BRILL

This book explores the problematic relationship between education, social justice and the State, against the background of comparative education research. The book critiques the status quo of stratified school systems, and the unequal distribution of cultural capital and value added schooling.

The authors address one of today's most pressing questions: Are social, economic and cultural divisions between the nations, between school sectors, between schools and between students growing or declining?

In this volume are collected all of the writings Moran devoted to the Amarna letters over more than four decades, including his doctoral dissertation, which has been one of the most widely cited unpublished works in ancient Near Eastern

studies. A citation index makes Professor Moran's comments on individual texts readily accessible.

Teach Yourself

Over the last few decades, research, activity, and funding has been devoted to improving the recruitment, retention, and advancement of women in the fields of science, engineering, and medicine. In recent years the diversity of those participating in these fields, particularly the participation of women, has improved and there are significantly more women entering careers and studying science, engineering, and medicine than ever before. However, as women increasingly

enter these fields they face biases and barriers and it is not surprising that sexual harassment is one of these barriers. Over thirty years the incidence of sexual harassment in different industries has held steady, yet now more women are in the workforce and in academia, and in the fields of science, engineering, and medicine (as students and faculty) and so more women are experiencing sexual harassment as they work and learn. Over the last several years, revelations of the sexual harassment experienced by women in the workplace and in academic settings have raised urgent questions about the specific impact of this discriminatory behavior

on women and the extent to which it is limiting their careers. Sexual Harassment of Women explores the influence of sexual harassment in academia on the career advancement of women in the scientific, technical, and medical workforce. This report reviews the research on the extent to which women in the fields of science, engineering, and medicine are victimized by sexual harassment and examines the existing information on the extent to which sexual harassment in academia negatively impacts the recruitment, retention, and advancement of women pursuing scientific, engineering, technical, and medical careers. It also

identifies and analyzes the policies, strategies and practices that have been the most successful in preventing and addressing sexual harassment in these settings.

Do you want to engage with Babylonian culture and literature in the original language?The course will introduce you to a fascinating world of gods and demons, heroes and kings.The readings are drawn from myths, letters, law-codes, medical incantations, and other authentic, ancient writings. The language is presented in the Roman alphabet, with an explanation of cuneiform script, and the main features of Assyrian - cognate with

Babylonian - are also explained. Learn effortlessly with a new easy-to-read page design and interactive features in this book from Teach Yourself, the No. 1 brand in language learning. Annali D'italianistica National Academies Press

The world has changed radically since 1989, when the General Assembly declared the period from 1990 to 1999 as the United Nations Decade of International Law. During that time, the international community claimed some major achievements as reflected by the adoption of conventions and treaties. This publication presents a collection of essays from legal advisers of

States and international organizations, all of whom are among those committed to promoting respect for international law. Their contribution provides a practical perspective on international law, viewed from the standpoint of those involved in its formation, application and administration.
