Music, Culture, and Experience Torino :

UTET, c1985-c1988.

Le quattordici storie raccolte in Carretera, ambientate in mondi e culture geograficamente lontani, hanno un denominatore comune: il cammino. Il cammino, e quindi la strada, come τόπος, teatro di situazioni reali, ma anche metafora di un passaggio, di una svolta: in

entrambi i casi, l'uomo che li ha attraversati non è più la stessa persona che ha iniziato quel cammino. È in viaggio che avviene il grottesco addio al celibato in Kattenkabinet, e strada facendo prende corpo la curiosità, innocente e un po' ridicola, della coppia di provincia di Christmas Miracle. La strada è il mare dei clandestini di Mare Nostrum e la lussuosa nave del protagonista del Compleanno del Faraone. La strada è il parco dove rintrona la fantasticità di Compagno di merenda, e l'ospedale nel quale la protagonista di Abracadabra s'imbatte in una sanità

bulimica e surreale. Sulla strada s'incrociano le vicende dei personaggi di Conosci il Paese dove fioriscono i limoni? e lungo la via Vanni prende coscienza della tragedia che il suo Paese sta vivendo. Uomini e donne di ogni età e condizione sulla carretera, percorrendo un cammino personale e collettivo che si perpetua all'infinito. Carretera è anche il nome della storia ambientata in Sudamerica che dà il titolo alla raccolta.

One of the most important

ethnomusicologists of the century, John Blacking achieved international recognition for his book, *How Musical Is Man?* Known for his interest in the relationship of music to biology, psychology, dance, and politics, Blacking was deeply committed to the idea that music-making is a fundamental and universal attribute of the human species. He attempted to document the ways in which music-making expresses the human condition, how it transcends social divisions, and how it can be used to improve the quality of human life. This volume brings together in one convenient source eight of Blacking's most important theoretical papers along with an extensive introduction by the editor. Drawing heavily on his fieldwork among the Venda people of South Africa, these essays reveal his most important theoretical themes such as the innateness of musical ability, the properties of music as a symbolic or quasi-linguistic system, the complex relation between music and social institutions, and the relation between scientific musical analysis and cultural understanding. *Itinerari di storia sociale dell'educazione occidentale - Volume Primo* Createspace

 «A cosa serve la musica, nella nostra vita di adulti, di giovani, di bambini? Per quali ragioni vogliamo che si insegni nelle scuole? Quale musica poi? Bach è uno dei valori indiscussi della nostra cultura, ma è lontano dagli interessi dei ragazzi; viceversa, la canzone è il loro pane quotidiano, ma sulla canzone si proiettano le ombre del condizionamento mercantile. E allora? Le domande si moltiplicano. Educarsi alla musica vuol dire imparare a scegliere, ascoltandola, o vuol dire farla, con la voce, con gli strumenti? Studiare musica implica che ci si confronti con tecniche e nozioni speciali: esercizi per le dita o per la laringe, solfeggi, armonizzazioni, classificazioni, cronistorie. Fino a che punto la loro pratica arricchisce la competenza musicale, da che punto diventa alienante? E insomma, che cosa rende efficace un insegnamento, che cosa lo rende inane, o addirittura controproducente? Sono solo alcune delle tante domande che si affacciano prima o poi a ogni consapevole educatore, docente, operatore culturale, uomo politico. Nel corso del mio lavoro di insegnante ho cercato di affrontarle come

meglio potevo: sperimentando, leggendo o ascoltando ciò che ne dicevano altri, riflettendo. Questo libro cerca di offrire una sintesi delle risposte di cui sono stato capace; e di cui sono debitore allo scambio vitale con gli allievi e i colleghi con cui ho lavorato, da quarant'anni a questa parte. Ciò spiega la presenza di interlocutori recenti e antichi, amici più giovani e amici già scomparsi quando li incontravo nelle loro pagine: tutti autori che hanno segnato la storia dell'innovazione pedagogica.» Fondamenti di pedagogia musicale Mel Bay Publications
 Like *The Man Who Mistook His Wife for a Hat*, this is a fascinating voyage into a strange and wonderful land, a provocative meditation on communication, biology, adaptation, and culture. In *Seeing Voices*, Oliver Sacks turns his attention to the subject of deafness, and the result is a deeply felt portrait of a minority struggling for recognition and respect — a minority with its own rich, sometimes astonishing, culture and unique visual language, an extraordinary mode of communication that tells us much about the basis of language in hearing people as well. *Seeing Voices* is, as Studs Terkel has written, "an exquisite,

as well as revelatory, work."

Sonata in G Major for Violin and Basso Continuo Rv798: Critical Edition Score and Parts Stanford University Press

Ticino is a small area at the southernmost tip of Switzerland on the border with Italy. the Ticino region was actually part of Italy until a few centuries ago. the mandolin arrived in Ticino through immigrants and their music, and put down important cultural roots there. the mandolin style in Ticino is a link to the old Italian folk music tradition, which has been largely lost in Italy and throughout other parts of the world. This book is a collection of some of the most famous pieces from this vast historical repertoire. the collection includes lots of popular folk songs, virtuosic pieces by original mandolin composers, as well as an original Aonzo composition. the book is presented in English and in Italian while the music is in

standard notation and mandolin tablature.

Little Goose's Autumn is a second stunning story from an exciting picture book pairing and the uplifting tale of a lively young goose finding her place in the world. As summer fades to autumn, a lively young goose feels a change in the air and senses she has something important to do – but what? The beavers are chopping wood, the squirrels are storing nuts in the ground and the bears are busy building a den. The plucky little goose tries to join in, but without great success. She realizes her wings weren't built for chopping wood, or burying food, or building a den, but they were built for something magnificent – they were built for flight . . . A beautiful, lyrical and hopeful story about finding your wings and your place in the world. Written by star picture book author, Elli Woollard with wonderful illustrations by rising talent, Briony May Smith, whose artwork brings an autumnal landscape of mountains and forests to life with truly breathtaking beauty.

Riflettendo sulla propria storicità educativa

e sulla propria condizione storico-culturale, è possibile lasciarsi alle spalle molte fragilità del passato, per conferire priorità ai problemi attuali e futuri. Il diffondersi su scala globale delle ricerche di storia sociale dell'educazione, e delle relative conquiste in termini di sapere, è parte del processo post-moderno di formazione alla vita sociale e alla cittadinanza, essendo, queste ultime, necessità sempre più pressanti per le comunità. Per questo, in educazione, ci si occupa sempre meno della storia delle idee pedagogiche, che in passato ha dato origine a un'ampia manualistica, e di più dello studio delle strutture sociali reali in cui si svolgono e tematizzano gli elementi soggettivi dell'azione dei soggetti sociali, concentrandosi su temi antropologici, sullo studio delle esperienze socio-educative fondamentali dell'uomo e sulla storia della mentalità formativa. Dopo le riflessioni iniziali su natura, metodi, problemi dell'indagine storico-sociale dell'educazione, il volume propone alcuni itinerari di storia sociale dell'educazione che procedono attraverso l'umanesimo della classicità (dall'età arcaica alla civiltà romana), l'umanesimo teologico

(dall'avvento de cristianesimo alla fine del medioevo) e l'umanesimo antropologico (umanesimo, rinascimento, riforma e contro-riforma).

They came from the poorest parts of Ireland and Italy, and met as rivals on the sidewalks of New York. In the nineteenth century and for long after, the Irish and Italians fought in the Catholic Church, on the waterfront, at construction sites, and in the streets. Then they made peace through romance, marrying each other on a large scale in the years after World War II. An Unlikely Union unfolds the dramatic story of how two of America's largest ethnic groups learned to love and laugh with each other in the wake of decades of animosity. According to Larry Teal, the best method of learning to play the saxophone is to study with a competent teacher. Teal's studies were mostly of instruments other than the saxophone, but as a student at a Chautauqua summer session, he came under the influence of Georges Barrère, the eminent French flutist. He played bass

clarinet with the Detroit Symphony, but he continued to be absorbed by the saxophone. As a result of his acquired expertise and growing reputation, he was appointed to a full-time faculty position as a saxophone teacher by the University of Michigan -- the first ever to receive such an appointment from a major university. During his 21-year tenure, he attracted students from all over, thus exerting an ever widening influence on saxophone teaching and performing.

This is an autobiographical tale of a teddy bear named Otto. Otto is a German-born teddy bear. His first memories are of being stitched together and being given to David, a Jewish boy living in Germany before WWII. David and his best-friend Oskar always play with Otto, using him for pranks, games and even teaching him to type on a typewriter. Life is a lot of fun for the Otto. However, one day, David starts to wear a yellow star on his jacket. He and his parents are soon carted away by men in leather coats and uniforms. David decides to give his dear teddy bear to Oskar. Many lonely days pass for Oskar

and Otto. But even gloomier days soon arrive when Osakar's father is drafted into the army and the bombings start. One day, a sudden explosion sends Otto flying through the air and into the middle a raging battle-field. The teddy bear is spotted by a soldier, but the moment the soldier picks Otto up, they are both shot through the chest. Otto and the soldier, an American G.I., are taken away to a hospital. In hospital, the soldier keeps Otto by his side. When he recovers, he pins a medal on Otto's chest, saying that Otto saved his life, taking the brunt of the bullet. The story makes papers and Otto becomes a mascot of the soldier's regiment. The teddy bear is then taken to America and is given to a sweet girl called Jasmin, the soldier's daughter. But Otto's new home and happiness is once again brutally ended when he is snatched away by mean and violent street urchins, who hit and trample on him and throw him into a bin. Otto is then picked up by an antiques dealer and taken to his shop. Years and years go by, until one rainy evening, when a bulky man stops and carefully examines the shop window. The man recognizes the bear instantly buys

him. It is Oskar, Otto's old friend. The story of Oskar, a German tourist and survivor of the war finding his teddy bear in America soon makes the papers. And the day after Otto's picture appears in the paper, Oskar's telephone rings: it is his old friend David. And so, the three friends finally reunite, sharing the sorrows and pains of war and living a peaceful and happy life together. Otto now keeps himself busy, typing the story of his life on David's typewriter. Children will become attached to this loving, innocent protagonist, and will naturally be interested in his life story. Tomi Ungerer deals with one of the darkest chapters of history and pulls off the challenge admirably. This tale will prompt reflection and important questions without causing undue fear.

The Absorbent Mind was Maria

Montessori's most in-depth work on her educational theory, based on decades of scientific observation of children. Her view on children and their absorbent minds was a landmark departure from the educational model at the time. This book helped start a revolution in education. Since this book first appeared there have been both cognitive and neurological studies that have confirmed what Maria Montessori knew decades ago.

There was time when my country was the country of fairy tales, a country where every child would want to grow and play. This is the story of the author's physical and emotional journey from her war-torn homeland, Somalia. Some time after the military coup in 1969 Shirin left Mogadishu and moved to Italy to make a new life and home for herself and her family. Since then she has crossed continents and lived in several cities, facing the challenge of integrating with many different kind of society before settling in England in 2010. This book encapsulates her reflections on the Somali diaspora.

"This volume will be of particular interest to medical professionals, neuroscientists, neurologists, psychologists, educators, music therapists, musicologists, sound engineers, computer scientists.

Manuscripts address how the tools of cognitive neuroscience have provided new insights into where and how rhythm is coded in the brain; production and perception abilities and the relationship between the two; the use of music as a tool for the investigation of human cognition and its underlying brain mechanisms; recent research investigating various aspects of musical memory and learning, and implications for medical rehabilitation for patients with memory disorders; advances in the fields of developmental auditory neuroscience, empirical music aesthetics, and music emotions in normal and disordered

development such as autistic spectrum disorders; mutual interactions between music and language in children and adults with cochlear implants; and human communication of information, ideas, and emotional states, and the shared networks of speech and motor processing with musical processing"--NYAS Web site *Studi piemontesi* IBISCUS EDIZIONI - Edilog S

I am. We are. That is enough. Now we have to start. These are the opening words of Ernst Bloch's first major work, *The Spirit of Utopia*, written mostly in 1915-16, published in its first version just after the First World War, republished five years later, 1923, in the version here presented for the first time in English translation. *The Spirit of Utopia* is one of the great historic books from the beginning of the century, but it is not an obsolete one. In its style of thinking, a peculiar amalgam of biblical, Marxist, and Expressionist turns, in its analytical skills deeply informed by Simmel, taking its information from both Hegel and Schopenhauer for the groundwork of its metaphysics of music but consistently interpreting the cultural

legacy in the light of a certain Marxism, Bloch's *Spirit of Utopia* is a unique attempt to rethink the history of Western civilizations as a process of revolutionary disruptions and to reread the artworks, religions, and philosophies of this tradition as incentives to continue disrupting. The alliance between messianism and Marxism, which was proclaimed in this book for the first time with epic breadth, has met with more critique than acclaim. The expressive and baroque diction of the book was considered as offensive as its stubborn disregard for the limits of "disciplines." Yet there is hardly a "discipline" that didn't adopt, however unknowingly, some of Bloch's insights, and his provocative associations often proved more productive than the statistical account of social shifts. The first part of this philosophical meditation--which is also a narrative, an analysis, a rhapsody, and a manifesto--concerns a mode of "self-encounter" that presents itself in the history of music from Mozart through Mahler as an encounter with the problem of a community to come. This "we-problem" is worked out by Bloch in terms

of a philosophy of the history of music. The "self-encounter," however, has to be conceived as "self-invention," as the active, affirmative fight for freedom and social justice, under the sign of Marx. The second part of the book is entitled "Karl Marx, Death and the Apocalypse." I am. We are. That's hardly anything. But enough to start.
