They put the SASS in ASSASSIN! Meet Max & Alex. Reformed intergalactic assassins-for-hire. On the run. Also super gay. Their former boss—a fluffy monkey with a jetpack—is hot on their tail to take back his stolen ship. They gotta eat (tacos preferably), so they take a mission from Alex's old flame. Your standard no-kill, casualty-free kidnapping recovery from a nearby moon. Only complication? Half the moon is ruled by a fascist dictator hostile to foreigners. They're the Killer Queens, so what could possibly

go wrong? Pretty much everything. After their ship is forced to crash land way off target, they have to escape from a high-security detention center run by a race of alien xenophobes. Then it's all laser blasts and one-liners until they face the choice between getting paid for their mission or helping out a struggling group of refugees fighting a rebellion. Tacos are overrated, anyway. Join rising star David M. Booher (Canto, Alien Bounty Hunter) and an all-LGBTQ creative team as they tackle issues of love, xenophobia, and the terror of fascist dictatorships in this hilarious sci-fi epic.

This definitive history of American xenophobia is "essential reading for anyone who wants to build a more inclusive society" (Ibram X. Kendi, New York Times bestselling author of *How to Be an Antiracist*). The United States is known as a nation of immigrants. But it is also a nation of xenophobia. In *America for Americans*, Erika Lee shows that an irrational fear, hatred, and hostility toward immigrants has been a defining feature of our nation from the colonial era to the Trump era. Benjamin Franklin ridiculed Germans for their "strange and foreign ways." Americans' anxiety over Irish Catholics turned xenophobia into a national political movement. Chinese immigrants were excluded, Japanese incarcerated, and Mexicans deported. Today, Americans fear Muslims, Latinos, and the so-called browning of America. Forcing us to confront this history, Lee explains how xenophobia works, why it has endured, and how it threatens America. Now updated with an epilogue reflecting on how the coronavirus pandemic turbocharged xenophobia, *America for Americans* is an urgent spur to action for any concerned citizen.

Individuality is the chief feature that characterizes the Greeks, which precludes any attempt to box and label them as a people. After that comes their temperament which flourishes uninhibited throughout their waking hours. This is probably why the ancient sages saw fit to carve their maxims "Nothing in excess" and "Know thyself" on the portals of the Delphic Oracle in an attempt to persuade their fellow Greeks to curb their emotionsthey were not heeded then any more than they are now."

The Norwegian man-hug is more a show of strength than a greeting and is usually a painful experience for the smaller of the two. There is nothing more important to Norwegians than enjoying the great outdoors. Happily, they have a lot of outdoors to enjoy. Foreigners brought up with the belief that relaxing involves lounging on the sofa may find leisure time in Norway challenging. What makes the Norwegians Norwegian? A witty guide to the views and values that shows why their way is the Norway. "Innate instincts""A Scotsman likes to feel that, almost by instinct, he could guddle a trout (palm it out of the water) or gralloch a deer (disembowel it with his knife), even if he spends his day driving a bus or designing software."""A kilty cover-up""If the Scots were to shed their seriousness, they would be noisier than the Neapolitans and wilder than the dancing Dervishes. Their reserve is not a defense against the rest of the world: it is a protective cover, like the lid of a nuclear reactor."""Rob joy""Calvinism is still deeply ingrained in the Scottish soul. A

Scottish poet, overcome by the joy of sunshine and blue sky, once cried out what a fine day it was. The woman to whom he spoke replied, We'll pay for it, we'll pay for it. """"Cunning and clever""The Scots respect cleverness and like to feel that they possess plenty of it themselves. In Scotland there is nothing wrong with being clever, so long as you show it by words or actions, rather than by bragging. You don't have to hide it. To say of someone that he has a good conceit of himself is neither praise nor blame, just a statement of fact.""

'Aussies do say "G'day". At all levels of friendship, all levels of formality and all levels of family familiarity. The first word between two lovers in the morning is "G'day". The other main greeting would have to be "G'day mate". The reason why this brief greeting has such universal acceptance is simple: it's the flies. The longer your mouth is open the more flies that can crawl in.' Xenophobia is an irrational fear of foreigners, probably justified, always understandable. 'One of the funniest books of the year' - Paul Ross, talkRADIO  
WARNING: CONTAINS AN UNLIKELY IMMIGRANT, AN UNSUNG

COUNTRY, A BUMPY ROMANCE, SEVERAL SHATTERED PRECONCEPTIONS, TRACES OF INSIGHT, A DOZEN NUNS AND A REFERENDUM. Not many Brits move to Poland to work in a fish and chip shop. Fewer still come back wanting to be a Member of the European Parliament. In 2016 Ben Aitken moved to Poland while he still could. It wasn't love that took him but curiosity: he wanted to know what the Poles in the UK had left behind. He flew to a place he'd never heard of and then accepted a job in a chip shop on the minimum wage. When he wasn't peeling potatoes he was on the road scratching the country's surface: he milked cows

with a Eurosceptic farmer; missed the bus to Auschwitz; spent Christmas with complete strangers and went to Gdansk to learn how communism got the chop. By the year's end he had a better sense of what the Poles had turned their backs on - southern mountains, northern beaches, dumplings! - and an uncanny ability to bone cod. This is a candid, funny and offbeat tale of a year as an unlikely immigrant.
