From that point on, he would conceal the truth about his health, just as he concealed his reckless personal life. In all three politicians, Morrow finds a streak of amorality and ruthlessness—each believed that the rules didn't apply to him. Lies of one kind or another—lies they told or exposed—would propel each of them to power; lies would also undo LBJ and Nixon's presidencies and,

ultimately, tarnish JFK's reputation. Morrow also tells the story of America in 1948, when it, too, was learning the secrets of power, and coming to grips with the vast changes of the postwar world. For readers of Robert Caro and Robert Dallek, *The Best Year of Their Lives* offers a fresh look at a crucial turning point in the lives of three presidents, by one of America's most observant and thoughtful journalists.

The Best of Intentions Simon and Schuster

An A-to-Z reference guide to the people, places, policies, and events significant during the presidency of John F. Kennedy.

The Uncertain Triumph Cambridge University Press

Riding in an open-topped convertible through Dallas on November 22, 1963, Lyndon B. Johnson heard a sudden explosive sound at 12:30 PM. The Secret Service sped him away to safety, but not until 1:20 PM did he learn that John F. Kennedy had been assassinated. Sworn in next to a bloodstained Jackie Kennedy at 2:40 PM, Johnson worked feverishly until 3:00 in the morning, agonizing about the future of both his nation and his party. Unbeknownst to him, his actions had already determined the tragic outcome of his presidency. In November 22, 1963, historian Steven Gillon tells the story of how Johnson consolidated power in the twenty-four hours following the assassination. Based on scrupulous research and new archival sources, this gripping narrative sheds new and surprising light on one of the most written-about events of the twentieth century.

Kennedy, Johnson, and the Nonaligned World Simon & Schuster

Originally published in hardcover in 2016 by Gallery Books.

Brothers Univ of North Carolina Press
 Transcripts of recorded White House conversations on Civil Rights during the Kennedy and Johnson presidencies.

The Transformation of Federal Education Policy Brookings Institution Press
 In 1961, President John F. Kennedy initiated a bold new policy of engaging states that had chosen to remain nonaligned in the Cold War. In a narrative ranging from the White House to the western coast of Africa and the shores of New Guinea, Robert B. Rakove examines the brief but eventful life of this policy during the presidencies of Kennedy and his successor, Lyndon Baines Johnson. Engagement initially met with real success, but it faltered in the face of serious obstacles, including colonial and regional conflicts, disputes over foreign aid and the Vietnam War. Its failure paved the way for a lasting hostility between the United States and much of the nonaligned world, with

consequences extending to the present. This book offers a sweeping account of a critical period in the relationship between the United States and the Third World.

Politics and Policy Abrams

Discusses the decade of the Sixties in America, the administrations of two Democratic Presidents, Kennedy and Johnson, and the war in Vietnam.

The Death of a President W. W. Norton & Company

This era witnessed some of the most frustrating moments of Johnson's career, but also some of the most triumphant. His battle with the Kennedy brothers over the 1960 Democratic nomination for president was a bitter one, and the ensuing years of Johnson's vice-presidency were marked with humiliation. But, thrust into power following the assassination of J. F. Kennedy, Johnson grasped the presidential role with unprecedented skill.
