God reveals Himself by His Redemptive name, Jehova-Rapha, translated "I am the Lord that

healeth thee" or "I am the Lord your Physical." Exo 15:26. Physical Healing is a Redemptive blessing, paid for on our behalf and in our name when Jesus Christ "Himself took our infirmities and bare our sicknesses" Matt 8:17 so that there could never be a doubt about His will to heal us. One of the most urgent human needs is for physical health. God provides physical health for you so that you can be your best for Him, for others, and for yourself. The words of healing expressed in this book can be alive as God is because His Words are Spirit and they are Life. John 6:63.

In 1743, sitting quietly with pen in hand, Sarah Osborn pondered how to tell the story of her life, how to make sense of both her spiritual awakening and the sudden destitution of her family. Remarkably, the memoir she created that year survives today, as do more than two thousand additional pages she composed over the following three decades. Sarah Osborn's World is the first book to mine this remarkable woman's prolific personal and spiritual record. Catherine Brekus recovers the largely forgotten story of Sarah Osborn's life as one of the most charismatic female religious leaders of her time, while also connecting her captivating story to the rising evangelical

movement in eighteenth-century America. A schoolteacher in Rhode Island, a wife, and a mother, Sarah Osborn led a remarkable revival in the 1760s that brought hundreds of people, including many slaves, to her house each week. Her extensive written record—encompassing issues ranging from the desire to be "born again" to a suspicion of capitalism—provides a unique vantage point from which to view the emergence of evangelicalism. Brekus sets Sarah Osborn's experience in the context of her revivalist era and expands our understanding of the birth of the evangelical movement—a movement that transformed Protestantism in the decades before the American Revolution.

The Good Life Cambridge Scholars Publishing

Part Bible commentary, and part commentary on contemporary issues, Rev. Frederick Osborn examines a broad range of topics relating to healing and health. Drawing on his many years of experience as a full-time missionary in South Asia, the author offers Christ-centered answers to questions believers around the world often ask concerning healing, and health. The Bible teaches us that wellness involves more than the physical body. True health and well-being requires the body, soul, and spirit of the individual to be in proper balance and in harmony with their Creator's divine design. Among the many names in Scripture that describe our God, Jehovah Rapha ("The Lord our healer"), is the one that best describes His healing attributes. Although most Christians believe God is able to heal, for most of them, when, where, why, and how God heals His people is still a mystery. It is the author's hope and prayer that this book will help those who read and study it to have a better understanding of our God the Healer.

God's Big Picture Harrison House

Obsessive-compulsive disorder (OCD) is a relentless condition, the primary symptom being the occurrence of terrifying ideas, images, and urges that jump into a person's mind and return again and again, despite the individual's attempt to remove them. Christians who suffer from OCD may grapple with additional guilt, as the undesired thoughts are frequently of a spiritual nature. Yet people may be surprised to learn that some of the greatest leaders in Christian history also struggled with this malady. What did they experience? How did they cope? Were they able to overcome these tormenting, often violent, obsessions? Where did God fit into the picture? Ian Osborn shares the personal accounts of Martin Luther, John Bunyan, and Saint Thérèse of Lisieux, as well as his own story, in exploring how faith and science work together to address this complex issue.
