[The Essential UN.](#) Martinus Nijhoff Publishers

This open access book presents a discussion on human rights-based attributes for each article pertinent to the substantive rights of children, as defined in the United Nations Convention on the Rights of the Child (UNCRC). It provides the reader with a unique and clear overview of the scope and core content of the articles, together with an analysis of the latest jurisprudence of the UN Committee on the Rights of the Child. For each article of the UNCRC, the authors explore the nature and scope of corresponding State obligations, and identify the main features that need to be taken into consideration when assessing a State's progressive implementation of the UNCRC. This analysis considers which aspects of a given right are most important to track, in order to monitor States' implementation of any given right, and whether there is any resultant change in the lives of children. This approach transforms the narrative of legal international standards

concerning a given right into a set of characteristics that ensure no aspect of said right is overlooked. The book develops a clear and comprehensive understanding of the UNCRC that can be used as an introduction to the rights and principles it contains, and to identify directions for future policy and strategy development in compliance with the UNCRC. As such, it offers an invaluable reference guide for researchers and students in the field of childhood and children's rights studies, as well as a wide range of professionals and organisations concerned with the subject.

The United Nations Convention Against Torture Springer

"Everything you always wanted to know about the United Nations in one book! This primer to the United Nations is designed for all global citizens. It covers the history of the UN, what it does and how it does it. As the world's only truly global organization, the United Nations is where countries meet to address universal issues that cannot be resolved by any one of them acting alone. From international peace and security to sustainable development, climate change, human rights, and humanitarian action, the United Nations acts on our behalf around the world." --

The UN Convention on the Elimination of All Forms of Racial Discrimination Martinus Nijhoff Publishers

This volume constitutes a commentary on Article 34 of the United Nations Convention on the Rights of the Child. It is part of the series, "A Commentary on the United Nations Convention on the Rights of the Child," which provides an article by article analysis of all substantive, organizational and procedural provisions of the CRC and its two Optional Protocols. For every article, a comparison with related human rights provisions is made, followed by an in-depth exploration of

the nature and scope of State obligations deriving from that article. The series constitutes an essential tool for actors in the field of children's rights, including academics, students, judges, grassroots workers, governmental, non-governmental and international officers. The series is sponsored by the "Belgian Federal Science Policy Office,"

The UN Convention on the Rights of the Child Martinus Nijhoff Publishers

This Commentary provides the first comprehensive legal article-by-article analysis of the provisions of the Convention on the Rights of Persons with Disabilities (CRPD). The Convention is the key international human rights instrument exclusively devoted to persons with disabilities and the centerpiece of international efforts to address inequalities and barriers they encounter to the full enjoyment of human rights. The book discusses the Convention's position within existing international human rights law and within the framework of the United Nations measures to protect the rights of people with disabilities. Starting with the background of all the Convention's articles, including the travaux préparatoires, this Commentary examines each provision's substance and interpretation, and explores the significance of each right, its legal scope and relationship with other international legal norms and principles. A unique contribution also analyzes the Optional Protocol to the Convention. In addition to enriching academic studies of international human rights law, the book provides insights into the practical operation of the Convention's provisions by assessing the practice of the CRPD Committee, the activities of relevant international and regional human rights bodies in enforcing the rights of persons with disabilities and the contracting parties' implementation practices. Relevant European Court of Human Rights, the Court of Justice of the European Union and, if appropriate, other regional jurisdictions' case law, as well as the jurisprudence of domestic courts, are taken into consideration. Contributions from leading scholars and international experts make this book an indispensable resource for lawyers, academics, students, journalists, international organizations, NGOs and other stakeholders wanting to better understand the rights of people with disabilities. Furthermore, it makes a valuable contribution to appraising the impact of the Convention in the legal orders of contracting parties and to charting the way forward in the protection of the rights of persons with disabilities.

The United Nations Convention on the Rights of the Child: An Analysis of Treaty Provisions and Implications of U.S. Ratification Cambridge University Press

This second edition of State of Implementation of the United Nations Convention against Corruption: Criminalization, Law Enforcement and International Cooperation, which was launched during the 7th session of the Conference of the States Parties (Vienna, 6-10 November 2017).The

study is based on the findings and results emanating from the first cycle reviews of the implementation of the Convention by 156 States parties (2010-2015). It contains a comprehensive analysis of the implementation of chapters III (Criminalization and law enforcement) and IV (International cooperation) of the Convention. More specifically, the study: (a) identifies and describes trends and patterns in the implementation of the above-mentioned chapters, focusing on systematic or, where possible, regional commonalities and variations; (b) highlights successes and good practices on the one hand, and challenges in implementation on the other; (c) provides an overview of the emerging understanding of the Convention and differences in the reviews, where they have been encountered.

The United Nations Convention on the Law of the Sea, Part XI Regime and the International Seabed Authority Martinus Nijhoff Publishers

The United Nations Convention on the Rights of the Child is the most extensive and widely ratified international human rights treaty. This Commentary offers a comprehensive analysis of each of the substantive provisions in the Convention and its Optional Protocols on Children and Armed Conflict, and the Sale of Children, Child Prostitution and Pornography. It provides a detailed insight into the drafting history of these instruments, the scope and nature of the rights accorded to children, and the obligations imposed on states to secure the implementation of these rights. In doing so, it draws on the work of the Committee on the Rights of the Child, international, regional, and domestic courts, academic and interdisciplinary scholarly analyses. It is of relevance to anyone working on matters affecting children including government officials, policy makers, judicial officers, lawyers, educators, social workers, health professionals, academics, aid and humanitarian workers, and members of civil society.

[Incorporating Un Convention on Rights](#) United Nations Publications

This in-depth text goes beyond the rhetoric of the debate on children's rights and the Convention on the Rights of the Child, in particular, to provide a detailed examination of the impact that U.S. ratification of the Convention would have on U.S. law. The chapters have been written by leading children's advocates and scholars with a general audience in mind, as the authors believe that it is important for all Americans to become informed about the Convention and about children's rights in general. With a greater understanding of the substance of the Convention and children's rights, readers will be better positioned to determine what the real issues are, what is simply rhetoric without any basis in fact or law, and how they can address the real issues in an effective manner in order to provide a better world for all children.

"This commentary examines the UN Convention on the Rights of the Child and its 3 additional protocols by providing a detailed commentary on each of its articles. It pays particular attention to the General Comments, the Concluding Observations and the views of the UN Committee on the Rights of the Child. The strengthening of children's rights through the UN Convention and its 3 protocols influences general human rights protection at a universal and regional level. The provisions of the UN Convention also impact the national legal system, making this book required reading for international human rights lawyers."--

The UN Convention on Migrant Workers' Rights is the most comprehensive international treaty in the field of migration and human rights. Adopted in 1990 and entered into force in 2003, it sets a standard in terms of access to human rights for migrants. However, it suffers from a marked indifference: only forty states have ratified it and no major immigration country has done so. This highlights how migrants remain forgotten in terms of access to rights. Even though their labour is essential in the world economy, the non-economic aspect of migration – and especially migrants' rights – remain a neglected dimension of globalisation. This volume provides in-depth information on the Convention and on the reasons behind states' reluctance towards its ratification. It brings together researchers, international civil servants and NGO members and relies upon an interdisciplinary perspective that includes not only law, but also sociology and political science. [Implementing Article 3 of the United Nations Convention on the Rights of the Child](#) University of Toronto Press

The universal feeling that discrimination and intolerance based on race, religion or beliefs have to be confronted by the international community led to the adoption, half a century ago, of the international convention to which this book is devoted, one of the most ratified treaties. The book comments on the contents of the Convention and its impact on anti-racist and anti-bias legislation and jurisprudence, as well as its influence on, and applicability to other international texts. In an Introduction to this reprint, the author updates the status of the Convention, summarizes the work of CERD, the implementation body of the Convention, and discusses its relevance to general human rights, particularly the area of religious intolerance, and some difficult issues such as the possible clash with other fundamental freedoms.
