JADON MELODY

Survey of Land-grant Colleges and Universities

Cision
 In the many studies that have been conducted on the provision of financial services for consumers, regulation has emerged as one of the most important factors. The impact of regulation on financial service industries is a major focus of this comprehensive bibliography of relevant source materials in the field of regulatory economics. The bibliography includes entries from the major economics and finance journals published over the past twenty years, major law and business journals, government documents, books, and doctoral dissertations--all indexed according to subject matter--as well as abstracts of many of the papers. The product of extensive research, Heggstad's work is invaluable to university libraries, regulatory agencies, financial institutions, and financial experts, and is an efficient and essential reference tool for anyone wishing to study specific markets and the impact of financial regulation on them.

Banking & SSC e-book June 2018

Jagran Prakashan Ltd.
 A monthly register of the most important works published in North and South America, in India, China, and the British colonies: with occasional notes on German, Dutch, Danish, French, Italian, Spanish, Portuguese, and Russian books.

Trübner's American and Oriental Literary Record

Routledge
 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1964.

The New York Job Bank, 1998

Educart
 Covers metropolitan NYC, northern New Jersey and southwestern Connecticut

Survey of Current Business

Univ of California Press

This book addresses the divide that exists between the reality of finance and the image it projects. A functioning financial system is an essential feature of a modern economy, providing it with money, credit, capital, and investments. Conversely, those who provide this essential service are

neither respected nor trusted. The causes and consequences of this divide is explored using the British experience from 1800 to the present, drawing upon a mixture of factual evidence and contemporary fiction. Nothing of this scale has been attempted before and this is the product of 50 years of research.
