Nora Rose Rowley is a genius, but don't tell anyone. Nora's managed to make it to the fifth grade without anyone figuring out that she's not just an ordinary kid, and she wants to keep it that way. But then Nora gets fed up with the importance everyone attaches to test scores and grades, and she purposely brings home a terrible report card just to prove a point. Suddenly the attention she's successfully avoided all her life is focused on her, and her secret is out. And that's when things start to get really complicated....

Business Studies for Class 12 | CBSE (NCERT Solved) | Examination 2023-2024 | By RK Singla Oswal Publishers

Which policies make the difference between poverty and prosperity? Most agree that sustained investment in education and infrastructure (against the backdrop of a sound institutional framework) plays a significant role in bridging this divide, but the

question still remains: why do countries that pursue these objectives continue to be held back by developmental stagnation? 'India's Trident' looks at the possible answers to this question through a trifocal lens, considering the challenges faced by education and infrastructure policy, as well as the Indian fiscal framework. Education is often considered the 'silver bullet' for a country's developmental woes, but certain reforms are needed for it to hit its mark. The effects of an outdated curriculum and ill-compensated teachers are compounded by an inefficient government delivery mechanism. If education is India's 'silver bullet', then infrastructure is the gunpowder that allows it to fire. That said, this is complicated by an intricate network of political clientelism and patronage that distorts state and central spending on infrastructure. The misallocation of resources has hampered the country's growth-generating potential. In order to begin the process of change, however, a re-evaluation of existing institutional revenue-raising and expenditure-planning systems is required. The existing nature of fiscal federalism does not leave room for inter-state competition, which could be a significant asset when it comes to driving economic advancement. This book explores the challenges faced by India in the process of implementing policies that are vital for its progress.

A teacher plays multiple roles in the classroom. She not only facilitates learning but also assesses what is being learned or imbibed by the learners. The mechanism of assessment is elaborate. It demands thorough knowledge and skills of this field. Keeping this in view, teachers are made abreast of nuances of assessment, its guiding principles, tools and techniques during their teacher education programs. This book covers the topics that are essential for a teacher to ensure that assessment for, of, as and in learning remain paramount. This would help all future teachers to practice assessment procedures more confidently.
