Active Duty Enlisted Administrative Separations (army Regulation 635-200). Cengage Learning Emea
 "This book aims to allow the Māori world to speak for itself through an accessible introduction to Māori culture, history and society from an indigenous perspective. In twenty-one illustrated chapters, leading scholars introduce Māori culture (including tikanga on and off the marae and key rituals like pāowhiri and tangihanga), Māori history (from the beginning of the world and the waka migration through to Māori protest and urbanisation in the twentieth century), and Māori society today (including twenty-first century issues like education, health, political economy and identity)"--

The number of students in higher education has expanded dramatically in recent years, but funding has not kept pace with this growth. The result is less contact time for lecturers and their students, and corresponding worries about how the quality of teaching and learning can be improved. Peer tutoring is one method which is growing in popularity, and has already proved successful in a number of countries. This book provides an introduction to the methods and practice of peer tutoring focusing on how to set up schemes and how to cope with common problems. It discusses the theory behind this form of learning and the beneficial effects associated with it. Summaries are included at the end of each chapter.

The Instant-Series Presents "Instant Mind Power" How to Train and Sharpen Your Mental Abilities Instantly! System Updating In Progress... Your mind is a superhuman computer. It houses all your cognitive abilities: concentration, memory, awareness, reasoning, perception, etc. It's the command center that controls your entire being. It's your very existence. Your mind is - who you are. MIND = YOU Wouldn't you like to enhance this power of your mind to... - Perform tasks and get things done faster - Memorize and recall things better - Learn anything easily without a sweat - Unleash your natural creative ability - Achieve the kind of success you want The capacity of limitless human potential and what your own mind can do for you are unfathomable. Scientists have proven that the more you use certain areas of your brain - like for learning - increases neural pathways comprised of neuron brain cells to build stronger and newer connections that are the makeup for our intelligence, making it easier to assimilate and process information faster like a supercomputer. Thus, you can upgrade your mind to be smarter through mental training, mind exercises, and even fun brain games. Within "Instant Mind Power": * How to perform a simple mind hack to process information then retrieve them from your memory bank like a recorded movie scene with every detail intact. * How to rewire your mind with the "mental numbing" technique to suppress your sensitivity to nonessential stimuli to give you unstoppable laser focus. * How to practice channeling your thoughts at an instant snap whenever you need to, so you have mastery control over whatever it is you want your mind to do instead of it controlling you. * How to program your mind through "horizontal mind mapping" to force it to get things done even when it's difficult or don't feel like it. * How to train your brain to its fully optimized-operating mode with a series of mind training so you can increase your mental abilities to think more clearly and quickly. * Plus, custom practical "how-to" strategies, techniques, applications and exercises on how to sharpen your mind. ...and much more. Your mind is the input correlating to the output of life you will have. Control your mind to conquer your life; and you can achieve the extraordinary. After all - a mind IS a terrible thing to waste. Reconfigure your human-computer hardware to be a superhuman intelligence.

Hearts and loyalties collide in this electrifying new YA series from New York Times bestselling author Jennifer A. Nielsen. Jennifer A. Nielsen's New York Times bestseller *The Traitor's Game*, which Entertainment Weekly called "the next big YA fantasy," is perfect for fans of the Red Queen series by Victoria Aveyard and the Throne of Glass series by Sarah J. Maas. Kestra Dallisor has spent three years in exile in the Lava Fields, but that won't stop her from being drawn back into her father's palace politics. He's second-in-command to the cruel king, Lord Endrick, which makes Kestra a valuable bargaining chip. A group of rebels knows this -- and they snatch Kestra from her carriage as she reluctantly travels home. The kidnapers want her to retrieve the lost Olden Blade, the only object that can destroy the king, but Kestra is not the obedient captive they expected. One of the rebels, Simon, has his hands full as Kestra tries to foil their plot, by any means necessary. As motives shift and secrets emerge, both have to decide what -- and who -- it is they're fighting for.

Many philosophers have been appointed to top-level political positions during Chile's modern history. What makes Chilean philosophers unique in the context of Latin America and beyond, is that they have developed a sophisticated rationale for both their participation and withdrawal from politics. All along, philosophers have grappled with fundamental problems such as the role of religion and politics in society. They have also played a fundamental role in defining the nature and aims of higher education. The philosophers' production constitutes a substantial, albeit largely unknown, portion of the intellectual history of Chile and Latin America. This book describes in detail the evolution of philosophical work in Chile, and pays close attention to the relationship between philosophical activity and contemporary social and political events. Various Chilean philosophical sources are discussed for the first time in the literature on Chilean ideas. The work of such intellectuals as Andres Bello, Valentin Letelier, Enrique Molina, Jorge Millas, Juan Rivano, Juan de Dios Vial Larrain, and many others is examined in relation to the principal political and educational issues of their time. The book also develops a distinction between the two main currents of Chilean philosophy, namely, a "professionalist" current that seeks the independence of the field from social and political involvements, and a "critical" current that seeks to relate philosophical activity to

national realities.

How is it that television has come to play such an important role in our culture? What, in fact, does it tell us, and how are its messages conveyed? What is it we find so satisfying in the format of television police series, or in quiz or sports programmes, that we enjoy watching them again and again? "Reading Television" pushes the boundaries of television studies beyond the insights offered by cultural studies and textual analysis, creating a vibrant new field of study. Using the tools and techniques in this book, it is possible for everyone who has access to a television set to produce illuminating analyses not only of the programmes themselves, but also of the culture which produces them.

Hello fellow health seeker, Thank you for checking my "Raw Food Smoothies for Ultimate Health" Guide! It's time to rescue snacks from the realm of empty-calorie packaged junk food and transform everyday pick-me-ups into healthful, satisfying mini meals. Why waste calories on cookies or chips that have no nutritional value and provide only short-term satisfaction when raw foods are delicious, simple to prepare, and bursting with natural energy boosters that everybody needs to stay fit and healthy? In this guide, you'll find 87 delicious smoothie recipes that will light up your life with fantastic energy and nutrition. I know I told you there were 80 recipes but I thought to throw in a few more as a bonus for you. The vast majority of these recipes only call for basic fruits and vegetables that can be purchased at your local grocery store. Other than that, you'll need a good blender or food processor to blend everything together. Most of the recipes also don't include water so feel free to add some to make the smoothie more or less runny. As I've already mentioned, smoothies are such an easy way to start eating (or should I say drinking) raw foods.

In 1976 a deadly virus emerged from the Congo forest. As swiftly as it came, it disappeared, leaving no trace. Over the four decades since, Ebola has emerged sporadically, each time to devastating effect. It can kill up to 90% of its victims. In between these outbreaks, it is untraceable, hiding deep in the jungle. The search is on to find Ebola's elusive host animal. And until we find it, Ebola will continue to strike. Acclaimed science writer and explorer David Quammen first came near the virus whilst travelling in the jungles of Gabon, accompanied by local men whose village had been

devastated by a recent outbreak. Here he tells the story of Ebola, its past, present and its unknowable future.

Consciousness begins with ourselves. When we have basic self-knowledge, we can then break out of the molds of our everyday lives and conditioning and start to make contact with a deeper and far more satisfying level of life and understanding. This basic introduction to self-knowledge is based on the system of esoteric development introduced to the West by Gurdjieff, with references to the writings of Krishnamurti. The only way of affecting change in our lives is to start within. Basic self-knowledge is the key to becoming more responsible for the quality of our lives, our future, and ultimately our inner peace and happiness.
