Trail of Tears Simon and Schuster

A sixth-generation North Carolinian, highly-acclaimed author John Ehle grew up on former Cherokee hunting grounds. His experience as an accomplished novelist, combined with his extensive, meticulous research, culminates in this moving tragedy rich with historical detail. The Cherokee are a proud, ancient civilization. For hundreds of years they believed themselves to be the "Principle People" residing at the center of the earth. But by the 18th century, some of their leaders believed it was necessary to adapt to European ways in order to survive. Those chiefs sealed the fate of their tribes in 1875 when they signed a treaty relinquishing their land east of the Mississippi in return for promises of wealth and better land. The U.S. government used the treaty to justify the eviction of the Cherokee nation in an exodus that the Cherokee will forever remember as the "trail where they cried." The heroism and nobility of the Cherokee shine through this intricate story of American politics, ambition, and greed. B & W photographs

Investing in America's Workforce Test Prep Books

Everyone talks about the \$1.2 trillion U.S. student loan bubble, but few have focused on the people most negatively affected by the crisis. Why? Because sometimes the truth is so painful, and the solutions are so difficult to come by, that everyone just instinctively looks the other way. Those faces of debt belong to America's lower and lower-middle classes, which together carry 47 percent of the higher education debt in the U.S. That's \$500 billion in student loan debt weighing on the shoulders of America's poorest citizens. Worse yet, about 79 percent of students from the lowest income households will never graduate, but they'll still have to pay back those loans. The combination of high debt and no degree sends these 'worst-case scenario' individuals to economic jail for decades, perhaps forever. "Let's Change Higher Education Forever: A Debt-Free Solution for a System Gone Wrong" by Aspen University's Chairman and Chief Executive Officer Michael Mathews, tells the story of the individuals living this 'worst-case scenario'-- student debt, but no degree. Mathews explains how for-profit college recruiting tactics and tuition costs contributed to this scenario and he offers a plan for a debtless education that meets the needs of the modern student.
