Health and Safety at Work  
Revision Guide Routledge  
Do you need to get to grips with health and safety principles but don't have time to wade through reams of legislation and guidance?

Do you need practical step-by-step guidance on health and safety issues for your small business? Then this is the book for you. The jargon-free Easy Guide to Health and Safety introduces the health and safety issues which the self-employed and managers, directors and staff with health and safety responsibilities in

small businesses face every day. Words and legislation are kept to a minimum and the text is supported by numerous relevant illustrations. The book is packed with practical guidance and solutions, as well as handy checklists and forms for your basic health and safety needs, especially useful when

setting up a new business. The book is also suitable for students on IOSH Working Safely and NVQ level 1 and 2 courses from City & Guilds and other NVQ awarding bodies. Phil Hughes is a well known UK safety professional with over thirty years world wide experience. He was Chairman of NEBOSH from 1995-2001 and President of IOSH in 1990-91. Phil received the RoSPA Distinguished service award in May 2001 and became a Director and Trustee of RoSPA in 2003. He

received an MBE in the New Year Honours List 2005 for services to Health and Safety. Liz Hughes taught psychology in further and higher education. She went on to qualify as a social worker specializing in mental health, and later moved into the voluntary sector where she managed development for a number of years. Liz has achieved NVQ training modules D32, 33 and 34 and has tutored students completing NVQ awards. Her psychology and education background

means that she is skilled in preparing readable, easily accessible information.

 Oxford University Press  
 In The A Level Mindset, Steve Oakes and Martin Griffin share the secrets of coaching students to develop the characteristics, habits and mindsets which will help them realise their potential. Those students who make real and sustained progress at A

level aren't necessarily the ones with superb GCSEs. Some students leap from average results aged 16 to outstanding results aged 18. Others seem to hit a ceiling. But why? It was in trying to answer this question that the VESPA system emerged. Steve and Martin have cut through the noise surrounding character development and identified five key characteristics that all students need to be successful: vision, effort, systems, practice and attitude. These

characteristics beat cognition hands down. Successful students approach their studies with the right behaviours, skills and attitudes: they understand how to learn and revise effectively, they're determined and organised, they give more discretionary effort and they get top results. Success at A level is a result of character, not intelligence. Much has been written about growth mindsets and character development in recent years, but teachers are still left wondering

how to apply these ideas in their contexts: how can these theories help learners in practice? Taking cues from the work of Peter Clough, Carol Dweck and Angela Lee Duckworth, and informed by their collective 30 plus years of teaching and coaching, Steve and Martin have spent years researching how character and behaviours affect student outcomes in their sixth form. After identifying the core traits that contributed to student success, they developed practical

activities to help every student develop the A Level Mindset. Discover 40 concrete, practical and applicable tools and strategies that will supercharge learners' ambition, organisation,

productivity, persistence and determination. Suitable for teachers, tutors, heads of sixth form or anyone else who wants to help A level students achieve their potential,

The A Level Mindset offers 40 easy-to-use activities to develop students' resilience, commitment, buoyancy, motivation and determination. It could be your key to transforming student outcomes.
