**The Story of
Jane Goodall**
HarperCollins
From world-
renowned
scientist Jane

Goodall, as
seen in the
new National
Geographic
documentary
Jane, comes
an inspiring
message
about the
future of the
animal
kingdom. With
the insatiable

curiosity and
conversational
prose that
have made
her a
bestselling
author,
Goodall -
along with
Cincinnati Zoo
Director
Thane
Maynard -

shares fascinating survival stories about the American Crocodile, the California Condor, the Black-Footed Ferret, and more; all formerly endangered species and species once on the verge of extinction whose populations are now being regenerated. Interweaving her own first-hand experiences in the field with the compelling research of premier scientists, Goodall illuminates

the heroic efforts of dedicated environmentalists and the truly critical need to protect the habitats of these beloved species. At once a celebration of the animal kingdom and a passionate call to arms, *Hope For Animals Their World* presents an uplifting, hopeful message for the future of animal-human coexistence. Praise for *Hope For Animals Their World* "Goodall's

intimate writing style and sense of wonder pull the reader into each account...The mix of personal and scientific makes for a compelling read."-Booklist "These accounts of conservation success are inspirational."-Publishers Weekly **Guided Practice for Reading Growth, Grades 4-8** Children's Press(CT) Presents a scientific chronicle of Jane Goodall's career and

documents the Gombe chimpanzees social behavior over the last 26 years.

Jane Goodall

Houghton Mifflin

Harcourt

Meet three inspirational women from the world of science: Ada Lovelace, Amelia Earhart, and Marie Curie! This set of three books from the internationally best-selling Little People, BIG DREAMS series introduces little dreamers to the lives of these

incredible women who worked in the field of science...and changed the world. In these remarkable true stories, learn how three women overcame hardship to achieve great success in science. Ada—despite growing up without a father and becoming very sick with measles as a child—went on to become the world's first computer programmer. Amelia challenged conventional stereotypes,

showing the world how brave and adventurous a woman could be by setting aviation records and undertaking dangerous flying missions. Marie Curie was unable to go to college because she was a woman, but became a renowned scientist and eventually won the Nobel Prize for Physics. Each of these moving books features stylish and quirky illustrations and extra facts at the

back, including a biographical timeline with historical photos and a detailed profile of the woman's life. Little People, BIG DREAMS is a best-selling series of books and educational games that explore the lives of outstanding people, from designers and artists to scientists and activists. All of them achieved incredible things, yet each began life as a child with a dream. This

empowering series offers inspiring messages to children of all ages, in a range of formats. The shorter books are told in simple sentences, perfect for reading aloud to babies and toddlers. The longer versions present expanded stories for beginning readers. Also available to collect are the sets Little People, BIG DREAMS: Women in Art, which includes editions of Audrey

Hepburn, Coco Chanel, and Frida Kahlo, and Black Voices, which includes Maya Angelou, Martin Luther King, Jr., and Rosa Parks. Inspire the next generation of outstanding people who will change the world with Little People, BIG DREAMS! **I am Jane Goodall** Penguin Patrick McDonnell-beloved, bestselling author-artist and creator of the Mutts syndicated comic strip-- shares the

inspiring story of young Jane Goodall, the legendary and inspiring conservationist featured in the hit documentary film *Jane*. In his characteristic heartwarming style, Patrick McDonnell tells the story of the young Jane Goodall and her special childhood toy chimpanzee named Jubilee. As the young Jane observes the natural world around her with wonder, she dreams of "a life living with and

helping all animals," until one day she finds that her dream has come true. With anecdotes taken directly from Jane Goodall's autobiography, McDonnell makes this very true story accessible for the very young--and young at heart. One of the world's most inspiring women, Dr. Jane Goodall is a renowned humanitarian, conservationist, animal activist, environmentalist, and United Nations

Messenger of Peace. In 1977 she founded the Jane Goodall Institute (JGI), a global nonprofit organization that empowers people to make a difference for all living things. *Jane Goodall* Astra Publishing House The renowned British primatologist continues the "engrossing account" of her time among the chimpanzees of Gombe, Tanzania (Publishers

Weekly). In her classic, *In the Shadow of Man*, Jane Goodall wrote of her first ten years at Gombe. In *Through a Window* she continues the story, painting a more complete and vivid portrait of our closest relatives. On the shores of Lake Tanganyika, Gombe is a community where the principal residents are chimpanzees. Through Goodall's eyes we watch young Figan's relentless rise to power and

old Mike's crushing defeat. We learn how one mother rears her children to succeed and another dooms hers to failure. We witness horrifying murders, touching moments of affection, joyous births, and wrenching deaths. As Goodall compellingly tells the story of this intimately intertwined community, we are shown human emotions stripped to their essence. In the mirror

of chimpanzee life, we see ourselves reflected. "A humbling and exalting book . . . Ranks with the great scientific achievements of the twentieth century."
—The Washington Post "[An] absolutely smashing account . . . Thrilling, affectionate, intelligent—a classic."
—Kirkus Reviews, starred review *The Ten Trusts* Grand Central Publishing
From world-renowned scientist Jane

Goodall, as seen in the new National Geographic documentary *Jane*, comes a poignant memoir about her spiritual epiphany and an appeal for why everyone can find a reason for hope. Dr. Jane Goodall's revolutionary study of chimpanzees in Tanzania's Gombe preserve forever altered the very definition of humanity. Now, in a poignant and insightful memoir, Jane Goodall

explores her extraordinary life and personal spiritual odyssey, with observations as profound as the knowledge she has brought back from the forest. [Africa in My Blood](#) Penguin Part of the critically acclaimed Little People, BIG DREAMS series, discover the amazing life of Jane Goodall, the world's foremost expert on chimpanzees. When Jane was little, her father gave her a toy

chimpanzee named Jubilee. This inspired her lifelong love of animals, and she went to study them in the wild as soon as she could. Jane lived with chimpanzees in their natural habitat and became famous for her pioneering approach to research. She now educates the public on animal rights and campaigns for environmental issues around the world. This moving book features stylish illustrations

and extra facts at the back, including a biographical timeline with historical photos and a detailed profile of the primatologist's life. Little People, BIG DREAMS is a best-selling biography series for kids that explores the lives of outstanding people, from designers and artists to scientists and activists. All of them achieved incredible things, yet each began life as a child with a dream.

This empowering series of books offers inspiring messages to children of all ages, in a range of formats. The board books are told in simple sentences, perfect for reading aloud to babies and toddlers. The hardcover and paperback versions present expanded stories for beginning readers. With rewritten text for older children, the treasuries each bring together a

multitude of dreamers in a single volume. You can also collect a selection of the books by theme in boxed gift sets. Activity books and a journal provide even more ways to make the lives of these role models accessible to children. Inspire the next generation of outstanding people who will change the world with Little People, BIG DREAMS! Eva Yale University Press
In graphic

novel format, tells the life story of animal scientist Jane Goodall.

Through a Window

National Geographic Kids

The classic study of primates.

The Chimpanzee Family Book

Random House Books for Young Readers

Bring history home and meet some of the world's greatest game changers! Get inspired by the true story of a famous researcher who studied

chimpanzees. This biography series is for kids who loved Who Was? and are ready for the next level.

In July 1960, Jane Goodall went into the wilderness in Tanzania to study chimpanzees.

For years she camped out with the chimps, observing their behavior and making amazing discoveries!

Jane had always been fascinated by animals and knew she wanted to make learning more about them her life's

work. Find out how this girl who loved animals became one of history's greatest trailblazers!

Trailblazers is a biography series that celebrates the lives of amazing pioneers, past and present, from all over the world. Get inspired by more

Trailblazers: Neil Armstrong, Jackie Robinson, Jane Goodall, Harriet Tubman, Albert Einstein, Beyoncé, and Simone Biles.

What kind of trail will you blaze?

Reason for Hope Penguin
Get to know trees. They're remarkable beings that enrich the whole planet and they're our best allies in the fight against climate change.

Chimpanzee Memoirs

Capstone
Examines the massive impact of colonial exploration on British scientific and literary activity between the 1760s and 1830s.

Who Is Jane Goodall?

Frances Lincoln
Children's Books
Eva's hospital room looks out onto the skyscrapers of a huge city, but since waking up from her coma she only dreams of trees
Thirteen-year-old Eva opens her eyes to find herself in a hospital, her body paralyzed while it heals from a devastating accident. Her mother says that Eva will be able to move her

hands and face soon and that everything is going to be fine, but something in her voice tells Eva it's not that simple. The doctors give Eva a keyboard that turns her typing into speech and controls a mirror that rotates to look around the room and out the window—every direction except back at her bed. What are the doctors trying to hide from her? And why, in an overpopulated

world where humans have tamed all the wild places, does Eva keep dreaming of a forest she's never seen? This ebook features an illustrated personal history of Peter Dickinson including rare images from the author's collection. Trailblazers: Jane Goodall Simon & Schuster Books For Young Readers Part of DK and Google's exciting family reference partnership, e.guides look

at core topics from many angles, using facts, data boxes, charts, and more, bringing together the best of the Web with DK's outstanding reference books. The book that is online-with a dedicated web site and all the latest links *Primates* iBooks 2017 is the 50th anniversary of The Dian Fossey Gorilla Fund and Karisoke Research Center in Rwanda. Three astounding

women scientists have in recent years penetrated the jungles of Africa and Borneo to observe, nurture, and defend humanity's closest cousins. Jane Goodall has worked with the chimpanzees of Gombe for nearly 50 years; Diane Fossey died in 1985 defending the mountain gorillas of Rwanda; and Biruté Galdikas lives in intimate proximity to the

orangutans of Borneo. All three began their work as protégées of the great Anglo-African archeologist Louis Leakey, and each spent years in the field, allowing the apes to become their familiars--and ultimately waging battles to save them from extinction in the wild. Their combined accomplishments have been mind-blowing, as Goodall, Fossey, and Galdikas forever changed how we think of

our closest evolutionary relatives, of ourselves, and of how to conduct good science. From the personal to the primate, Sy Montgomery--acclaimed author of *The Soul of an Octopus* and *The Good Good Pig*--explores the science, wisdom, and living experience of three of the greatest scientists of the twentieth century. *Untamed Sourcebooks, Inc.* From world-renowned

scientist Jane Goodall, as seen in the new National Geographic documentary *Jane*, comes a provocative look into the ways we can positively impact the world by changing our eating habits. "One of those rare, truly great books that can change the world."-John Robbins, author of *The Food Revolution* The renowned scientist who fundamentally changed the way we view primates and our

relationship with the animal kingdom now turns her attention to an incredibly important and deeply personal issue-taking a stand for a more sustainable world. In this provocative and encouraging book, Jane Goodall sounds a clarion call to Western society, urging us to take a hard look at the food we produce and consume-and showing us how easy it is to create

positive change.Offerin g her hopeful, but stirring vision, Goodall argues convincingly that each individual can make a difference. She offers simple strategies each of us can employ to foster a sustainable society. Brilliant, empowering, and irrepressibly optimistic, Harvest for Hope is one of the most crucial works of our age. If we follow Goodall's sound advice,

we just might save ourselves before it's too late.

The Great Apes Belknap Press
Jane Goodall's adventures with the chimpanzees and the important discoveries she has made about them have gained her worldwide recognition. Now she tells her exciting story in her own words! When Jane Goodall was twenty-six years old, she ventured into the forests of Africa to observe

chimps in the wild. On her expeditions she braved the dangers of the jungle and survived encounters with leopards and lions in the African bush. And she got to know an amazing group of wild chimpanzees - intelligent animals whose lives, in work and play and family relationships, bear a surprising resemblance to our own. Jane Goodall has also written the bestseller *In the Shadow of Man* and *The*

Chimpanzee Family Book. In 1977, she established the Jane Goodall Institute for Wildlife Research, Education, and Conservation to promote animal research throughout the world. SUMMARY: A DREAM COME TRUE From the time she was a girl, Jane Goodall dreamed of a life spent working with animals. Finally she had her wish. When she was twenty-six years old, she

ventured into the forests of Africa to observe chimpanzees in the wild. On her expeditions she braved the dangers of the jungle and survived encounters with leopards and lions in the African bush. And she got to know an amazing group of wild chimpanzees — intelligent animals whose lives, in work and play and family relationships, bear a surprising resemblance to our own. Jane Goodall's

adventures with the chimps and the important discoveries she has made about them have gained her worldwide recognition. Now she tells her exciting story in her own words.

Jane Goodall

EK Books
From legendary naturalist Jane Goodall, an absorbing fictional tale that will steal hearts and open minds about the plight of the pangolin, the only mammalian species with scales, and

endangered by illegal trafficking. After a blissful babyhood being cared for by her loving mother, Pangolina ventures out alone into the forest to become an independent adult, helped along by wise, older animal companions, including a civet and a bat. But one day cruel hunters trap Pangolina, putting her into a cage along with her friends, and bring them to a market to be sold as wild game.

Pangolina is especially vulnerable, since her scales are prized by humans who believe they have curative powers. To the rescue comes a small girl who knows that pangolins are friendly fellow creatures who have feelings too, and who convinces her mother to buy Pangolina and set her free. Jane Goodall's many followers and all animal-loving children and adult picture book fans will be riveted by this

suspenseful and heartwarming fictional story set in China and including an authoritative informational page about pangolins and suggestions for how to help fight animal trafficking. In the Shadow of Man Little, Brown Books for Young Readers A fun and immersive look into the lives of the three greatest primatologists of the twentieth century: Biruté Galdikas, Dian

Fossey, and Jane Goodall, from the #1 New York Times bestselling author of Feynman. *The Chimpanzees of Gombe* Grand Central Publishing Though Mary Shelley's *Frankenstein* has inspired a vast body of criticism, there are no book-length studies that contextualise this widely taught novel in contemporary scientific and literary debates. The essays in this volume by

leading writers in their fields provide new historical scholarship into areas of science and pseudo-science that generated fierce controversy in Mary Shelley's time: anatomy, electricity, medicine, teratology, Mesmerism, quackery and proto-evolutionary biology. The collection embraces a multifaceted view of the exciting cultural climate in Britain and Europe from

<p>1780 to 1830. While Frankenstein is all too often read as a cautionary tale of the inherent dangers of uncontrolled scientific experimentation, the essays here take the reader back to</p>	<p>a period when experimenters and radical thinkers viewed science as the harbinger of social innovation that would counter the virulent conservative backlash following the French</p>	<p>Revolution. The collection will be an invaluable resource for students and scholars specialising in Romanticism, cultural history, philosophy and the history of science.</p>
