What if when you died, no one would ever know you were all that stood between man and the enemy? When Jonathan Tibbs awakes in a puddle of his own blood, there isn't a scratch on him to explain it. In the weeks to follow, he comes to find he's been drafted for a war with a violent otherworldly species. A war that only he can remember. Now, the man Jonathan imagined himself becoming is no longer the man who can endure his future. The first installment in this science fiction action adventure series, *The Never Hero* is a gritty and honest look at the psychological journey of a man forced to forge himself into a weapon. Abandoned with little guidance, and at the mercy of a bargain struck far outside his reach, Jonathan races to unlock the means to surmount the odds, and understand the mystery behind a conflict raging outside of time and memory. In the end, the real question is what Jonathan is willing to become to save a planet that will never see his sacrifice.

During his presidency, Jimmy Carter received a comprehensive analysis of his family's genealogy, dating back 12 generations, from leaders of the Mormon Church. More recently Carter's son Jeff took over the family history, determined to discover all that he could about his ancestors. This resulting volume traces every ancestral line of both Jimmy and Rosalynn Carter back to the original immigrants to America and chronicles their origins,

occupations, and life dates. Among his forebears Carter found cabinet makers, farmers, preachers, illegitimate children, slave owners, indentured servants, a former Hessian soldier who fought against Napoleon, and even a spy for General George Washington at Valley Forge. With never-before-published historic photographs and a foreword by President Jimmy Carter, this is the definitive saga of a remarkable American family.

"Despite Johnno's assertion that Brisbane was absolutely the ugliest place in the world, I had the feeling as I walked across deserted intersections, past empty parks with their tropical trees all spiked and sharp-edged in the early sunlight, that it might even be beautiful ... " Johnno is a typical Australian who refuses to be typical. His disorderly presence can disturb the staleness of his home town or destroy the tranquillity of a Greek landscape. An affectionately outrageous portrait, David Malouf's first novel recreates the war-conscious forties, the pubs and brothels of the fifties, and the years away treading water overseas.

NATIONAL BESTSELLER • "A dazzling journey across the sciences and humanities in search of deep laws to unite them." —The Wall Street Journal One of our greatest scientists—and the winner of two Pulitzer Prizes for *On Human Nature* and *The Ants*—gives us a work of visionary importance that may be the crowning achievement of his career. In *Consilience* (a word that originally meant "jumping together"), Edward O. Wilson renews the Enlightenment's search for a unified theory of knowledge in disciplines that range from physics to biology, the social sciences and the humanities. Using the natural sciences as his model, Wilson forges dramatic links between fields. He explores the chemistry of the mind and the genetic bases of culture. He postulates the biological principles underlying works of art from cave-drawings to *Lolita*. Presenting the latest findings in prose of wonderful clarity and oratorical eloquence, and synthesizing it into a dazzling whole, *Consilience* is science in the path-clearing traditions of Newton, Einstein, and Richard Feynman.

A visual celebration of one of the most renowned artists of our time, along with the extraordinary Gallery he helped to create to showcase his work American artist Cy Twombly (1928-2011) created paintings and sculptures that defied conventional classification. In his works, Twombly incorporated a wide variety of elements, from scrawls and calligraphic marks to text from poetry and mythology. Opening in 1995, the Cy Twombly Gallery at the Menil Collection was designed by Renzo Piano and has become a pilgrimage destination for the artist's avid admirers. The product of close collaboration between the Menil, Twombly, and the Dia Center for the Arts, the Gallery is one of the most extraordinary representations of any single 20th-century artist. Twombly chose the art that would be featured and worked closely with the builders to create the most appropriate venue for its presentation. This sumptuous volume showcases thirty-three paintings and eleven sculptures, including an immense 13 x 52-foot painting. Featuring large-scale, close-up details of many of the works, the book looks at paint, plaster, paintings, sculptures, and the "cues" that Twombly gave in his art about this special collection. Published in association with the Twombly Foundation and the Menil Collection

"Livability is my true north. The materials I use time and again all change with age and wear. Not only is that okay, it's how you achieve more than a re-creation of what you've already seen, or what somebody else has done. You can do this, too—I promise."—from the introduction Designing a room with all the vibes comes down to how you layer your décor. The more you can mix the elements of your room—your pillows, objects, patterns, and lighting—the more finished it'll feel: not too new, not too old, but just right. In the age when Savile Row was synonymous with men's style, Gaetano Savini put Italy on the map, beginning with the first men's fashion show at Florence's Palazzo Pitti in 1952. His legacy as the visionary and designer extraordinaire behind the Brioni luxury brand is celebrated in this spectacular illustrated edition, highlighting examples of innovative cuts, bold colors, and the psychedelic patterns that led the Peacock Revolution of the 1960s. "Beyond the green land, the pubs and the auburn hair, is a rich culture dating back nine thousand years, including invasions by just about every nation in Northern Europe. The Irish have survived as a people, perhaps because of the genetics of hope, the richness of tale-telling and laughter, and the scent of peat in the air."—Jay Ben Adlersberg *The Emerald Isle* is known for its gorgeous countryside, and rightfully so. From the rugged cliffs of the Atlantic coast to the lush meadows and lakes of the interior, Ireland is rich in imagery both awe-inspiring and serene. The vibrant streets of such cities as Dublin and Belfast, where modern architecture rubs shoulders with Georgian townhouses and Norman stonework, testify to the island's 21st century resurgence as the cosmopolitan 'Celtic Tiger.' From the remains of a Bronze Age ring fort to the soaring modern Spire of Dublin to the stallions of the National Stud, Ireland is a land of surprising variety. The rich color images collected here weave together the portrait of a land where Paleolithic monuments, medieval castles, quiet fishing villages, and bustling cities all exist alongside each other. From the eerie, astonishing hexagonal stones of the 'Giant's Causeway' in County Antrim to the cozy atmosphere of the town pub; from

breathtaking wild landscapes to the exquisite gardens of stately homes; each page offers a new glimpse of Ireland's multifarious beauty. The prehistoric tombs of Newgrange, the Gothic peaks of St. Patrick's Cathedral, the sublime scenery of Connemara National Park, and countless country villages, all are here. With a keen visual sensibility, Jay Ben Adlersberg captures the tiniest details and the most magnificent vistas that are at the island's heart and that make Ireland one of the world's loveliest places to travel—or to call home. Here, too, is a journey through Ireland's history. The soaring modern Spire of Dublin monument, the elegant campus of Trinity College, the ancient seat of Ireland's kings at Tara—each evokes a different moment in Ireland's many-layered past. Written in the land itself, Ireland's history appears here in the slope of a thatched roof, in the grass-grown remains of a Bronze Age ring fort, in a field tilled for centuries. Finally, here is the soul of a land where, out of the hardships of the past, have come arts and culture alive with creativity and resilience, from traditional flute and fiddle music to a diverse literary tradition from which thirty poems and literary excerpts have been chosen to accompany Adlersberg's images, including the romantic prose of James Joyce; the humorous boyhood memories of Frank McCourt; the celebration of natural beauty in the poetry of W.B. Yeats; and the folk tales of Douglas Hyde; as well as numerous others whose writings capture the unique spirit that is Ireland. Samantha Bowser supplies the rich and nuanced captions for the more than two hundred photographs.

The Graphic Garden is the first monograph from Keith Williams, a partner, along with Mario Nievera, of Nievera Williams Design—one of the country's leading landscape architectural firms. Based in South Florida, Williams has been designing sumptuous outdoor spaces for over 20 years. In *The Graphic Garden*, Williams highlights his most impressive projects to date which includes the revitalization of several historically landmarked homes and properties. He often integrates both native and exotic plants, builds opulent swimming pools, and brings in mature trees and stone work, all of which result in stunning gardens that are brimming with lush, tropical foliage. More than just plantings, other design elements featured include whimsical pool cabanas, a vertical garden wall, a loggia inspired by the architecture of Bermuda, Moorish-tiled fountains, and stone-paved motor courts. In showing the transformations and process of these monumental design projects, the book highlights Williams' penchant for sustainability, and his efforts to honor the natural, existing landscape while never compromising the design to create spectacularly distinctive gardens. As Williams recounts, "I design gardens-gardens that give back, that are forward-thinking, that can calm, that have emotion, each with its own scale and texture,

and that change and provide experiences and human interaction."

The Last Field Party Simon and Schuster

Fishing shacks at river mouths, beloved family hideaways at the beach or on a remote rocky shore, follies perched precariously on cliff edges, converted railway carriages, mountain huts above the snowline . . . This colourful book is made up of photographs of their favourite baches and cribs supplied by ordinary New Zealanders. Often under threat from local councils and spiralling land values, some of these baches and cribs are now being torn

down. This book is thus an invaluable record of an iconic New Zealand way of life.
