Alan Lomax's prolific sixty-four-year career as a folklorist and musicologist began with a trip across the South and into the heart of Louisiana's Cajun country during the height of the Great Depression. In 1934, his father John, then curator of the Library of Congress's Archive of American Folk Song, took an eighteen-year-old Alan and a 300-pound aluminum disk recorder into the rice fields of Jennings, along the waterways of New Iberia, and behind the gates of Angola State Penitentiary to collect vestiges of African American and Acadian musical tradition. These recordings now serve as the foundational document of indigenous Louisiana music. Although widely recognized by scholars as a key artifact in the understanding of American vernacular music, most of the recordings by John and Alan Lomax during their expedition across the central-southern fringe of Louisiana were never transcribed or translated, much less studied in depth. This volume presents, for the first time, a comprehensive examination of the 1934 corpus and unveils a multifaceted story of traditional song in one of the country's most culturally dynamic regions. Through his textual and comparative study of the songs contained in the Lomax collection, Joshua Clegg Caffery provides a musical history of Louisiana that extends beyond Cajun music and zydeco to the rural blues, Irish and English folk songs, play-party songs, slave spirituals, and traditional French folk songs that thrived at the time of these recordings. Intimate in its presentation of Louisiana folklife and broad in its historical scope, *Traditional Music in Coastal Louisiana* honors the

legacy of John and Alan Lomax by retrieving these musical relics from obscurity and ensuring their understanding and appreciation for generations to come. Includes: Complete transcriptions of the 1934 Lomax field recordings in southwestern Louisiana Side-by-side translations from French to English Photographs from the 1934 field trip and biographical details about the performers

This memoir is less a chronicle of the life of a leading scholar and critic of matters French than a series of differently angled fragments, each with its attendant surprise, in what one commentator has called Jeffrey Mehlman's amour vache—his injured and occasionally injurious love—for France and the French. The reader will encounter masters of the art of reading in these pages, the exhilaration elicited by their achievements, and the unexpected (and occasionally unsettling) resonances those achievements have had in the author's life. With all its idiosyncrasies, *Adventures in the French Trade* depicts an intellectual generation in ways that will attract not only people who recall the heady days of the rise and reign of French theory but also those who do not. This provocative book should be of interest to students of intellectual history, literary criticism, Jewish studies, the history of American academia, and the genre of the memoir itself.

With his acclaimed novels of World War II, David L. Robbins awakened a generation to the drama, tragedy, and heroism of some of history's greatest battles. Now he delivers a gripping and authentic story set against one of our greatest wartime achievements: the Red Ball Express, six thousand trucks and twenty-three thousand men—most of them African-American—who forged a lifeline of supplies in the Allied struggle to liberate France. June 1944. The Allies deliver a staggering blow to Hitler's Atlantic fortress, leaving the beaches and bluffs of Normandy strewn with corpses. The Germans have only one chance to stop the immense invasion—by bottling up the Americans on the Cotentin Peninsula. There, in fields crisscrossed with dense hedgerows, many will meet their death while others will search for signs of life. Among the latter are two very different men, each with his own demons to fight and his own reasons to risk his life for his fellow man. Joe Amos Biggs is an invisible “colored” driver in the Red Ball Express, the unheralded convoy of trucks that serves as a precious lifeline to the front. Delivering fuel and ammunition to men whose survival depends on the truckers, Joe Amos finds himself hungering to make his mark and propelled into battle among those who don't see him as an equal—but will need him

to be a hero. A chaplain in the demoralized 90th Infantry, Rabbi Ben Kahn is a veteran of the first great war and old enough to be the father of the GIs he tends. Searching for the truth about his own son, a downed pilot missing in action, Kahn finds himself dueling with God, wading into combat without a gun, and becoming a leader among men in need of someone—anyone—to follow. The prize: the liberation of Paris, where a ruthless American traitor known as Chien Blanc—White Dog—grows fat and rich in the black market. Whatever the occupied city's destiny, destroyed or freed, he will win. The fates of these three men will collide, hurtling toward an uncommon destiny in which people commit deeds they cannot foresee and can never truly explain. From the screams of German .88 howitzers to the last whispers of dying young soldiers, Robbins captures war in all its awful fullness. And through the eyes of his unique characters, he leaves us with a mature, brilliant, and memorable vision of humanity in the face of inhumanity itself.

White Dog

Hounds is a book for all those who admire the most endearing of sporting dogs, the scenthounds, the enthusiastic canine companions of the sportsmen who are thrilled by seeing a pack of hounds in full cry - watching these exceptional canine athletes exercising their delight in pursuing scent, whether real or artificial. Painstakingly researched and packed with information, this book covers both the well-known recognized breeds and the more obscure ones from overseas, some quite unknown to the British public. This book is not a manual covering training, grooming, nutrition and dog care; it is very much a celebration of the hound's contribution to the sporting and companion dog scene, and an examination of their past, their performance and their prospects in an increasingly urban society. This is the fourth and final volume of David's quartet on sporting dogs following: *Sporting Terriers* (2011), *Sighthounds* (2012) and *Gundogs* (2013), all published by Crowood.
