Peter Benson, author of Whittling Handbook, gives the first-timer the perfect introduction to the simple, yet pleasurable woodcarving pastime. Colorful photographs show each step in the process of making a host of items with nothing more than a knife and a piece of timber. The handbook guides the user through the basics for simple projects then progresses to more intricate items. The first seven chapters explain the tools, knives, and wood needed as well as how to start and what to have in your toolbox. Clearly presented, easy instructions show the whittler how to complete 20 fun projects, including: forks whistles spoons back scratchers perching birds dog head stick handles Whittling is an art form and the handbook explores the time-honored craft of creating attractive objects at little cost. Peter Benson iterates that basic premise in the introduction: The big advantage of this hobby is there is no great initial expense. You can get under way with just

a sharp knife, a safety glove, perhaps an apron, and a piece of wood. Even the wood can be found in the garden or countryside for no cost at all.

In a fast-paced and noisy world that makes your head spin, the classic craft of whittling is the perfect antidote. It makes you slow down, take a breath, and live in the moment. Your hands are crafting instead of typing or texting. Best of all, whittling is simple to learn, lasts a lifetime, and requires only a simple knife. It's no wonder it's become more popular over recent years. No longer something only old men do, whittling has reached parents spending time with kids, techies taking a break from computer screens, and anyone who enjoys being outdoors. In *Classic Whittling*, author Rick Wiebe - a whittler for more than 60 years - provides the fundamentals for anyone looking to slow down and learn this classic craft. *Classic Whittling* begins with the basics of a good knife and how to keep it sharp. Wiebe then covers the best woods to use, ranging from sticks to blocks of wood, along with the basic techniques that will get you started. After that, there's no limit to what you can do. Projects start out with toys, a whistle, and "treens" -- simple forks, spoons, and other utensils used while camping. From there, it's on to the more challenging projects: the chain, the interlinking hearts, the ball-in-a-cage, the sphere-within-a-sphere and several other classics. This handy and fun guide covers them all step-by-step. By the end of *Classic Whittling*, your knife will become a magic wand that turns firewood into fun, fascinates your family and friends, and lowers your blood pressure.
