A tour de force." -Eve Ensler "Terrifying, courageous reportage from our internal war zone." -Andrew Solomon "Extraordinary." -New York Times, "Editors' Choice" "Gut-wrenching, required reading." -Esquire "Compulsively readable . . . It will save lives." -Washington Post "Essential, devastating reading." -Cheryl Strayed, New York Times Book Review An award-winning journalist's intimate investigation of the true scope of domestic violence, revealing how the roots of America's most pressing social crises are buried in abuse that happens behind closed doors. We call it domestic violence. We call it private violence. Sometimes we call it intimate terrorism. But whatever we call it, we generally do not believe it has anything at all to do with us, despite the World Health Organization deeming it a "global epidemic." In America, domestic violence accounts for 15 percent of all violent crime, and yet it remains locked in silence, even as its tendrils reach unseen into so many of our most pressing national issues, from our economy to our education system, from mass shootings to mass incarceration to #MeToo. We still have not taken the true measure of this problem. In *No Visible Bruises*, journalist Rachel Louise Snyder gives context for what we don't know we're seeing. She frames this urgent and immersive account of the scale of domestic violence in our country around key stories that explode the common myths-that if things were bad enough, victims would just leave; that a violent person cannot become nonviolent; that shelter is an adequate response; and most insidiously that violence inside the home is a private

matter, sealed from the public sphere and disconnected from other forms of violence. Through the stories of victims, perpetrators, law enforcement, and reform movements from across the country, Snyder explores the real roots of private violence, its far-reaching consequences for society, and what it will take to truly address it.

This is the only book on the market today that focuses on the entire spectrum of emotional, verbal, sexual, and physical abuse. Written by University of Utah Clinical Associate Professor Elaine Weiss, a survivor, the book goes right to the heart of the reader and changes their perspective on this topic. She paints a clear picture of women who stay in a marriage because of their fierce loyalty and commitment to the sanctity of marriage. Elaine emphasizes the period of time after women leave their abuser and describes in detail what they go on to do with their lives. These are stories of twelve women from various walks of life, including professionals. Each a victim of domestic violence. Each escaped from her abuser. Each reclaimed her dignity, reconstructed her life, rediscovered peace. Every woman who has left an abuser every woman who has yet to leave will find encouragement and support in the voices of these women who broke free.

"Propulsive . . . Good books sometimes cut to the bone, and this one feels like a scythe." —The New York Times Book Review "This wise, brilliant novel is so special, so overflowing with honesty and love—about motherhood, sisterhood, what it's like to be a woman—that every paragraph feels like an epiphany. Hanna Halperin knows the fierce love that can exist especially among broken things. *Something Wild* moved me deeply." —Glennon Doyle, #1 New York Times bestselling author of *Untamed* A searing novel about the love and contradictions of sisterhood, the intoxicating desires of adolescence, and the traumas that trap mothers and daughters in cycles of violence One weekend, sisters Tanya and Nessa Bloom pause their respective adult lives and travel to the Boston suburbs to help their mother pack up and move out of their childhood home. For the first time since they were

teenagers sharing a bunk bed over a decade ago, they find themselves in the place where long-kept secrets were born, where jealousy, comfort, anger, forgiveness, and repulsion coexist with the fiercest love and loyalty. What they don't expect is for their visit to expose a new, horrifying truth: their mother, Lorraine, is in a violent relationship. As Tanya urges Lorraine to get a restraining order, Nessa struggles to reconcile her fondness for their stepfather with his capacity for brutality. Their differing responses to the abuse bring up the sisters' shared secret—a traumatic, unspoken experience from their adolescence has shaped their lives, their sense of selves, and their relationship with each other and the men in their life. In the midst of this family crisis, they have no choice but to reckon with the past and face each other in the present, in the hope that there's a way out of the violence so deeply ingrained in the Bloom family. Told in alternating perspectives that deftly interweave past and present, *Something Wild* is a magnetic, unflinching portrait of the bond between sisters, as well as a psychologically acute exploration of the legacy of divorce, the ways trauma reverberates over generations, and how it might be possible to overcome the past.

Why did she stay with Mike if he was hurting her? Obviously, if it's true, Mike should face the consequences. But is it true? Some girls want to rally for Mike's expulsion—and some want to rally around Mike. As rumors about what really happened spread, the students at North Bay Academy will question what it means to be guilty or innocent, right or wrong. Winner of the Labriola Center American Indian National Book Award Despite what major media sources say, violence against Native women is not an epidemic. An epidemic is biological and blameless. Violence against Native women is historical and political, bounded by oppression and colonial violence. This book, like all of Sarah Deer's work, is aimed at engaging the problem head-on—and ending it. *The Beginning and End of Rape* collects and expands the powerful writings in which Deer, who played a crucial role in the reauthorization of the Violence Against Women Act in

2013, has advocated for cultural and legal reforms to protect Native women from endemic sexual violence and abuse. Deer provides a clear historical overview of rape and sex trafficking in North America, paying particular attention to the gendered legacy of colonialism in tribal nations—a truth largely overlooked or minimized by Native and non-Native observers. She faces this legacy directly, articulating strategies for Native communities and tribal nations seeking redress. In a damning critique of federal law that has accommodated rape by destroying tribal legal systems, she describes how tribal self-determination efforts of the twenty-first century can be leveraged to eradicate violence against women. Her work bridges the gap between Indian law and feminist thinking by explaining how intersectional approaches are vital to addressing the rape of Native women. Grounded in historical, cultural, and legal realities, both Native and non-Native, these essays point to the possibility of actual and positive change in a world where Native women are systematically undervalued, left unprotected, and hurt. Deer draws on her extensive experiences in advocacy and activism to present specific, practical recommendations and plans of action for making the world safer for all.

Reprints of the most influential recent work in the field as well as more than a dozen newly commissioned essays explore theoretical issues, current research, service provision, and activism among Latinos, African Americans, Asian Americans, Jewish Americans, and lesbians. The volume rejects simplistic analyses of the role of culture in domestic violence by elucidating the support systems available to battered women within different cultures, while at the same time addressing the distinct problems generated by that culture. Together, the essays pose a compelling challenge to stereotypical images of battered women that are racist, homophobic, and xenophobic.

Plus a handsome, funny, street-smart boyfriend who adored her. But behind her façade of success, this golden girl hid a dark secret. She'd made a mistake shared by millions: she fell in love with the wrong person. At first Leslie and Conor seemed as perfect together as their fairy-tale wedding. Gripping and utterly compelling, *Crazy Love* takes you inside the violent, devastating world of abusive love. Lightning Flowers HarperCollins

National Book Critics Circle Award Winner. “With dazzling clarity, [Chocano’s] commentary exposes the subliminal sexism on our pages and screens.”—O, The Oprah Magazine As a kid in the 1970s and 80s, Carina Chocano was confused by the mixed messages all around her that told her who she could be—and who she couldn’t. She grappled with sexed up sidekicks, princesses waiting to be saved, and morally infallible angels who seemed to have no opinions of their own. It wasn’t until she spent five years as a movie critic, and was laid off just after her daughter was born, however, that she really came to understand how the stories the culture tells us about what it means to be a girl limit our lives and shape our destinies. In *You Play the Girl*, Chocano blends formative personal stories with insightful and emotionally powerful analysis. Moving from Bugs Bunny to Playboy Bunnies, from Flashdance to Frozen, from the progressive ’70s through the backlash ’80s, the glib ’90s, and the pornified aughts—and at stops in between—she explains how growing up in the shadow of “the girl” taught her to think about herself and the world and what it means to raise a daughter in the face of these contorted reflections. In the tradition of Roxane Gay, Rebecca Solnit, and Susan Sontag, Chocano brilliantly shows that our identities are more fluid than we think, and certainly more complex than anything we see on any kind of screen. “If Hollywood’s treatment of women leaves you wanting, you’ll find good, heady company in *You Play the Girl*.”—Elle

Scars of the Soul Are Why Kids Wear Bandages When They Don't Have Bruises U of Minnesota Press

“Selvaratnam very bravely and compellingly uses her personal experience to shine a light on the global crisis of violence against women. An important book for the women’s rights movement, *Assume Nothing* demonstrates that violence against women exists across race, class, economic status and education levels, and may be perpetrated by those we think of as allies! It dispels the myth that there are certain types of victims and perpetrators. It will help a lot of people, and particularly those who hesitate to identify as a victim/survivor for fear of losing their grounding both publicly and privately.”—Yasmeen Hassan, Global Executive Director, Equality Now “This courageous and terrifying book charts the author’s descent into an abusive relationship and also her emergence from it in taut, seductive prose. Selvaratnam explains how—even as an educated, sophisticated, liberal feminist—she was enthralled by her lover’s fame and tolerated escalating personal violence. Her narrative is vivid and bracingly frank, a tour-de-force of self-revelation and, ultimately, of redemption.”—Andrew Solomon, National Book Award-winning author of *Far from the Tree* and *The Noonday Demon* Award-winning filmmaker Tanya Selvaratnam bravely recounts the intimate abuse she suffered from former New York State Attorney General Eric Schneiderman, using her story as a prism to examine the domestic violence crisis plaguing America. When Tanya Selvaratnam met then New York State Attorney General Eric Schneiderman at the Democratic National Convention in July 2016, they seemed like the perfect match. Both were Harvard alumni; both studied Chinese; both were interested in spirituality and meditation, both were well-connected rising stars in their professions—Selvaratnam in entertainment and the art world; Schneiderman in law and politics.

Behind closed doors, however, Tanya’s life was anything but ideal. Schneiderman became controlling, mean, and manipulative. He drank heavily and used sedatives. Sex turned violent, and he called Tanya—who was born in Sri Lanka and grew up in Southern California—his “brown slave.” He isolated and manipulated her, even threatening to kill her if she tried to leave. Twenty-five percent of women in America are victims of domestic abuse. Tanya never thought she would be a part of this statistic. Growing up, she witnessed her father physically and emotionally abuse her mother. Tanya knew the patterns and signs of domestic violence, and did not see herself as remotely vulnerable. Yet what seemed impossible was suddenly a terrifying reality: she was trapped in a violent relationship with one of the most powerful men in New York. Sensitive and nuanced, written with the gripping power of a dark psychological thriller, *Assume Nothing* details how Tanya’s relationship devolved into abuse, how she found the strength to leave—risking her career, reputation, and life—and how she reclaimed her freedom and her voice. In sharing her story, Tanya analyzes the insidious way women from all walks of life learn to accept abuse, and redefines what it means to be a victim of intimate violence.

Praise for Saeed Jones: “Jones is the kind of writer who's more than wanted: he's desperately needed.”—FlavorWire “I get shout-happy when I read these poems; they are the gospel; they are the good news of the sustaining power of imagination, tenderness, and outright joy.”—D. A. Powell “Prelude to Bruise works its tempestuous mojo just under the skin, wreaking a sweet havoc and rearranging the pulse. These poems don't dole out mercy. Mr. Jones undoubtedly dipped his pen in fierce before crafting these stanzas that rock like backslap. Straighten your skirt, children. The doors of the church are open.”—Patricia Smith “It's a big book, a major book. A game-changer. Dazzling, brutal, real. Not just brilliant, caustic, and impassioned but a work that brings history—in which the personal and political are inter-constitutive—to the immediate moment. Jones takes a reader deep into lived experience, into a charged world divided among unstable yet entrenched lines: racial, gendered, political, sexual, familial. Here we absorb each quiet resistance, each whoop of joy, a knowledge of violence and of desire, an unbearable ache/loss/yearning. This is not just a “new voice” but a new song, a new way of singing, a new music made of deep grief's wildfire, of burning intelligence and of all-feeling heart, scorched and seared. In a poem, Jones says, “Boy's body is a song only he can hear.” But now that we have this book, we can all hear it. And it's unforgettable.”—Brenda Shaughnessy “Inside each hunger, each desire, speaks the voice of a boy that admits “I've always wanted to be dangerous.” This is not a threat but a promise to break away from the affliction of silence, to make audible the stories that trouble the dimensions of masculinity and discomfort the polite conversations about race. With impressive grace, Saeed Jones situates the queer black body at the center, where his visibility and vulnerability nurture emotional strength and the irrepressible energy to claim those spaces that were once denied or withheld from him. *Prelude to a Bruise* is a daring debut.”—Rigoberto González From “Sleeping Arrangement”: Take your hand out from under my pillow. Detailing the domestic violence suffered by the first author during her 16 year marriage, this moving volume details the background and events leading up to and immediately following Beth Sipe's tragic act of desperation: ending the life of the perpetrator. Encouraged to publish her story by her therapist and co-author, Evelyn Hall, Sipe relates how her case was mishandled by the police, the military, a mental health professional and the welfare system, illustrating how women like herself are further victimized and neglected by the very systems that are expected to provide assistance. Her story is followed by seven commentaries by experts in the field. They discuss the causes and process of spousal abuse, reasons why battered women stay, and the dynamic consequences of domestic violence.

Not all abuse leaves a mark. For more than two years, BBC Radio 4's The Archers ran a disturbing storyline centred on Helen Titchener's abuse at the hands of her husband Rob. Not the kind of abuse that leaves a bruise, but the sort of coercive control that breaks your spirit and makes it almost impossible to walk away. As she listened to the unfolding story, Helen Walmsley-Johnson was forced to confront her own agonizing past. Helen's first husband controlled her life, from the people she saw to what was in her bank account. He alienated her from friends and family and even from their three daughters. Eventually, he threw her out and she painfully began to rebuild her life. Then, divorced and in her early forties, she met Franc. Kind, charming, considerate Franc. For ten years she would be in his thrall, even when he too was telling her what to wear, what to eat, even what to think. *Look What You Made Me Do* is her candid and utterly gripping memoir of how she was trapped by a smiling abuser, not once but twice. It is a vital guide to recognizing, understanding and surviving this sinister form of abuse and its often terrible legacy. It is also an inspirational account of how one woman found the courage to walk away. 'Powerful' Jane Garvey, *Woman's Hour*

Prelude to Bruise HarperCollins

Nobody's Victim is an unflinching look at a hidden world most people don't know exists—one of stalking, blackmail, and sexual violence, online and off—and the incredible story of how one lawyer, determined to fight back, turned her own hell into a revolution. "We are all a moment away from having our life overtaken by somebody hell-bent on our destruction." That grim reality—gleaned from personal experience and twenty years of trauma work—is a fundamental principle of Carrie Goldberg's cutting-edge victims' rights law firm. Riveting and an essential timely conversation-

starter, *Nobody's Victim* invites readers to join Carrie on the front lines of the war against sexual violence and privacy violations as she fights for revenge porn and sextortion laws, uncovers major Title IX violations, and sues the hell out of tech companies, schools, and powerful sexual predators. Her battleground is the courtroom; her crusade is to transform clients from victims into warriors. In gripping detail, Carrie shares the diabolical ways her clients are attacked and how she, through her unique combination of advocacy, badass relentlessness, risk-taking, and client-empowerment, pursues justice for them all. There are stories about a woman whose ex-boyfriend made fake bomb threats in her name and caused a national panic; a fifteen-year-old girl who was sexually assaulted on school grounds and then suspended when she reported the attack; and a man whose ex-boyfriend used a dating app to send more than 1,200 men to ex's home and work for sex. With breathtaking honesty, Carrie also shares her own shattering story about why she began her work and the uphill battle of building a business. While her clients are a diverse group—from every gender, sexual orientation, age, class, race, religion, occupation, and background—the offenders are not. They are highly predictable. In this book, Carrie offers a taxonomy of the four types of offenders she encounters most often at her firm: assholes, psychos, pervs, and trolls. "If we recognize the patterns of these perpetrators," she explains, "we know how to fight back." Deeply personal yet achingly universal, *Nobody's Victim* is a bold and much-needed analysis of victim protection in the era of the Internet. This book is an urgent warning of a coming crisis, a predictor of imminent danger, and a weapon to take back control and protect ourselves—both online and off.

This "utterly spectacular" book weighs the impact modern medical technology has had on the author's life against the social and environmental costs inevitably incurred by the mining that makes such innovation possible (Rachel Louise Snyder, author of *No Visible Bruises*). What if a lifesaving medical device causes loss of life along its supply chain? That's the question Katherine E. Standefer finds herself asking one night after being suddenly shocked by her implanted cardiac defibrillator. In this gripping, intimate memoir about health, illness, and the invisible reverberating effects of our medical system, Standefer recounts the astonishing true story of the rare diagnosis that upended her rugged life in the mountains of Wyoming and sent her tumbling into a fraught maze of cardiology units, dramatic surgeries, and slow, painful recoveries. As her life increasingly comes to revolve around the internal defibrillator freshly wired into her heart, she becomes consumed with questions about the supply chain that allows such an ostensibly miraculous device to exist. So she sets out to trace its materials back to their roots. From the sterile labs of a medical device manufacturer in southern California to the tantalum and tin mines seized by armed groups in the Democratic Republic of the Congo to a nickel and cobalt mine carved out of endemic Madagascar jungle, *Lightning Flowers* takes us on a global reckoning with the social and environmental costs of a technology that promises to be lifesaving but is, in fact, much more complicated. Deeply personal and sharply reported, *Lightning Flowers* takes a hard look at technological mythos, healthcare, and our cultural relationship to medical technology, raising important questions about our obligations to

one another, and the cost of saving one life.
