Karen
Armstrong
adalah penulis yang telah menghasilkan karya-karya gemilang tentang berbagai tradisi agama. Dalam setiap tulisannya, dia menampakkan kepiawaiannya menampilkan kajian yang rumit menjadi bahasan yang memikat dan mudah dimengerti. Penulis yang

bermukim di Inggris itu kini menampilkan biografi Nabi Muhammad, yang tentunya membawakan tafsiran yang baru dan mengejutkan yang selalu menjadi kekhasannya. Biografi Nabi Muhammad ini ditulis Karen pertama kali sebagai respons terhadap fatwa Ayatullah Khomeini terhadap Salman Rushdie. Hingga saat itu, kebanyakan literatur Barat menggambarkan

Muhammad entah sebagai orang suci yang sempurna atau sebagai penipu ulung. Armstrong berdiri di tengahnya: Muhammad ditampilkannya sebagai seorang luar biasa berbakat, pemberani, dan kompleks. Diperlihatkannya pula betapa karakter dan ide-ide Nabi demikian kuat untuk mengubah sejarah secara drastis dan menarik jutaan pengikut. Dengan mahir

<p>Karen menjalinkan di dalam narasinya jejak-jejak awal sejarah panjang permusuhan Barat terhadap Islam. Ditulis dengan riset yang kuat dan berdasarkan sumber-sumber yang berimbang, penggambaran Karen tentang Nabi dengan latar kehadirannya tentu dapat pula mencerahkan pembaca dengan pemahaman baru tentang kejadian-kejadian modern di</p>	<p>kancah politik internasional. Despite the country's transition to democracy, both the Criminal Code and the Criminal Procedure Code are badly out of

date, the former only superficially changed since colonial times and the latter remaining as it was under Soeharto's authoritarian New Order regime. Law enforcement officers and judges are widely seen as corrupt or incompetent, and new laws, including new Islamic laws passed at the regional level, often contradict the Criminal Code and national statutes, including human rights laws. This book, based

on extensive original research by leading scholars in the field, provides an overall assessment of the state of criminal law, law enforcement and penal policy in Indonesia, considers in depth a wide range of specific areas of criminal law, and discusses recent efforts at reform and their prospects for success. *NewMom 911* Gramedia Pustaka Utama We are

A timely ethnography of how Indonesia's coastal dwellers inhabit the "chronic present" of a slow-motion natural disaster. Ice caps are melting, seas are rising, and densely populated cities worldwide are threatened by

floodwaters, especially in Southeast Asia. Building on Borrowed Time is a timely and powerful ethnography of how people in Semarang, Indonesia, on the north coast of Java, are dealing with this global warming-driven existential challenge. In addition to antiflooding infrastructure breaking down, vast areas of cities like Semarang and Jakarta are rapidly sinking, affecting the very

foundations of urban life: toxic water oozes through the floors of houses, bridges are submerged, traffic is interrupted. As Lukas Ley shows, the residents of Semarang are constantly engaged in maintaining their homes and streets, trying to live through a slow-motion disaster shaped by the interacting temporalities of infrastructural failure, ecological deterioration, and urban

development. He casts this predicament through the temporal lens of a “meantime,” a managerial response that means a constant enduring of the present rather than progress toward a better future—a “chronic present.” Building on Borrowed Time takes us to a place where a flood crisis has already arrived—where everyday residents are not waiting for the effects of climate change but are in fact already living with it—and shows that life in coastal Southeast Asia is defined not by the temporality of climate science but by the lived experience of tidal flooding.

S Food & Agriculture Org. This is an open access book. Politeknik Perkeretaapian Indonesia Madiun, Indonesia, presents ICORT 2022 "Innovative

for Smart, Sustainable and Safe Transportation Systems," as its main focus. In response to several world challenges, such as sustainable development, transportation issues, global convergence of information and communications technologies, along with smart systems as opportunities as well as challenges in developments for better industries, it is considered important to discover innovative approaches from science and engineering perspectives. Innovation suggests the introduction of novelty to create better solutions. Innovation in engineering and science requires contributions from multidisciplinary sectors, academics, researchers, practitioners, and involving industries. All accepted papers from ICORT 2022 will be submitted in Proceeding or Jurnal Perkeretaapian Indonesia (Indonesian Railway Journal) (SINTA-indexed grade 4) or Journal of Railway Transportation and Technology (Indexed: Google Scholar, DOI, Dimensions, ROAD). Thus, ICORT 2022 invites academics or lecturers, researchers, practitioners, and involving industries in Science and Engineering fields to contribute their papers and works to be presented
