Vols. for 1887-1946 include the preprint
pages of the institute's Transactions.

Indian Engineering

Reprint of the original, first published in
1875.

Nomination of Otis M. Mader

Alleyne Ireland (1871-1951) was a Fellow
of the Royal Geographic Society in London
who, in 1901, was appointed by the
University of Chicago to head a
commission to study colonial

administration in the Far East. Ireland's first major project, published in 1907, was this exhaustive, two-volume study of Burma, at the time under British rule as a province of the Indian Empire. Volume one contains a general description of Burma, a history of Britain's acquisition of the colony, and chapters on the people, government, general administration, civil service, police administration, judicial administration, prison administration, and educational system. Volume two is devoted to economic and administrative affairs, including financial administration, the land revenue system, public works, trade and shipping, and the administration of forests, towns, villages, and harbors. Twenty-one appendices provide additional detail, including economic and demographic statistics, the texts of

treaties, agreements, and reports, a bibliography, and a glossary of Indian and Burmese words. At the end of volume one is a large foldout map of Burma by Edinburgh mapmakers John Bartholomew & Co.
